

organizations or businesses, will be available for public inspection in their entirety. Copies of the Final Supplemental Environmental Impact Statement for the Flood Control Master Plan, Clark County Regional Flood Control District are available in the Las Vegas Field Office at the above address.

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to our mailing list, contact Adrian A. Garcia, BLM, Las Vegas Field Office, Telephone (702) 515-5089; e-mail agarcia@nv.blm.gov, or Jeff Steinmetz at (702) 515-5097; e-mail jsteinme@nv.blm.gov.

SUPPLEMENTARY INFORMATION: This FSEIS was prepared to describe the potential environmental effects of construction and operation of flood control facilities encompassing private and public lands within the Las Vegas Valley and Boulder City by the Clark County Regional Flood Control District for the next ten-year period. Due to changes in Federal regulations, regional growth, flooding history, and CCRFCD project changes and objectives that have occurred since 1991, this FSEIS was also prepared for the CCRFCD's Master Plan to update the 1991 FEIS. This document also assesses impacts associated with the implementation of the Master Plan and subsequent updates.

The changing needs and interests of the public and the growth within the Las Vegas Valley necessitates a revision to the Flood Control Master Plan FEIS. Preliminary issues and management concerns have been identified by the BLM and CCRFCD, their consultant, and other agencies, and represent the BLM's current information on existing issues and management concerns. The major issue themes that will be addressed in the SEIS include: Impacts to surface water hydrology and water quality; protection of Federally-listed species, State-listed species, and BLM sensitive species; minimizing impacts to air quality; minimizing visibility impacts; balancing conflicting and compatible land uses; protection of cultural and paleontological resources; cumulative impacts of the project; and the creation of a new project-specific analysis procedure for future flood control facilities.

Dated: August 31, 2004.

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that

section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.
