SUPPLEMENTARY INFORMATION: Congress enacted the United States Grain Standards Act (USGSA) (7 U.S.C. 71 *et seq.*) and the Agricultural Marketing Act (AMA) (7 U.S.C. 1621 *et seq.*) to facilitate the marketing of grain, oilseeds, pulses, rice, and related commodities. These statutes provide for the establishment of standards and terms which accurately and consistently measure the quality of grain and related products, provide for uniform official inspection and weighing, provide regulatory and service responsibilities, and furnish the framework for commodity quality improvement incentives to both domestic and foreign buyers. The Federal Grain Inspection Service (FGIS) of USDA's Grain Inspection, Packers and Stockyards Administration establishes policies, guidelines, and regulations to carry out the objectives of the USGSA and the AMA. Regulations appear at 7 CFR Parts 800, 801, and 802 for the USGSA and 7 CFR Part 868 for the AMA.

The USGSA, with few exceptions, requires official certification of export grain sold by grade. Official services are provided, upon request, for grain in domestic commerce. The AMA authorizes similar inspection and weighing services, upon request, for rice, pulses, flour, corn meal, and certain other agricultural products. Conversely, the regulations promulgating the USGSA and AMA require specific information collection and recordkeeping necessary to carry out requests for official services. Applicants for service must specify the kind and level of service desired, the identification of the product, the location, the amount, and other pertinent information in order that official personnel can efficiently respond to their needs.

Official services under the USGSA are provided through FGIS field offices and delegated and/or designated State and private agencies. Delegated agencies are State agencies delegated authority under the Act to provide official inspection service, Class X or Class Y weighing services, or both, at one or more export port locations in the State.
