Overview of this information collection:

(1) *Type of Information Collection:* New data collection.

(2) *Title of the Form/Collection:* Former Prisoner Survey.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* FPS (Survey Questionnaire), FPS-1 (Records Form), FPS-2 (Roster Verification Form), and FPS-C (Consent to Participate in Research). The Bureau of Justice Statistics, Office of Justice Programs, Department of Justice, is the sponsor for the collection.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or Households. Other: State, Local, or Tribal Government. The work under this

clearance will be used to develop surveys to produce national estimates for the incidence and prevalence of sexual assault within correctional facilities as required under the Prison Rape Elimination Act of 2003 (Pub. L. 108-79).

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 16,500 former prisoners will be interviewed. Of these, 87% (14,355) are estimated to be non-victims and will spend approximately 30 minutes on average responding to the survey, while 13% (2,145) will be victims and will spend approximately 40 minutes on average responding to the survey. Approximately 200 parole office groupings will be asked to develop and verify rosters of eligible parolees and provide background and contact information for those cases sampled. It is estimated that the rostering and verification process will average approximately 2 hours and 10 minutes per office. Providing contact and background information will average 10.84 hours for the 140 smaller offices (with smaller sample sizes) and 21.67 hours for the 60 larger offices (with larger sample sizes). The total average burden will thus be 13 hours for the 140 smaller offices and 24 hours for the 60 larger offices.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 11,858 total burden hours associated with this collection.
