SUPPLEMENTARY INFORMATION: This webcast meeting has been made possible by the cooperation of the National Science Foundation, HUD, and the GPC.

Webcast Materials: Webcast materials including the agenda, the GPC's draft Strategic Plan, its list of potential future projects, webcast meeting slides, and feedback form are posted under the October 30, 2007 meeting materials. http://www.grants.gov/aboutgrants/grants_news.jsp.

Purpose of the webcast meeting: The purpose of the webcast meeting is to receive public input on the draft strategic plan of the GPC. Specifically, the Committee seeks stakeholder input into the language describing the mission, vision, goals, and objectives of the GPC. The Committee will also seek input from the public regarding a list of *potential future products* that the GPC may undertake in order to implement its strategy. This draft list will present examples of possible products the GPC might undertake in order to implement its Strategic Plan. The list is not intended to represent a comprehensive list of all possible GPC products, nor does the list guarantee that the GPC will produce all of the listed products.

The webcast materials are being offered to stimulate public input into the GPC's long-term planning and prioritization efforts and to receive input from stakeholders to inform government efforts as they relate to streamlining and stewardship of federal

policy and practice relating to grants, cooperative agreements, and federal financial assistance.

Meeting structure and agenda: The October 30 webcast meeting will have the following structure and agenda:

- (1) Welcome by the host agency;
- (2) Presentation of Draft Strategic Plan by the Chair of the GPC;
- (3) Presentation of list of *potential future products* by the Chair of the GPC;
- (4) Participants' discussion, questions and comments.

Background: Background about the FGSI is set forth in the **Federal Register** published on September 13, 2006 (71 FR 54098).

Dated: October 3, 2007.

NUCLEAR REGULATORY COMMISSION

Notice of Intent To Establish Independent External Review Panel To Identify Vulnerabilities in the U.S. Nuclear Regulatory Commission's Material Licensing Program

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: This notice is to announce the NRC intends to establish a new advisory committee.

SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (NRC) is chartering a new advisory committee. This action is being taken in accordance with the Federal Advisory Committee Act, after consultation with the Committee Management Secretariat, General Services Administration. The committee, designated as the Independent External Review Panel to Identify Vulnerabilities in the U.S. Nuclear Regulatory Commission's Material Licensing Program is being tasked to respond to the NRC Office of the Inspector General (OIG) recommendation (OIG-07-A-12), " * * * that the Executive Director for Operations convene an independent panel of experts external to the agency to identify agency vulnerabilities concerning NRC's material licensing and tracking programs and validate the agency's ongoing byproduct material security efforts." The OIG report also stated, "Such an assessment should necessarily include examination of the management, operational, and technical security controls and the extent to

which these controls are: (1) Implemented correctly, (2) operating as intended, and (3) producing the desired outcome with respect to mitigating security vulnerabilities."

In responding to this recommendation, the panel will include in its review an assessment of the existing and potential security vulnerabilities related to NRC's specific, import, export and general license programs. The panel is to also evaluate the apparent good-faith presumption that pervades the NRC licensing process (See Recommendation S-1 in the Action Plan).

The panel is expected to develop an agenda and plan for the review; this plan will include, as a minimum, assessment of pre-licensing guidance, licensing procedures, the licensing process, possession limits on licenses, and license reviewer training and oversight. The panel will document each significant issue identified and make appropriate recommendations and propose corrective actions.

The panel is being asked to complete and submit a report with recommendations to the Director of the Office of Federal and State Materials and Environmental Management Programs by January 31, 2008. In addition to documenting its recommendations and the bases for those recommendations, the panel will be asked to document other options that were considered and the reasons for not adopting them.

For Further Information Please Contact: Aaron McCraw (301-415-1277) ATM@NRC.GOV, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Dated: October 3, 2007.

Andrew L. Bates,

Federal Advisory Committee Management Officer.
