ACTION: Publication of environmental assessment for public comment.

SUMMARY: The National Park Service is publishing for public review and comment an environmental assessment on designating additional miles to the Westfield River, Massachusetts, National Wild and Scenic River. SUPPLEMENTARY INFORMATION: On April 26, 2002, Acting Governor Jane Swift of the Commonwealth of Massachusetts petitioned the Secretary of the Interior to extend the Westfield River's Wild and Scenic designation to include additional segments of the river and its headwaters (34.8 miles) under the National Wild and Scenic Rivers Act. The sections of river under consideration includes the Upper East Branch and Tributaries: Drowned Land Brook; Center Brook; Windsor Jamb Brook in the Towns of Savoy and Windsor; the Headwater Tributaries of the West Branch: Shaker Mill Brook; Depot Brook; Savery Brook; Watson Brook; Center Pond Brook in the Towns of Becket and Washington; and the Lower Middle Branch, East Branch

and Main Stem in the Town of Huntington. Under section 2(a)(ii) of the National Wild and Scenic Rivers Act (16 U.S.C. 1273(a)(ii)), the Secretary has the authority to add a river to the National System at the request of a State, provided the State has met certain prior conditions and the river meets eligibility criteria, based upon an evaluation of natural and cultural resources.

Upon the request of a State governor to the Secretary of the Interior, the National Park Service, acting for the Secretary, undertakes an evaluation of the State's request. As a result of the evaluation and the subsequent environmental assessment, the National Park Service has concluded that all requirements were fully met for the designation extension for the Westfield River. Review of public comments on the environmental assessment is required before the Service can forward a recommendation of designation to the Secretary of Interior.

Dated: April 2, 2004.
