I. Funding Opportunity Description

This solicitation is issued pursuant to 7 U.S.C. 2204b(b)(4). Also, this solicitation is issued pursuant to Executive Order 13256 (February 12, 2002), "President's Board of Advisors on Historically Black Colleges and Universities."

RBS was established under the authority of the Department of Agriculture Reorganization Act of 1994. The mission of RBS is to enhance the quality of life for rural Americans by providing leadership in building competitive businesses including sustainable cooperatives that can

prosper in the global marketplace. RBS meets these goals by: Investing financial resources and providing technical assistance to businesses and cooperatives located in rural communities; establishing strategic alliances and partnerships that leverage public, private, and cooperative resources to create jobs and stimulate rural economic activity.

The primary purpose of the 1890 Land Grant Institutions Rural Entrepreneurial Program Outreach Initiative is to have 1890 Institutions promote Rural Development programs, provide outreach and technical assistance, to new and existing cooperatives, and encourage and assist underserved rural community residents to participate in the USDA-Rural Development programs, especially those administered by RBS. This outreach initiative is also designed to develop programs that will develop future entrepreneurs and businesses, including cooperatives, in rural America in those communities that have the most economic need. These programs must provide sustainable development that is in keeping with the needs of the community and are designed to help overcome currently identified economic problems. Proposals in both traditional and nontraditional business enterprises are encouraged. The initiative seeks to create a working partnership through cooperative agreements between 1890 Institutions and RBS, to develop programs to assist future entrepreneurs, cooperatives and other businesses.

RBS plans to use cooperative agreements with the 1890 Institutions to strengthen the capacity of these communities to undertake innovative, comprehensive, citizen led, long-term strategies for community and economic development. The cooperative agreements will be for an outreach effort to promote Rural Development-RBS programs in targeted underserved rural communities and shall include, but not be limited to:

(a) Developing a business startup program including technical assistance, to assist new cooperatives and other businesses with new business development, business planning, franchise startup and consulting, business expansion studies, marketing analysis, cashflow management, and seminars and workshops for cooperatives and small businesses;

(b) Developing management and technical assistance plans that will:

(1) Assess cooperative and small business alternatives to traditional agricultural and other natural resource based industries;

(2) Assist in the development of business plans or loan packages, marketing, or bookkeeping;

(3) Assist and train cooperatives and small businesses in customer relations, product development, or business planning and development.

(c) Assessing and conducting feasibility studies of local community weaknesses and strengths, feasible alternatives to agricultural production, and the necessary infrastructure to expand or develop new or existing businesses;

(d) Providing community leaders with advice and recommendations regarding best practices in community economic development stimulus programs for their communities;

(e) Conducting seminars to disseminate information to stimulate business and economic development in selected rural communities; and

(f) Developing computer technology outreach and establishing and maintaining a computer network system, linking community leaders and residents to available economic development information.

Funds may not be used to: (a) Pay costs of preparing the application package; (b) fund political activities; (c) pay costs prior to the effective date of the cooperative agreement; (d) provide for revolving funds; (e) do construction; (f) conduct any activities where there is or may appear to be a conflict of interest; or (g) purchase real estate.

II. Award Information

This is a cooperative agreement award instrument. The total amount of funds available in FY 2004 for support of this program is approximately \$1.5 million. Applicants should request a budget commensurate with the project proposed. Total funds to be awarded will be distributed to the 1890 Institutions, competitively, for the purpose of conducting outreach and providing technical assistance to targeted small rural communities. This outreach initiative includes, but is not limited to, technical assistance in cooperative, economic, and community development, feasibility studies, research, market development, loan packaging, conducting workshops and seminars in the area of cooperative, business, and economic development, and developing and providing access to computer technology and web sites development to the targeted population and communities.

The actual number of cooperative agreements funded will depend on the quality of proposals received and the amount of funding requested. Maximum amount of Federal funds awarded for

any one proposal will be \$150,000. It is anticipated that a typical award would range from \$75,000 to \$150,000. A larger award may be granted at the Administrator's discretion.

In the event that the applicant is to receive an award that is less than the amount requested, the applicant will be required to modify the application to conform to the reduced amount before execution of the cooperative agreement. RBS reserves the right to reduce or de-obligate any award if acceptable modifications are not submitted by the awardees within 10 working days from the date the application is returned to the applicant. Any modification must be within the scope of the original application.

Awards will be made for proposals found to be meritorious by a peer review panel of USDA's employees knowledgeable of the subject matter. Awards will be made to the extent that funds are available. However, there is no commitment by USDA to fund any particular proposal or to make a specific number of awards.

Eligible applicants must provide matching funds in support of this project. Matching funds must equal at least 25 percent of the amount provided by RBS in the cooperative agreement. This Notice lists the information needed to submit an application for these funds.

Throughout the project period, Rural Development/RBS' commitment to the continuation of awards will be conditioned on the availability of funds, evidence of satisfactory progress by the recipient (as documented in certified acceptable quarterly progress and financial reports), and the determination that continued funding is in the best interest of the U.S. Government.

A cooperative agreement award instrument requires substantial involvement of the agency in carrying out the objectives of the project. Information on the agency involvement can be found in the award administration information in Section VI.

V. Application Review Information

1. *Criteria*—Proposals will be evaluated using the following seven criteria. Each criterion is given the weight value shown with total points equal to 100. The points assigned provide an indication of the relative importance of each section and will be used by the reviewers in evaluating the proposals. Points do not have to be awarded by RBS for each criterion. After all proposals have been evaluated, the Administrator may award an additional 10 discretionary points to any proposal to obtain the broadest geographic distribution of the funds, insure a broad diversity of project proposals, or insure a broad diversity in the size of the awards.

(a) Support of Local Community (Up to 10 points)—Proposals should have the support of local government, educational, community, and business groups. Higher points will be awarded for proposals demonstrating broad support from all components of the communities served, particularly

cooperative groups. Broad support is demonstrated by tangible contributions, such as providing volunteers, computers, or transportation or co-sponsoring workshops and conferences. Points will be awarded based on the level of tangible contribution in comparison to the size of the award. Tangible support must be stated in letters from supporting entities.

(b) Matching Funds/Leveraging (Up to 15 points)—This criteria relates to the extent to which the institution has the capacity to support the project with matching funds and leveraging additional funds and resources to carry out this outreach initiative.

A maximum of 10 points will be awarded based upon the amount the proposal exceeds the minimum 25 percent matching requirement.

Applicants will be required to provide matching funds or equivalent in-kind in support of this project. Evidence of matching funds availability must be provided. Funds or equivalent in-kind must be available at the time the cooperative agreement is entered into. Matching funds points will be awarded as listed below.

>25 percent to 35 percent Match—2 points

>35 percent to 50 percent Match—5 points

>50 percent to 75 percent Match—7 points

>75 percent Match—10 points

Up to 5 additional points may be awarded based on the applicant's capacity to leverage additional funds and resources from other private and nonprivate sources to support this outreach initiative. Applicants must provide sufficient information on the amount and sources of your leveraging activities for the evaluation panel to properly rate this criterion.

(c) Economic Need of Community (Up to 15 points)—This criterion will be evaluated based on the economic need of the targeted communities.

A maximum of 5 points will automatically be awarded to proposals with one or more of the following entities in a targeted community(s): Empowerment Zones, Enterprise Communities, Champion Communities, Federally-recognized Indian Reservations, and other federally declared economic depressed or disaster areas. Applicants must provide sufficient information for the panel to properly rate this part of the above criterion. The proposals must state the name and location of the declared economic depressed area.

Rural underserved targeted counties/communities must be an area other than

a city or town that has a population of greater than 50,000 inhabitants and the urbanized area contiguous and adjacent to such a city or town, as defined by the U.S. Bureau of Census using the latest decennial census of the United States.

Also, for this criterion, a maximum of 7 points will be awarded for demonstrated economic need based on the currently available poverty rate of the targeted local community(s). Applicants may use targeted county or community poverty rates if available. When multi-community proposals are submitted, the over-all weighted average for all counties or communities will be used. Applicants must use current (2000 Census) poverty data for each targeted county or community. Points will be awarded based on the differences in the targeted county or community's average poverty from the respective State poverty rate (average targeted county or community poverty rate minus the respective State poverty rate). Percents will be rounded to the next whole number.

Less than 3 percent—0 points

3–6 percent—1 point

7–10 percent—2 points

11–15 percent—5 points

Greater than 15 percent—7 points

Up to 3 additional points may be awarded for this criterion based on the applicant's ability to demonstrate or identify other economic needs of the targeted communities, such as, but not limited to, unemployment rates, education levels, and job availability. Applicants must provide sufficient information for the panel to properly rate this part of the above criterion.

(d) Previous Accomplishments (Up to 10 points)—This criterion will be evaluated based on the applicant's previous accomplishments with this outreach initiative and/or demonstrative capacity to conduct similar outreach work.

A point will be awarded to those institutions for each year they have been awarded a cooperative agreement under this program up to 5 years. Applicants must provide evidence of satisfactorily completing the agreement for each year that they claim for credit.

Up to five additional points may be awarded based on the applicant's ability to document the positive impact of their project upon the targeted underserved rural communities. It is incumbent upon the applicant to provide information as to the type of services delivered and names of rural communities.

Applicants with zero or less than 5 recent years of awards in this program may receive up to the maximum 10 points by highlighting the applicant's

commitment and previous performance on this project or projects with cooperative development outreach objectives. The applicant should discuss the potential impact of their project upon the targeted underserved rural communities, as well as describing previous similar outreach work.

(e) Statement of Work (up to 30 Points)—This criterion relates to the degree to which the proposed project addresses the major purposes for the “1890 Land Grant Institutions: Rural Entrepreneurial Program Outreach Initiative.” Points will be awarded according to the degree to which the statement of work reflects innovative strategies for providing outreach and assistance to the targeted underserved rural entrepreneurs, cooperatives, businesses and communities, and the potential for achieving project objectives. To receive up to 20 points, proposals must have a clearly and concisely stated work plan showing objectives, goals, timetables, expected results, measurable outcomes, a commitment to cooperative development and who will be performing various activities, including RBS involvement. All proposals must integrate substantial RBS involvement. An extra 10 points will be awarded for this criterion for those proposals that reflect innovation and commitment in working with new and existing cooperatives.

(f) Digital Technology Outreach (Up to 10 points)—This criterion is meant to evaluate the applicant’s level of outreach and capacity to provide innovative and effective computer technology outreach to the underserved targeted rural communities.

A maximum of 5 points will be awarded based on the applicant’s demonstrated capacity to promote innovations and improvements in the delivery of computer technology benefits to underserved rural communities whose share in these benefits is disproportionately low. Examples of innovations and improvements in this needed area include, but are not limited to; computer-based decision support systems to assist entrepreneurs and rural community governments in taking advantage of relevant technologies or effective delivery systems for business information or resource management assistance for rural underserved entrepreneurs and local governments and providing a business information systems network.

Up to 5 additional points may be awarded based on the qualification and subject skill level of the individuals directly conducting the technology

outreach activities. Applicants must provide sufficient information for the evaluation panels to properly rate this technology criterion.

(g) Coordination and Management of the Project (Up to 10 points)—This criterion will be evaluated based on the applicant’s demonstrated capacity to coordinate and manage this type of outreach initiative among the various stakeholders.

A maximum of 5 points will be awarded for the coordination plan. Applicants will need to describe the role and coordination mechanisms among various participants, including communities, the applicant, the USDA Rural Development State Office and RBS National Office. The nature of the collaborations and benefits to participants must also be described.

By definition, a cooperative agreement requires substantial involvement by the funding agent in carrying out the project objectives in the project. Therefore, up to 5 additional points may be awarded for this criterion based on demonstration of broad involvement and collaboration with each applicant’s respective USDA Rural Development State Office as related to the outreach project. This involvement and collaboration should include, but not be limited to: (1) Rural Development State Office input and review of applicant’s proposal, (2) invitations to attend and participate in workshops and conferences when needed, (3) on-going monitoring of the outreach project, and (4) directing applicants to the Rural Development State Office when applicable.

2. Review and Selection Process—Each application will be evaluated in a two-part process. First, each application will be screened to ensure that it meets the administrative requirements as set forth in the Request for Proposals. Second, a number of expert reviewers will conduct a merit review based on the “Evaluation Criteria and Weights” section of this notice. The review of the individual reviewers will be used by RBS to determine which application will be recommended to the Administrator for funding. Evaluated applications will be ranked based on merit. The RBS Administrator will make final approval for those applications recommended for an award. If there is a tie score after the proposals have been rated and ranked, the tie will be resolved by the proposal with the largest matching funds as a percent of the Federal amount of the award.

VI. Award Administration Information

1. Award Notices—This is a competitive cooperative agreement. In

August, successful applicants will receive notice of award from RBS National Office stating that their university has been selected to receive an award to provide technical assistance and business development information to the targeted rural communities. Upon final approval of the award, based on an expert panel review and ranking process, as well as the Office of the General Counsel’s review and clearance of your proposal by USDA’s Under Secretary for Rural Development, an official cooperative agreement document will be sent to the successful applicant for signing by the institution’s president or designee. The document will become binding after signing by the USDA official.

Unsuccessful applicants will receive notification of the results of the application review by mail.

In compliance with USDA’s Management Control Review and RBS recommendations, the State Office representative will be conducting semiannual on-site reviews of your project, as well as any additional reviews deemed necessary by the National Office.

Upon final approval of the award, and as stated in the cooperative agreement, a copy of your quarterly progress and annual report are to be forwarded to the National and State Offices. In addition, “Request for Advance or Reimbursement” (SF-270), “Financial Status Report” (SF-269 or 269A) and quarterly progress reports are to be submitted contemporaneously to the National Office.

During the term of the negotiated agreements, the recipients will deliver quarterly reports of progress of the work to RBS and prepare and deliver a final report detailing all work done and results accomplished. In addition, all reports forwarded to RBS National Office must be forwarded to the USDA Rural Development State Office. Also, upon request by RBS, the recipient will deliver manuscripts, videotapes, software, or other media, as may be identified in approved proposals. RBS retains those rights delineated in 7 CFR 3019.36. Also, the recipients will deliver project outreach success stories and other project related information requested by RBS for use on the Web site (<http://bisnet.sus.edu>), or other Web sites designated by USDA-RBS.
