

December 1, inadvertently count and report additional children who would not otherwise have been counted and reported to ED as "Category 1" or "Category 2" within the usual (*i.e.*, by December 1) reporting cycle. This will mean that not all States who ran the final counts after December 1 receiving higher allocations at the expense of the other States who ran their final counts before December 1.

Because States have always annually reported their migrant child counts to the Department for allocation purposes, the data requested through this emergency clearance is not new or unexpected. All States have already collected the requested data and are awaiting an approved reporting mechanism from the Department to submit these data. All of the MEP child count information from the 2002–2003 reporting period is readily available for collection as the SEAs maintain migrant student record systems for many purposes. In summary, we are requesting an emergency review and clearance of a MEP Child Count Report containing the following information items: 12-Month Count of Students Eligible for Funding Purposes; Summer/Intersession Count of Participants Eligible for Funding Purposes; and a written summary of the procedures the state used to collect, compile and verify the accuracy of the child counts.

We request OMB's emergency clearance of the MEP Child Count Report by January 7, 2004.
