SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions by issuing a Record of Decision (ROD) and approvals for the following highway project in the State of Washington. When completed, the SR 167 Extension project will replace the existing arterial route that follows River Road with six miles of new freeway north of the Puyallup River. This will complete the existing SR 167 from State Route 161 in Puyallup to Interstate 5 in Fife, with a connection to State Route 509 near the Port of Tacoma. When construction funding is secured, the project will be built in stages as money becomes available. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the November 2006 Final Environmental Impact Statement (FEIS) and the October 2, 2007 ROD, and in other documents in the FHWA administrative record. The FEIS, ROD, and other documents in the FHWA administrative record are available by contacting the FHWA or WSDOT at the addresses provided above. The FEIS and ROD can also be viewed and downloaded from the project Web site at <http://www.wsdot.wa.gov/Projects/SR167/TacomaToEdgewood/> or viewed at public libraries in the project area. Since federal funding is not currently available for this project, an FHWA project number has not been established.

ACTION: Notice of receipt of petition for decision that nonconforming 1988 Ducati 851 motorcycles are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that 1988 Ducati 851 motorcycles that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards (FMVSS) are eligible for importation into the United States because (1) they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies, LLC, of Baltimore, Maryland ("J.K.") (Registered Importer 90-006) has petitioned NHTSA to decide whether non-U.S. certified 1988 Ducati 851 motorcycles are eligible for importation into the United States. The vehicles that J.K. believes are substantially similar are 1988 Ducati 851 motorcycles that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it carefully compared non-U.S. certified 1988 Ducati 851 motorcycles to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

J.K. submitted information with its petition intended to demonstrate that non-U.S. certified 1988 Ducati 851 motorcycles, as originally manufactured, conform to many FMVSS in the same manner as their U.S.

certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 1988 Ducati 851 motorcycles are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 106 *Brake Hoses*, 111 *Rearview Mirrors*, 116 *Brake Fluid*, 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*, 120 *Tire Selection and Rims for Vehicles other than Passenger Cars*, 122 *Motorcycle Brake Systems*, and 123 *Motorcycle Controls and Displays*.

The petitioner further contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated below:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* Installation of U.S.-certified headlamps.

Standard No. 205 *Glazing Materials:* Inspection of all vehicles, and removal of noncompliant glazing or replacement of the glazing with U.S.-certified components on vehicles that are not already so equipped.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: October 16, 2007.

Director, Office of Vehicle Safety Compliance.
