

(23) Applicants are encouraged, but not required, to include a checklist of all of the application requirements and to have their application indexed and tabbed to facilitate the review process.

V. Application Review Information

All applications for sections 514 and 516 funds must be filed with the appropriate Rural Development State Office and must meet the requirements of this NOFA.

Selection Criteria

Section 514 loan funds and section 516 grant funds will be distributed to States based on a national competition, as follows:

(1) States will accept, review, and score requests in accordance with the NOFA. The scoring factors are:

(a) The presence and extent of leveraged assistance, including donated land, for the units that will serve program-eligible tenants, calculated as a percentage of the RHS total development cost (TDC). RHS TDC excludes non-RHS eligible costs such as a developer's fee. Leveraged assistance includes, but is not limited to, funds for hard construction costs, section 8 or other non-RHS tenant subsidies, and state or federal funds. A minimum of ten percent leveraged assistance is required to earn points; however, if the total percentage of leveraged assistance is less than ten percent and the proposal includes donated land, two points will be awarded for the donated land. To count as leveraged funds for purposes of the selection criteria, a commitment of funds must be provided with the preapplication. Points will be awarded in accordance with the following table percentages will be rounded to the next higher or lower number. (0 to 20 points)

Percentage	Points
75 or more	20
60-74	18
50-59	16
40-49	12
30-39	10
20-29	8
10-19	5
0-9	0

Donated land in proposals with less than ten percent total leveraged assistance: 2 points

(b) Percent of units for seasonal, temporary, migrant housing. (5 points for up to and including 50 percent of the units; 10 points for 51 percent or more.)

(c) The selection criteria includes one optional criteria set by the National Office. The National Office initiative will be used in the selection criteria as follows: Up to 10 points will be

awarded based on the presence of and extent to which a tenant services plan exists that clearly outlines services that will be provided to the residents of the proposed project. These services may include, but are not limited to, transportation related services, on-site English as a Second Language (ESL) classes, move-in funds, emergency assistance funds, homeownership counseling, food pantries, after school tutoring, and computer learning centers. Two points will be awarded for each resident service included in the tenant services plan up to a maximum of 10 points. Plans must detail how the services are to be administered, who will administer them, and where they will be administered. All tenant service plans must include letters of intent that clearly state the service that will be provided at the project for the benefit of the residents from any party administering each service, including the applicant. (0 to 10 points)

(d) In an effort to implement USDA's nationwide initiative to promote renewable energy and energy conservation, Rural Development (RD) has adopted incentives for energy generation and energy conservation. Participation in these nationwide initiatives is voluntary, but is strongly encouraged.

Energy Generation. Applicants will be awarded points if the proposal includes the installation of energy generation systems to be funded by a third party. The proposal must include an overview of the energy generation system being proposed. Evidence that an energy generation system has been funded by a third party and that it has a quantifiable positive impact on energy consumption will be required. (5 points)

Energy Conservation. Applicants will be awarded points to construct (or substantially rehabilitate) housing that earns the ENERGY STAR label for new residential construction. Units earning the ENERGY STAR label must be independently verified to meet guidelines for energy efficiency as set by the U.S. Environmental Protection Agency. All procedures used in verifying a unit for the ENERGY STAR label must comply with National Home Energy Ratings System (HERS) guidelines. ENERGY STAR guidelines for residential construction apply to homes that are three stories or less and single or low-rise multi-family residential buildings.

The Applicant will include in the narrative an explanation of how they plan to incorporate ENERGY STAR. Construction plans pertaining to energy efficiency must be developed with, reviewed, and accepted by a HERS

certified rater, the contractor, and the owner. Progress inspections must be made at appropriate times by a HERS certified rater to ensure that the housing is being constructed or rehabilitated according to ENERGY STAR specifications. In order to receive final payment, applicants will be required to submit the appropriate rating reports from the HERS rater to RD as evidence that the housing has been constructed to meet the standards of ENERGY STAR. In the event that housing does not meet ENERGY STAR guidelines for new residential construction, the Agency shall, at its discretion, deduct 5 points from future funding proposals. For further information about ENERGY STAR, see <http://www.energystar.gov> or call the following toll-free numbers: (888) 782-7939 or (888) 588-9920 (TTY). (5 points)

(2) Rural Development States Offices will conduct the preliminary eligibility review, score the applications, and forward them to the National Office.

(3) The National Office will rank all requests nationwide and distribute funds to States in rank order, within funding and RA limits. A lottery in accordance with 7 CFR 3560.56(c)(2) will be used for applications with tied point scores when they all cannot be funded. If insufficient funds or RA remain for the next ranked proposal, that applicant will be given a chance to modify their application to bring it within remaining funding levels. This will be repeated for each next ranked eligible proposal until an award can be made or the list is exhausted.

Dated: April 12, 2007.

To comply with the President's Management Agenda, the Department of Agriculture is participating as a partner in the new government-wide site in FY 2007 grants.gov. The Web site can be found at www.grants.gov. Housing Preservation Grants [Catalog of Federal Domestic Assistance #10.433] is one of the programs included at this Web site. Please note that you must locate the downloadable application package for this program by the CFDA Number or FedGrants Funding Opportunity Number, which can be found at <http://www.fedgrants.gov>. If you are an applicant under the Housing Preservation Grant Program, you may submit your application to the Agency in either electronic or paper format. The deadline for electronic and paper format is based on the local time for each USDA Rural Development State Office.

Users of grants.gov will be able to download a copy of the application package, complete it off line, and then upload and submit the application via the grants.gov site. You may not e-mail an electronic copy of a grant application to RHS; however, the Agency encourages your participation in grants.gov. The following are useful tips and instructions on how to use the Web site:

- When you enter the grants.gov site, you will find information about submitting an application electronically through the site as well as the hours of operation. RHS strongly recommends that you do not wait until the application deadline date to begin the application process through grants.gov. To use grants.gov, applicants must have a DUNS number.

- You may submit all documents electronically through the Web site, including all information typically included on the Application for Rural Housing Preservation Grants, and all necessary assurances and certifications.

- Your application must comply with any page limit requirements described in this NOFA.

- After you electronically submit your application through the Web site, you will receive an automatic acknowledgement from grants.gov that contains a grants.gov tracking number.

- RHS may request that you provide original signatures on forms at a later date.

- You must meet the closing date and local time deadline. If you experience technical difficulties on the closing date and are unable to meet the 5 p.m. (Washington, DC time) deadline, print out your application and submit it to your State Office.

Applicants should review 7 CFR part 1944, subpart N for a comprehensive list of all application requirements.

IV. Selection Criteria

The Rural Development State Offices will utilize the project selection criteria for applicants in accordance with § 1944.679.

In addition to the criteria established in 7 CFR part 1944.679 and in an effort to implement USDA's nationwide initiative to promote renewable energy and energy conservation, Rural Development (RD) has adopted

incentives for energy generation and energy conservation. Participation in these nationwide initiatives is voluntary, but is strongly encouraged.

Energy Generation. Applicants will be awarded points if the proposal includes the installation of energy generation systems to be funded by a third party. The proposal must include an overview of the energy generation system being proposed. Evidence that an energy generation system has been funded by a third party and that it has a quantifiable positive impact on energy consumption will be required. (5 points)

Energy Conservation. Applicants will be awarded points to construct (or substantially rehabilitate) housing that earns the ENERGY STAR label for new residential construction. Units earning the ENERGY STAR label must be independently verified to meet guidelines for energy efficiency as set by the U.S. Environmental Protection Agency. All procedures used in verifying a unit for the ENERGY STAR label must comply with National Home Energy Ratings System (HERS) guidelines. ENERGY STAR guidelines for residential construction apply to homes that are three stories or less and single or low-rise multi-family residential buildings.

The Applicant will include in the narrative an explanation of how they plan to incorporate ENERGY STAR. Construction plans pertaining to energy efficiency must be developed with, reviewed, and accepted by a HERS certified rater, the contractor, and the owner. Progress inspections must be made at appropriate times by a HERS certified rater to ensure that the housing is being constructed or rehabilitated according to ENERGY STAR specifications. In order to receive final payment, applicants will be required to submit the appropriate rating reports from the HERS rater to RD as evidence that the housing has been constructed to meet the standards of ENERGY STAR. In the event that housing does not meet ENERGY STAR guidelines for new residential construction, the Agency shall, at its discretion, deduct 5 points from future funding proposals. For further information about ENERGY STAR, see <http://www.energystar.gov> or call the following toll-free numbers: (888) 782–7939 or (888) 588–9920 (TTY). (5 points)

In the event more than one preapplication receives the same amount of points, those preapplications will then be ranked based on the actual percentage figure used for determining the points. Further, in the event that preapplications are still tied, then those pre-applications still tied will be ranked

based on the percentage for HPG fund use (low to high). Further, for applications where assistance to rental properties or cooperatives is proposed, those still tied will be further ranked based on the number of years the units are available for occupancy under the program (a minimum of 5 years is required).

For this part, ranking will be based from most to least number of years. Finally, if there is still a tie, then a lottery system will be used.
