

performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. For specific requirements on grantee reporting, please go to: <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* For FY 2007, grants under the ECEPD program will be governed by the achievement indicators that the Secretary published in the **Federal Register** on March 31, 2003 (68 FR 15646). These achievement indicators are included in the application package.

In addition, under the Government Performance and Results Act of 1993 (GPRA), the Secretary has established the following measures for evaluating the overall effectiveness of the ECEPD program, which are coordinated with the program's achievement indicators and are included in the application package: (1) The ECEPD teacher's average score on the Early Language and Literacy Classroom Observation (ELLCO); and (2) the percentage of children who demonstrate improved readiness for school in the areas of early language (as measured by the Peabody Picture Vocabulary Test—III (PPVT—III), Receptive) and early literacy (as measured by the PALS Pre-K, Upper Case Alphabet Knowledge subtask). The coordination of these achievement indicators and performance measures is designed to improve program management, and to help Congress, the Department, the Office of Management and Budget, and others review a program's progress toward its goals. All grantees must document participant outcomes on these performance measures in the annual performance report referenced in section VI. 3. of this notice. The applicant's evaluation design provided in response to the selection criterion for *Quality of project evaluation* in section V. 1. of this notice should include the use of these assessment tools, at a minimum.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 *et seq.*) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3501, *et seq.*), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the EIA will later seek approval by the Office of Management and Budget (OMB) under Section 3507(a) of the Paperwork Reduction Act of 1995.

Form EIA-886, Annual Survey of Alternative Fueled Vehicle Suppliers & Users is an annual survey that collects information on: (1) The number and type of alternative fueled vehicles (AFVs) and advanced technology vehicles that vehicle suppliers made available in the previous calendar year and plan to make available in the following calendar year; (2) The number, type and geographic distribution of AFVs in use in the

previous calendar year; (3) the amount and distribution of each type of alternative transportation fuel (ATF) consumed in the previous calendar year; (4) the miles traveled by AFVs; and (5) the number, type, and disposition of retired AFVs in the previous calendar year. The EIA-886 data are collected from suppliers and users of AFVs. The objectives of the EIA-886 survey are to: (1) Comply with section 503 of the Energy Policy Act of 1992 (EPACT) that requires the EIA to collect information and provide estimates related to alternative fueled vehicles, alternate transportation fuels, and replacement fuels; (2) Satisfy public requests for information on AFVs and ATFs; (3) Provide Congress with a measure of the extent to which the objectives of EPACT are being achieved; and (4) Provide EIA with a basis for estimating and forecasting total AFV and ATF use in the U.S. The results of the EIA-886 are released annually on EIA's Web site at <http://www.eia.doe.gov/fuelrenewable.html>.

Please refer to the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the **FOR FURTHER INFORMATION CONTACT** section.

II. Current Actions

EIA will be requesting a three-year extension of approval to its Annual Survey of Alternative Fueled Vehicle Suppliers & Users and will be requesting one change with respect to the form title. For simplification, EIA proposes to change the form title to "Annual Alternative Fueled Vehicle Survey."

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments.

General Issues

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.
