Basis for Closure: The network security and global communications environment discussions will contain sensitive information concerning system threats and explicit physical/cyber vulnerabilities of the critical domestic communications infrastructure. Public disclosure of such information would heighten awareness of potential vulnerabilities and increase the likelihood of exploitation by terrorists or other motivated adversaries. Pursuant to Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. 1 *et seq.*), the Department has determined that this discussion will concern matters which, if disclosed, would be likely to frustrate significantly the implementation of a proposed agency action. Accordingly, the relevant portion of this meeting will be closed to the public pursuant to the authority set forth in 5 U.S.C. 552b(c)(9)(B).
