SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0221.

Title: Section 90.155(b) and (d), Time in Which Station Must Be Placed in Operation.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and state, local or tribal government.

Number of Respondents: 1,768 respondents; 1,768 responses.

Estimated Time Per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 1,768 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this information collection to the OMB as a revision during this comment period to obtain the full three-year clearance from them. There is a decrease in the number of respondents/responses and burden hours.

Section 90.155(b) requires that a period longer than 12 months may be granted to local government entities to place their stations in operation on a case-by-case basis upon a showing of need. This rule provides flexibility to state and local governments. An application for extension of time to commence service may be made on FCC Form 601 (OMB Control No. 3060-0798). Extensions of time must be filed prior to the expiration of the construction period. Extensions will be granted only if the licensee shows that the failure to commence service is due to causes beyond its control.

For the revisions to this submission to the OMB, the Commission is requesting OMB approval for the following:

The Commission adopted and released a *Report and Order* in FCC 95-41, PR Docket No. 93-61 which established construction deadlines for Location and Monitoring Service (LMS) licensees in the MTA-licensed multilateration LMS services. The Commission is adding Section 90.155(d) to this information collection.

On July 8, 2004, the Commission adopted a *Report and Order* in FCC 04-166, WT Docket Nos. 02-381, 01-14, and 03-202 that amended Section 90.155(d) to provide holders of multilateration location service authorizations with five- and ten-year benchmarks to place in operation their base stations that utilize multilateration technology to provide multilateration location service to one-third of the Economic Area's (EAs) population within five years of initial license grant, and two-thirds of the population within ten years. At the five- and ten-year benchmarks, licensees are required to file a map with FCC Form 601 showing compliance with the coverage requirements pursuant to section 1.946 of the Commission's rules.

On January 31, 2007, via an *Order on Reconsideration and Memorandum Opinion and Order*, in DA 07-479, the FCC granted two to three additional years to meet the five-year construction requirements for certain multilateration Location and Monitoring Service Economic Area licenses, and extended the ten-year requirement for such licenses for two years.

Note: The cost and hour burdens for section 90.155(g) and (i) are accounted for under OMB Control No. 3060-0798 and are therefore not part of this information collection.

These requirements will be used by Commission personnel to evaluate whether or not certain licensees are providing substantial service as a means of complying with their construction requirements, or have demonstrated that an extended period of time for construction is warranted.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget, Comments Requested

December 17, 2007.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reductions Act (PRA) comments should be submitted on or before January 22, 2008. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via e-mail to *Nicholas_A._Fraser@omb.eop.gov* or via fax at (202) 395-5167 and to the Federal Communications Commission via e-mail to *PRA@fcc.gov* or by U.S. mail to Leslie F. Smith, Federal Communications Commission, Room 1-C216, 445 12th Street, SW., Washington, DC 20554 at 202-418-0217.

FOR FURTHER INFORMATION CONTACT: For additional information contact Leslie F. Smith via e-mail at *PRA@fcc.gov* or call 202-418-0217. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/>

Total Annual Burden: 1.0 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: Respondents may request that information be withheld from disclosure. Requests for confidentiality are processed in accordance with FCC rules under 47 CFR Section 0.459.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On August 29, 2007, the FCC released a *Report and Order* (“*R&O*”), Comprehensive Review of the Universal Service Fund Management, Administration, and Oversight; Federal-State Joint Board on Universal Service; Schools and Libraries Universal Service Support Mechanism; Rule Health Care Support Mechanism; Lifeline and Link-up; and Changes to the Board of Directors for the National Exchange Carrier Association, Inc., WC Docket No. 05–195 *et al.*, FCC 07–150.

In this *R&O*, the FCC has adopted new and revised information collection

requirements that include timely filing for Telecommunications Reporting Worksheets, a reminder that USF contributors must file FCC Forms 499–A and 499–Q on a periodic basis, document retention and recordkeeping requirements and administrative limitation periods for the high-cost, low-income, and rural health care universal service programs, and various other performance measures and reporting requirements for the universal service programs and for the Universal Service Fund (“USF”) Administrator. These recordkeeping and reporting requirements are part of the FCC’s continuing process to deter misconduct and inappropriate uses of the universal service funds. It is the FCC’s intention that these requirements will both safeguard the USF from waste, fraud, and abuse and improve the management, administration, and oversight of the USF. These information collection requirements are as follows:

Timely Filing for Worksheets: At present, Universal Service Fund contributors must file FCC Form 499–Q, “Telecommunications Reporting Worksheet” (“Worksheet”), on a timely filing basis and must not submit inaccurate or untruthful information. In addition, the *R&O* will require the USF Administrator to add information, *e.g.*, a notification requirement, to the monthly invoice sent to contributors. Each monthly invoice must now also include language pertaining to the Debt Collection Improvement Act (DCIA) of 1996, substantially as follows:

A failure to submit payment may result in sanctions, including, but not limited to, the initiation of proceedings to recover the outstanding debt, together with any applicable administrative charges, penalties, and interest pursuant to the provisions of the Debt Collection Act of 1982 (Public Law 97–365) and the Debt Collection Improvement Act of 1996, (Pub. L. 104–134) as amended (the “DCIA”), as set forth below.

The date of payment on the invoice is the due date. If full payment is not received by the date due, the debt is delinquent. Because the unpaid amount is a debt owed to the United States, we are required by the DCIA to impose interest and to inform you what may happen if you do not pay the full outstanding debt. Under the DCIA, the United States will charge interest at the annual rate equal to the U.S. prime rate as of the date of delinquency plus 3.5 percent from the date the contribution was due. This interest rate incorporates administrative charges of collection pursuant to 47 CFR 54.713. If the debt remains unpaid more than 90 days, you will be charged an additional penalty of

6 percent a year for any part of the debt that is more than 90 days past due. If the debt remains unpaid, the full amount of the outstanding debt may be transferred to the United States Department of Treasury (“Treasury”) for debt collection, and you will be required to pay the administrative costs of processing and handling a delinquent claim as set by the Treasury (currently 28 percent of the debt). However, if you pay the full amount of the outstanding debt and associated administrative fees and penalties within 30 days of the due date, the DCIA Interest will be waived. These requirements are set out at 31 U.S.C. 3717.

In addition to the language in the invoice, the *R&O* has specified that USF Administrator’s invoice shall state clearly that the invoiced amount is due on a specific date and that the debt is delinquent if not paid in full by that date. The USF Administrator’s invoices and any letters shall also explain the applicable sanction and administrative changes for late payments, *i.e.*, under 31 U.S.C. 3717, a delinquent debt that is not paid in full within 30 days from the date due will incur interest, and if not paid in full within 90 days from the due date, will also incur a penalty of 6 percent per year. In addition, the delinquent contributor will be assessed the administrative costs of collection, pursuant to 47 CFR 54.713 of FCC rules. Finally, an invoice sent after partial payment should show clearly that the payment was applied to outstanding penalties, administrative costs, accrued interest, and then to the oldest outstanding principal (“American Rule”).

Document retention requirements. Having concluded in the *R&O* that document retention and recordkeeping requirements not only prevent waste, fraud, and abuse, but also protect applicants and service providers in the event of vendor disputes, the FCC has adopted or revised several of these requirements that will demonstrate compliance with FCC rules and regulations and be available to the USF Administrator, auditors, and the FCC, as follows:

High-cost program. Recipients of universal service support for high-cost providers must retain all records that they may require to demonstrate to auditors that the support they received was consistent with the Communications Act of 1934, as amended, and FCC rules, assuming that the audits are conducted within five years of disbursement of such support. This *R&O* clarifies that beneficiaries must make available all such documents and records that pertain to them,

including those of NECA, contractors, and consultants working on behalf of the beneficiaries to the Commission's Office of Inspector General ("OIG"), to the USF Administrator, and to their auditors. See 47 CFR 54.202(e).¹

Low-income program. With respect to the two low-income universal service programs Lifeline and Link-Up, the FCC has concluded that it should maintain the current two-tiered document retention requirements. Participating service providers must retain a record verifying the eligibility of a recipient of the program for as long as the recipient continues to receive supported service and three years more, and to make it available in conjunction with any audit to which it may be relevant. However, the *R&O* removes the clause that waives the requirement to retain documentation of eligibility once an audit is completed. The FCC also clarifies that beneficiaries must make available all documentation and records that pertain to them, including those of contractors and consultants working on their behalf, to the Commission's OIG, to the USF Administrator, and to auditors working on their behalf. See 47 CFR 54.417(a).²

Rural health care and schools and libraries programs. The FCC maintains the current requirement that rural health care providers and schools and libraries must retain their records, which evidence that the funding they receive was proper, for 5 years. In addition, this requirement will now also apply to those service providers that receive support for serving rural health care providers. Furthermore, the FCC clarifies that beneficiaries must make available all documents and records that pertain to them, including those of contractors and consultants, working on their behalf, to the Commission's OIG, to the USF Administrator, and to their

auditors, as required by 47 CFR 54.516(a)³ and 47 CFR 54.619(a).⁴

Contributors. The *R&O* also requires contributors to the Universal Service Fund to retain all documents and records, e.g., financial statements and supporting documentation, etc., that they may require to demonstrate to auditors that their contributions were made in compliance with the program rules, assuming that audits are conducted within 5 years. The FCC clarifies that contributors must make available all documents and records that pertain to them, including those of contractors and consultants working on their behalf, to the Commission's OIG, to the USF Administrator, and to their auditors.

Connectivity. The FCC will require the USF Administrator to work with the Commission's Wireline Competition Bureau to modify the relevant FCC Forms or to create additional questions for USF program participants to determine more accurately how schools and libraries connect to the Internet and their precise levels of connectivity.

These new and revised information collection requirements, which include document retention and recordkeeping requirements, etc., will affect numerous information collections that the FCC currently maintains. Once OMB approves these requirements, the FCC will begin to update these information collections as required by the rules adopted in this *R&O*.
