Analysis of Comments Received

All issues raised in this case are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to James J. Jochum, Assistant Secretary for Import Administration, dated December 10, 2004, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail if the order were to be revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum, which is on file in room B-099 of the main Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "December 2004." The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

The Department determines that revocation of the CVD order on SSSS from Korea is likely to lead to continuation or recurrence of countervailable subsidies at the following net subsidy rates:

Manufacturers/Producers/Exporters	Net Subsidy Rate (percent)
INI/BNG	0.54
Dai Yang Metal Company	0.67
Taihan	4.64
All Others	0.63

Nature of the Subsidy

Consistent with section 752(a)(6) of the Act, the Department will provide to the ITC information concerning the nature of the subsidy, and whether the subsidy is a subsidy described in Article 3 or Article 6.1 of the Subsidies Agreement. Because some programs not falling within the definition of an export subsidy under Article 3.1(a) of the Subsidies Agreement could be found to be inconsistent with Article 6 if the net countervailable subsidy exceeds five percent (as measured in accordance with Annex IV of the Subsidies Agreement), we are providing the ITC with program descriptions in our Decision Memo. We note that as of January 1, 2000, Article 6.1 has ceased

to apply (see Article 31 of the Subsidies Agreement).

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return of destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This five-year ("sunset") review and notice are in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: December 10, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

The workshop is designed to provide timely information and facilitate dialog between U.S. and Chinese industry and government experts on developments both in general policy matters and issues in specific sectors, and to explore means for future collaboration.
