may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

k. SCPSA filed a settlement on behalf of itself, the U.S. Fish and Wildlife Service (FWS), and the South Carolina Department of Natural Resources (SCDNR). The purpose of the settlement agreement is to resolve, among the signatories, issues associated with issuance of a new license for the project, including diadromous fish passage and management, as well as instream flows for the Santee River. Major issues covered in the settlement include: (1) FWS's revised section 18 fishway prescription; (2) withdrawal of FWS's preliminary section 4(e) conditions; (3) minimum flow releases from the Santee Dam to the Santee River, including establishment of a technical advisory committee; (4) development of a low flow operating protocol; and (5) twelve measures to address waterfowl management and recreation boating at the Santee National Wildlife Refuge.
