

DEPARTMENT OF COMMERCE

[I.D. 051104D]

**Submission for OMB Review;
Comment Request**

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Management and Oversight of the National Estuarine Research Reserve System.

Form Number(s): None.

OMB Approval Number: 0648-0121.

Type of Request: Regular submission.

Burden Hours: 14,105.

Number of Respondents: 28.

Average Hours Per Response: 522.

Needs and Uses: The National Estuarine Research Reserve System consists of carefully-selected estuarine areas of the U.S. that are designated, preserved, and managed for research and educational purposes. The information is needed from states to review proposed designations. Sites selected must develop management plans. The grantees must submit annual work plans/reports.

Affected Public: State, Local or Tribal Government, and not-for-profit institutions.

Frequency: Annually, on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number 202-395-7285, or David_Rostker@omb.eop.gov.

Dated: May 11, 2004.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Stainless Steel Bar from the United Kingdom: Notice of Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Rescission of Antidumping Duty Administrative Review.

EFFECTIVE DATE: May 17, 2004.

FOR FURTHER INFORMATION CONTACT: Kate Johnson or Rebecca Trainor, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-4929 or (202) 482-4007, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On March 1, 2004, the Department published in the **Federal Register** (69 FR 9584) a notice of "Opportunity To Request Administrative Review" of the antidumping duty order on stainless steel bar from the United Kingdom for the period March 1, 2003, through February 29, 2004. On March 31, 2004, Corus Engineering Steels Limited (CES) requested an administrative review of its sales for this period. On April 28, 2004, the Department published a notice of initiation of an administrative review of the antidumping duty order on stainless steel bar from the United Kingdom with respect to this company. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 69 FR 23170.

Rescission of Review

On May 6, 2004, CES timely withdrew its request for an administrative review of its sales during the above-referenced period. Section 351.213(d)(1) of the Department's regulations stipulates that the Secretary will rescind an administrative review if the party that requests a review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. In this case, CES has withdrawn its request for review within the 90-day period. CES was the sole party to request the initiation of the review; therefore, we are rescinding this review of the antidumping duty order on stainless steel bar from the United Kingdom.

This notice is published in accordance with section 751 of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: May 11, 2004.

Jeffrey May,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Evaluation of Coastal Zone Management Programs and National Estuarine Research Reserves**

AGENCY: Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), DOC.

ACTION: Notice of intent to evaluate—rescheduled site visit and public meeting.

SUMMARY: The NOAA Office of Ocean and Coastal Resource Management (OCRM) announces its intent to evaluate the performance of the South Slough National Estuarine Research Reserve, Oregon, at a rescheduled time.

The South Slough National Estuarine Research Reserve, Oregon, evaluation site visit will be held June 21-25, 2004. One public meeting will be held during the week. The public meeting will be on Thursday, June 24, 2004, at 6:30 p.m., in the large conference room at the North Bend Library, 1800 Sherman Avenue, North Bend, Oregon. This site visit replaces a site visit originally scheduled for June 14-18, 2004. Likewise, the public meeting scheduled above replaces a public meeting originally set for Thursday, June 17, 2004.

Notice of the earlier site visit and public meeting was published in the **Federal Register**, March 23, 2004.

FOR FURTHER INFORMATION CONTACT: Ralph Cantral, Chief, National Policy and Evaluation Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, N/ORM7, Silver Spring, Maryland 20910, (301) 713-3155, Extension 118.

Federal Domestic Assistance Catalog 11.419, Coastal Zone Management Program Administration.

Dated: May 10, 2004.

Jamison S. Hawkins,

Deputy Assistant Administrator, Ocean Services and Coastal Zone Management.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 051104A]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits (EFPs)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of a proposal for an EFP to conduct experimental fishing; request for comments.

SUMMARY: The Administrator, Northeast Region, NMFS (Regional Administrator) has made a preliminary determination that the subject EFP application contains all the required information and warrants further consideration. The Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies Fishery Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Regional Administrator proposes to issue an EFP that would allow three vessels to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for exemptions from the NE multispecies mesh requirements specified at 50 CFR 648.80(a)(3)(i), the multispecies rolling closure areas restrictions specified at 648.81(f), and the multispecies Days-At-Sea (DAS) requirements specified at 648.82(a). The experiment proposes to conduct a study of an experimental bycatch reduction device in order to develop otter trawl gear for the NE multispecies fishery that would result in reduced catch of Atlantic cod. The EFP would allow these exemptions for three commercial vessels for not more than 12 total days of sea trials. All experimental work would be monitored by Manomet Center for Conservation Sciences personnel.

Regulations under the Magnuson-Stevens Fishery Conservation and

Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments on this document must be received on or before June 1, 2004.

ADDRESSES: Comments on this notice may be submitted by e-mail. The mailbox address for providing e-mail comments is DA499@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: "Comments on Manomet EFP Proposal for Inclined Separation Panel Study." Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on Manomet EFP Proposal for Inclined Separation Panel Study." Comments may also be sent via facsimile (fax) to (978) 281-9135.

FOR FURTHER INFORMATION CONTACT: Jason Blackburn, Fishery Management Specialist, phone: 978-281-9326, fax: 978-281-9135.

SUPPLEMENTARY INFORMATION: An application for an EFP was submitted by Manomet Center for Conservation Sciences on April 2, 2004. The EFP would exempt three federally permitted commercial fishing vessels from the following requirements in the NE Multispecies FMP: The requirement to use a minimum mesh size of 6.0-inch (15.2-cm) diamond mesh or 6.5-inch (16.5-cm) square mesh in the body and extension of a trawl net while fishing in the GOM Regulated Mesh Area; the requirement to not fish in rolling closure areas; and the requirement to use a day-at-sea (DAS) while targeting groundfish for no more than 12 DAS.

The goal of this study is to assess the selectivity of a bycatch reduction device in the GOM groundfish fishery. The specific trawl design to be tested is referred to as an inclined separation panel. The separation panel consists of 4-inch (10.2-cm) diamond mesh sewn in the extension and codend of a conventional trawl net (6.5-inch (16.5-cm) diamond mesh codend). The vessel will target mixed groundfish (yellowtail flounder, winter flounder, American plaice, Atlantic cod, and summer flounder). The incidental catch is expected to be comprised of skates, dogfish, crab, lobster, and sculpin. According to the applicant, a trawl net of similar design has been proven successful at separating cod and other roundfish from flatfish in the Irish Sea fisheries.

The study will occur between June 1 and December 31, 2004. During the study, the number of tows will be limited to four valid tows per day. Tow duration will be approximately 1 hour per tow, and the total number of valid tows will not exceed 40 for the entire study. One vessel would fish in the 30-minute squares 123 and 124, inside the area defined as follows: The Maine shoreline at 69°30' W long., south to 69°30' W long. at 43°10' N lat. (avoiding the GOM year round closures), and west to the Maine shoreline at 43°10' N lat. Two vessels would fish in a second area, occupying 30-minute squares 138, 139, 140, 146, and 147, inside the area defined as follows: The Massachusetts shoreline at 70°10' W long., north to 70°10' W long. at 42°15' N lat., east to 42°15' lat. at 69°50' W long., south to 69°50' W long. at 42° N lat., and west along the 42° N lat. line to the Massachusetts shoreline. At no time will fishing operations be conducted inside permanent closures. All fish retained by the upper and lower codends would be counted, weighed, and measured. All legal catch would be sold, consistent with the current landing limits. Undersized fish would be returned to the sea as quickly as possible after measurement. The participating vessels would be required to report all landings in their Vessel Trip Reports.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 12, 2004.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on Commercial Availability Request under the United States-Singapore Free Trade Agreement (USSFTA)

May 11, 2004.

AGENCY: The Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for Public Comments concerning a request for modifications of the USSFTA rules of origin for apparel items made from certain yarns and fabrics.

SUMMARY: The Government of the United States has received a request from the Government of Singapore for consultations under Article 3.18.4(a)(i)
