

protection seller relative to a reference obligation issued by an insured institution.

- *Market-based default indicators:* estimates of the likelihood of default by an insured organization that are based on either traded equity or debt prices.

- *Qualitative market indicators or mitigating market factors:* includes considerations such as agency rating outlooks, debt and equity analyst opinions and outlooks, and the relative level of liquidity of any debt and equity issues used to develop market indicators defined above.

#### Risk Measures Pertaining to Stress Conditions

##### Ability To Withstand Stress Conditions

- *Concentration measures:* measures of the level of concentrated risk exposures and extent to which an insured institution's capital and earnings would be adversely affected due to exposures to common risk factors such as the condition of a single obligor, poor industry sector conditions, poor local or regional economic conditions, or poor conditions for groups of related obligors (e.g., subprime borrowers).

- *Results of stress tests or scenario analyses:* measures of the extent of capital, earnings, or liquidity depletion under varying degrees of financial stress such as adverse economic, industry, market, and liquidity events.

- *Qualitative and mitigating factors relating to the ability to withstand stress conditions:* includes considerations such as the comprehensiveness of risk identification and stress testing analyses, the plausibility of stress scenarios considered, and the sensitivity of scenario analyses to changes in assumptions.

##### Loss Severity Indicators

- *Non-deposit liabilities to total liabilities:* the sum of obligations, such as subordinated debt, that would have a subordinated claim to the institution's assets in the event of failure divided by total liabilities.

- *Secured (priority) liabilities to total liabilities:* the sum of claims, such as trade payables and secured borrowings, that would have priority claim to the institution's assets in the event of failure divided by total liabilities.

- *Foreign deposits to total liabilities:* foreign deposits divided by total liabilities.

- *Extent of insured assets held in foreign units:* amount of assets held in foreign offices.

- *Liquidation value of assets:* estimated value of assets, based largely on historical loss rates experienced by the FDIC on various asset classes, in the event of liquidation.

- *Qualitative and mitigating factors relating to loss severity:* includes considerations such as the sufficiency of information and systems capabilities relating to qualified financial contracts and deposits to facilitate quick and cost efficient resolution, the extent to which critical functions or staff are housed outside the insured entity, and prospects for ring-fencing in the event of failure.

#### Proposed Information Collection Activity; Comment Request

##### Proposed Projects

*Title:* Help America Vote Act (HAVA) Voting Access Annual Report.

*OMB No.:* New Collection.

*Description:* An annual report is required by Federal statute (the Help America Vote Act (HAVA) of 2002, Public Law 107-252, Section 291, Payments for Protection and Advocacy Systems, 42 U.S.C. 15461). Each State or Unit of Local Government must prepare and submit an annual report at the end of every fiscal year. The report addresses the activities conducted with the funds provided during the year. The information collected from the annual report will be aggregated into an annual profile of how States have utilized the funds and establish best practices for election officials. It will also provide an overview of the State election goals and accomplishments and permit the Administration on Developmental Disabilities to track voting progress to monitor grant activities.

*Respondents:* Secretaries of State, Directors, State Election Boards, State Chief Election Officials.
