[Docket No. FAA-2004-17145; Airspace
Docket No. 04-ACE-19]

RIN 2120-AA66

**Modification of Class C Airspace, Des
Moines International Airport, Des
Moines, IA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises the legal description for the Class C airspace area at the Des Moines International Airport (DSM), Des Moines, IA. The FAA is taking this action due to a change in the location of the airport reference point (ARP) for DSM. This action only revises the legal description of the DSM Class C airspace area and does not change the dimensions of the area.

EFFECTIVE DATE: 0901 UTC, June 10, 2004.

FOR FURTHER INFORMATION CONTACT: Steve Rohring, Airspace and Rules, Office of System Operations and Safety, ATO-R, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

Effective June 10, 2004, all regulatory airspace associated with the DSM terminal area will reflect a change in the DSM ARP. The DSM ARP will change from lat. 41°32'06" N., long. 93°39'39" W., to lat. 41°32'03" N., long. 93°39'45" W. This change results in a six second (approximately 360-foot) change in location. Because the DSM Class C Airspace area is based on the DSM ARP, the FAA is taking this action to revise the legal description of the DSM Class C airspace.

Since this action only changes the DSM ARP and does not involve a change in the dimensions or operational requirements of that airspace, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 (part 71) by revising the DSM Class C airspace area. The FAA is taking this action as a result of the change in location of the DSM ARP.

Class C airspace designations are published in paragraph 4000 of FAA

Order 7400.9L, dated September 2, 2003 and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class C airspace designation listed in this document would be published subsequently in the order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed action: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.ID, Policies and Procedures for Considering Environmental Impacts. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

International Trade Impact Assessment

This final rule is a domestic airspace rulemaking and will not constitute a barrier to international trade, including the export of U.S. goods and services to foreign countries or the import of foreign goods and services into the United States.

Unfunded Mandates Assessment

Title II of the Unfunded Mandates Reform Act of 1995 (the Act), enacted as Public Law 104-4 on March 22, 1995, requires each Federal agency, to the extent permitted by law, to prepare a written assessment of the effects of any Federal mandate in a proposed or final agency rule that may result in the expenditure of \$100 million or more (when adjusted annually for inflation) in any one year by state, local, and tribal governments in the aggregate, or by the private sector. Section 204(a) of the Act, 2 U.S.C. 1534(a), requires the Federal agency to develop an effective process to permit timely input by elected

officers (or their designees) of State, local, and tribal governments on a proposed "significant intergovernmental mandate." A "significant intergovernmental mandate" under the Act is any provision in a Federal agency regulation that would impose an enforceable duty upon state, local, and tribal governments in the aggregate of \$100 million (adjusted annually for inflation) in any one year. Section 203 of the Act, 2 U.S.C. 1533, which supplements section 204(a), provides that, before establishing any regulatory requirements that might significantly or uniquely affect small governments, the agency shall have developed a plan, which, among other things, must provide for notice to potentially affected small governments, if any, and for a meaningful and timely opportunity for those small governments to provide input in the development of regulatory proposals.

This final rule does not contain any Federal intergovernmental or private sector mandates. Therefore, the requirements of Title II of the Unfunded Mandates Reform Act of 1995 do not apply.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

Paragraph 4000 Subpart C—Class C Airspace

* * * * *

ACE IA C Des Moines International Airport, IA [Revised]

Des Moines International Airport
(Lat. 41°32'03" N., long. 93°39'45" W.)

That airspace extending upward from the surface to and including 5,000 feet MSL within a 5-mile radius of the Des Moines International Airport, and that airspace

extending upward from 2,200 feet MSL to and including 5,000 feet MSL within a 10-mile radius of the Des Moines International Airport.

14 CFR Part 71

[Docket No. FAA-2004-16919; Airspace Docket No. 04-ASO-3]

Establishment of Class D and E Airspace, Amendment of Class E Airspace; New Smyrna Beach, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class D and Class E4 airspace and amends Class E5 airspace at New Smyrna Beach, FL. A federal contract tower with a weather reporting system is being constructed at the New Smyrna Beach Municipal Airport. Therefore, the airport will meet the criteria for establishment of Class D and Class E4 airspace. Class D surface area airspace and Class E4 airspace designated as an extension to Class D airspace is required when the control tower is open to contain existing Standard Instrument Approach Procedures (SIAPs) and other Instrument Flight Rules (IFR) operations at the airport. This action will establish Class D airspace extending upward from the surface, to but not including 1,200 feet MSL, within a 3.2-mile radius of the New Smyrna Beach Municipal Airport and a Class E4 airspace extension that is 5 miles wide and extends 7 miles southeast of the airport. A regional evaluation has determined the existing Class E5 airspace area should be amended to contain the Nondirectional Radio Beacon (NDB) or Global Positioning System (GPS) Runway (RWY) 29 SIAP. As a result, controlled airspace extending upward from 700 feet Above Ground Level (AGL) needed to contain the SIAP will increase from a 6.5-mile radius of the airport to a 6.6-mile radius of the airport and provide for the procedure turn area.

EFFECTIVE DATE: 0901 UTC, August 5, 2004.

FOR FURTHER INFORMATION CONTACT: Walter R. Cochran, Manager, Airspace

Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5627.

SUPPLEMENTARY INFORMATION:

History

On February 19, 2004, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by establishing Class D airspace and Class E4 airspace and amending Class E5 airspace at New Smyrna Beach, FL (69 FR 7714). This action provides adequate Class D, Class E4 and Class E5 airspace for IFR operations at New Smyrna Beach Municipal Airport. Designations for Class D Airspace, Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area and Class E Airspace Areas Extending Upward from 700 feet or More Above the Surface of the Earth are published in paragraphs 5000, 6004 and 6005 respectively, of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) establishes Class D airspace and Class E4 airspace and amends Class E5 airspace at New Smyrna Beach, FL.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; EO 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

Paragraph 5000 Class D Airspace

* * * * *

ASO FL D New Smyrna Beach, FL [NEW]

New Smyrna Beach Municipal Airport, FL (Lat. 29°03'21"N, long. 80°56'54"W)

That airspace extending upward from the surface, to but not including 1,200 feet MSL, within a 3.2-mile radius of New Smyrna Beach Municipal Airport. This Class D airspace area is effective during the specific days and times established in advance by a Notice to Airmen. The effective days and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

Paragraph 6004 Class E4 Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

* * * * *

ASO FL E4 New Smyrna Beach, FL [NEW]

New Smyrna Beach Municipal Airport, FL (Lat. 29°03'21"N, Long. 80°56'54"W)
New Smyrna Beach NDB, FL (Lat. 29°03'16"N, Long. 80°56'28"W)

That airspace extending upward from the surface within 2.5 miles each side of the New Smyrna Beach NDB 124° bearing, extending from the 3.2-mile radius to 7 miles southeast of the NDB. This Class E4 airspace area is effective during the specific days and times established in advance by a Notice to Airmen. The effective days and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward from 700 Feet or More Above the Surface of the Earth.

* * * * *
