

Committee is to provide advice on the conduct of a study titled "Analyses of the effects of global change on human health and welfare and human systems" to be conducted as part of the U.S. Climate Change Science Program (CCSP). This assessment is part of a comprehensive set of assessments identified in the CCSP's Strategic Plan. HICCAC will advise on the specific issues that should be addressed in the assessment, appropriate technical approaches, the nature of information relevant to decision makers, the content of the assessment report, and other scientific and technical matters that may be found to be important to the successful completion of the study. EPA has determined that this federal advisory committee is in the public interest and will assist the Agency in performing its duties under the Clean Water Act, Clean Air Act, and the Global Climate Protection Act. The draft prospectus for the study is on the CCSP Web site at <http://www.climatescience.gov/Library/sap/sap4-6/sap4-6prospectus-final.htm>.

Copies of the Committee Charter will be filed with the appropriate congressional committees and the Library of Congress.

SUPPLEMENTARY INFORMATION:

I. Information About the Project/ Document

The purpose of EPA's Report on the Environment: Science Report (ROE SR) is to compile the most reliable indicators currently available that help answer a series of questions about trends in the environment and human health that EPA believes are of critical importance to its mission and to the national interest. Additionally, the report identifies key limitations of these indicators and gaps where reliable indicators do not yet exist. These gaps and limitations inform strategic planning and decision making at EPA and highlight the disparity between the current state of knowledge and the goal of full, reliable, and insightful representation of environmental conditions and trends.

The indicators for EPA's 2007 ROE SR that comprise the main content of the report underwent independent scientific peer review as well as public review and comment in the summer and fall of 2005 and are available at <http://www.epa.gov/roeindicators>.

The regulatory agenda entry in the proposed rule section for sequence number 2750, "Action on Petition to List Diesel Exhaust as a Hazardous Air Pollutant" (72 FR 23191) contains erroneous information. The Agency did not intend to announce a decision to deny the petition. This notice corrects the information that was provided under the heading of Abstract for the Action on Petition to List Diesel Exhaust as a Hazardous Air Pollutant. The following agenda item replaces in its

entirety the agenda item that was provided in the EPA's Semiannual Regulatory Agenda for sequence number 2750, Action on Petition to List Diesel Exhaust as a Hazardous Air Pollutant: *Priority:* Substantive, Nonsignificant. *Legal Authority:* Clean Air Act Section 112(b)(3).

CFR Citation: 40 CFR Part 63. *Legal Deadline:* Initial Action, Judicial, 5/30/07. As per 12/2005 Consent Decree, extended several times from original date of 6/12/2006. Final, Judicial 6/26/07, as per 12/2005 Consent Decree. Only required if Agency proposes to grant petition.

Abstract: Section 112 of the Clean Air Act contains a mandate for EPA to evaluate and control emissions of HAP from stationary sources. Section 112(b)(1) of the Clean Air Act includes the original list of hazardous air pollutants (HAP). Section 112(b) of the Clean Air Act requires EPA to review the original list periodically and, where appropriate, revise the list by rule. In addition, under section 112(b)(3) of the Clean Air Act, any person may petition EPA to modify the list by adding or deleting one or more substances. On August 11, 2003, Environmental Defense submitted a petition to add diesel exhaust to the list of HAP. EPA is in the process of considering whether the Agency should take further action to address stationary diesel emissions and, if so, what actions may be appropriate. EPA intends to address this petition in the context of this process.

Proposed Settlement Under Section 122(h) of the Comprehensive Environmental Response, Compensation and Liability Act Regarding the Hilliard's Creek Site, the Route 561 Dump Site, and the U.S. Avenue Burn Site, Gibbsboro, New Jersey

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed administrative settlement and opportunity for public comment.

SUMMARY: The United States Environmental Protection ("EPA") is proposing to enter into an administrative settlement to resolve claims under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"). In accordance with Section 122(h)(1) of CERCLA, notice is hereby given of a proposed administrative settlement concerning the Hilliard's Creek Site, the Route 561 Dump Site, and the U.S. Avenue Burn Site (collectively referred to as "the Site"). Section 122(h) of CERCLA provides EPA with the authority to consider, compromise and settle certain claims for costs incurred by the United States. Notice is being published to inform the public of the proposed settlement and of the opportunity to comment.

The Site is located in the Borough of Gibbsboro, Camden County, New Jersey. From 1851 to 1978 a paint and varnish manufacturing facility was operational there. As part of its operations, hazardous substances were generated, stored and utilized. The facility included areas used for unloading raw materials from railroad cars, raw materials tank farms including storage tanks constructed prior to 1908, storage areas for drummed raw materials, an industrial/domestic wastewater treatment and disposal system consisting of six unlined percolation/settling lagoons, an extensive system of pipes for the transport of raw materials, and a drum cleaning area. The mixing and processing of raw materials took place in a number of specialized buildings within the facility. In 1978 Sherwin-Williams shut down the production at the Site.

As a result of these operations and a release or threatened release of hazardous substances, EPA has undertaken response actions at or in connection with the Site under Section 104 of CERCLA, 42 U.S.C. 9604.

Under the terms of the Agreement, Sherwin-Williams will pay a total of \$385,000 to reimburse EPA for certain response costs incurred at the Site. In exchange, EPA will grant a covenant not to sue or take administrative action against Sherwin-Williams for reimbursement of past response costs pursuant to Section 107(a) of CERCLA. The Attorney General has approved this settlement.

EPA will consider any comments received during the comment period and may withdraw or withhold consent
