

STANS will be applied, but each class of CDBOs and CDOs will be treated as a separate portfolio and will not be included within the entire portfolio of a particular account. An exception to this will be in the case where a firm has a net long position in CDBO or CDO contracts that are not required to be segregated and the risk computed under this methodology is less than 100% of the premium value of the net long position, the excess long value will be used to cover requirements associated with other cleared contracts. This margin methodology will result in a more conservative risk estimate than if the contracts were fully integrated in STANS since offsets in the risk calculation between these products and others will not be recognized except to the extent of any excess long value. Ultimately, CDBOs will be incorporated into the STANS system and will be valued and margined on a risk basis.

OCC does not propose to accept escrow deposits in lieu of clearing margin for CDBOs. Therefore, Rule 1506 states that Rule 610, which otherwise would permit such deposits, does not apply to CDBOs.

7. Acceleration of Expiration Date—Rule 1507

This provision would accelerate the expiration date of a single payout CDBO when the option is deemed to have been automatically exercised on any day prior to the expiration date and to accelerate the expiration date of a multiple payout CDBO when the option is deemed to have been automatically exercised with respect to every reference entity underlying such option prior to the expiration date.

The proposed changes to OCC's By-Laws and Rules are consistent with the purposes and requirements of Section 17A of the Act, as amended, because they are designed to promote the prompt and accurate clearance and settlement of transactions in, including exercises of, credit default basket options, to foster cooperation and coordination with persons engaged in the clearance and settlement of such transactions, to remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of such transactions, and in general to protect investors and the public interest. They accomplish these purposes by applying substantially the same rules and procedures to these transactions as OCC applies to similar transactions in other cash-settled options except to the extent that special rules and procedures are required in order to accommodate unique features of CDBOs. Other than as

described in this Item II, the proposed rule change is not inconsistent with the existing rules of OCC, including rules proposed to be amended.

B. Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period:

(i) As the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Missing and Discrepant Wage Reports Letter and Questionnaire—26 CFR 31.6051-2-0960-0432. Each year

employers report the wage amounts they paid their employees to the IRS for tax purposes, and separately to SSA for retirement and disability coverage purposes. These reported amounts should equal each other; however, each year some of the employer wage reports that SSA receives are less than the wage amounts reported to the IRS. SSA attempts to ensure that employees receive full credit for the wages that they have earned through the use of the forms SSA-L93-SM; SSA-L94-SM; SSA-95-SM and SSA-97-SM. Respondents are employers who reported less wage amounts to SSA than they reported to the IRS.
