

Airport to Homestead Air Reserve Base (ARB). As a result of an evaluation, it has been determined a modification should be made to the Homestead, FL, Class D and E4 airspace areas to contain the Tactical Air Navigation (TACAN) or Instrument Landing System (ILS) Runway (RWY) 5, Standard Instrument Approach Procedure (SIAP) to the Homestead ARB. Additional surface area airspace is needed to contain the SIAP.

**SUPPLEMENTARY INFORMATION:**

**History**

On February 19, 2004, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by amending Class D and E4 airspace at Homestead ARB, FL (69 FR 7713). This action provides adequate Class D and E4 airspace for IFR operations at Homestead ARB, FL. Designations for Class D airspace areas extending upward from the surface of the earth and Class E airspace designations for airspace designated as surface areas are published in Paragraphs 5000 and 6004 respectively, of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR part 71.1. The Class D and E designations listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

**The Rule**

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends Class D and E4 airspace at Homestead ARB, FL.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant

preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**SUPPLEMENTARY INFORMATION:**

**Background**

Federal Register Document 04-6453, Docket No. FAA-2004-16904; Airspace Docket 04-ASO-2, published on March 23, 2004, (69 FR 13470), establishes Class E5 airspace at Russell County Airport, KY. An error was discovered in the legal description, describing the Class E5 airspace area. The word "mile" was inadvertently omitted after 6.5 and before the word radius. This action corrects the error.

Designations for Class E Airspace Areas Extending Upward from 700 feet or More Above the Surface of the Earth are published in Paragraph 6005 of FAA Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**Need for Correction**

As published, the final rule contains an error, which inadvertently omits the word "mile". Accordingly, pursuant to the authority delegated to me, the legal description for the Class E5 airspace area at Jamestown, KY, incorporated by reference at § 71.1, 14 CFR 71.1, and published in the **Federal Register** on March 23, 2004, (69 FR 16904), is corrected by making the following correcting amendment.

However, after the review of any comments, if the FAA finds that further changes are appropriate, it will initiate rulemaking proceedings to extend the effective date or to amend the regulation.

Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule, and in determining whether additional rulemaking is required. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the rule which might suggest the need to modify the rule.
