

apparel safeguard action on imports from China of man-made fiber trousers (Category 647/648) on the ground that an anticipated increase in man-made fiber trouser imports after January 1, 2005, threatens to disrupt the U.S. market for man-made fiber trousers. The request is available at <http://otexa.ita.doc.gov>. In light of the considerations set forth in the Procedures, the Committee has determined that the Requestors have provided the information necessary for the Committee to consider the request.

The Committee is soliciting public comments on the request, in particular with regard to whether there is a threat of disruption to the U.S. market for man-made fiber trousers and, if so, the role of Chinese-origin man-made fiber trousers in that disruption. To this end, the Committee seeks relevant information addressing factors such as the following, which may be relevant in the particular circumstances of this case, involving a product under a quota that will be removed on January 1, 2005: (1) Whether man-made fiber trousers imports from China are entering, or are expected to enter, the United States at prices that are substantially below prices of the like or directly competitive U.S. product, and whether those imports are likely to have a significant depressing or suppressing effect on domestic prices of the like or directly competitive U.S. product or are likely to increase demand for further imports from China; (2) Whether exports of Chinese-origin man-made fiber trousers to the United States are likely to increase substantially and imminently (due to existing unused production capacity, to capacity that can easily be shifted from the production of other products to the production of man-made fiber trousers, or to an imminent and substantial increase in production capacity or investment in production capacity), taking into account the availability of other markets to absorb any additional exports; (3) Whether Chinese-origin man-made fiber trousers that are presently sold in the Chinese market or in third-country markets will be diverted to the U.S. market in the imminent future (for example, due to more favorable pricing in the U.S. market or to existing or imminent import restraints into third-country markets); (4) The level and the extent of any recent change in inventories of man-made fiber trousers in China or in U.S. bonded warehouses; (5) Whether conditions of the domestic industry of the like or directly competitive product demonstrate that market disruption is likely (as may be evident from any

anticipated factory closures or decline in investment in the production of man-made fiber trousers, and whether actual or anticipated imports of Chinese-origin man-made fiber trousers are likely to affect the development and production efforts of the U.S. man-made fiber trousers industry; and (6) Whether U.S. managers, retailers, purchasers, importers, or other market participants have recognized Chinese producers of man-made fiber trousers as potential suppliers (for example, through pre-qualification procedures or framework agreements).

Comments may be submitted by any interested person. Comments must be received no later than December 9, 2004. Interested persons are invited to submit ten copies of such comments to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001A, U.S. Department of Commerce, 14th and Constitution Avenue NW, Washington, DC 20230.

The Committee will protect any business confidential information that is marked "business confidential" from disclosure to the full extent permitted by law. To the extent that business confidential information is provided, two copies of a non-confidential version must also be provided in which business confidential information is summarized or, if necessary, deleted. Comments received, with the exception of information marked "business confidential", will be available for inspection between Monday and Friday, 8:30 a.m and 5:30 p.m in the Trade Reference and Assistance Center Help Desk, Suite 800M, USA Trade Information Center, Ronald Reagan Building, 1300 Pennsylvania Avenue, NW, Washington, DC, (202) 482-3433.

The Committee will make a determination within 60 calendar days of the close of the comment period as to whether the United States will request consultations with China. If the Committee is unable to make a determination within 60 calendar days, it will cause to be published a notice in the **Federal Register**, including the date by which it will make a determination. If the Committee makes a negative determination, it will cause this determination and the reasons therefore to be published in the **Federal Register**. If the Committee makes an affirmative determination that imports of Chinese origin man-made fiber trousers threaten to disrupt the U.S. market, the United States will request consultations with

China with a view to easing or avoiding the disruption.
