I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

CBOE proposes to amend the modified ROS opening procedure that was approved by the Commission in SR-CBOE-2004-11 on a pilot basis.⁵ The text of the proposed rule change is set forth below. Proposed new language is in *italics*. Proposed deletions are in [brackets].

* * * * *

Rule 6.2A. Rapid Opening System

This rule has no applicability to series trading on the CBOE Hybrid Opening System. Such series will be governed by Rule 6.2B.

(a)-(d) No change.

* * * Interpretation and Policies:

.01-.02 No change.

.03 Modified ROS Opening Procedure For Calculation of Settlement Prices of Volatility Indexes.

All provisions set forth in Rule 6.2A and the accompanying interpretations and policies shall remain in effect unless superseded or modified by this Rule 6.2A.03. To facilitate the calculation of a settlement price for futures and options contracts on volatility indexes, the Exchange shall utilize a modified ROS opening procedure for any index option series with respect to which a volatility index is calculated (including any index option series opened under Rule 6.2A.01). This modified ROS opening procedure will be utilized only on the final settlement date of the options and futures contracts on the applicable volatility index in each expiration month.

The following provisions shall be applicable when the modified ROS opening procedure set forth in this Rule 6.2A.03 is in effect for an index option with respect to which a volatility index

is calculated: (i) All orders (including public customer, broker-dealer, Exchange market-maker and away market-maker and specialist orders), other than contingency orders, will be eligible to be placed on the Electronic Book for those option contract months whose prices are used to derive the volatility indexes on which options and futures are traded, for the purpose of permitting those orders to participate in the ROS opening price calculation for the applicable index option series; (ii) all market-makers, including any LMMs and SMMs, if applicable, who are required to log on to ROS or RAES for the current expiration cycle shall be required to log on to ROS during the modified ROS opening procedure if the market-maker is physically present in the trading crowd for that index option class; (iii) if the ROS system is implemented in an option contract for which LMMs have been appointed, the LMMs will collectively set the Autoquote values that will be used by ROS; (iv) ROS contracts to trade for that index option series will be assigned equally, to the greatest extent possible, to all logged-on market-makers, including any LMMs and SMMs if applicable; (v) all orders for participation in the modified ROS opening procedure, and any change to or cancellation of any such order, must be received prior to 8:2[5]8 a.m. (CST) in order to participate at the ROS opening price for that index option series; (vi) all orders for participation in the modified ROS opening procedure must be submitted electronically, except that market-makers on the Exchange's trading floor may submit paper tickets for market orders only; and (vii) until the Exchange implements a ROS system change that automatically generates cancellation orders for Exchange market-maker, away market-maker, specialist, and broker dealer orders which remain on the Electronic Book following the modified ROS opening procedure, any such orders that were entered in the Electronic Book but were not executed in the modified ROS opening procedure must be cancelled immediately following the opening of the applicable option series.
