

to the Final EIS and ROD for the Manti-La Sal National Forest Land and Resource Management Plan (Forest Plan). The Forest Plan provides the overall guidance (goals, objections, standards, and management area direction) to achieve the desired future condition for the area being analyzed, and contains specific management area prescriptions for the entire forest.

Issues and alternatives to be evaluated in the analysis will be determined through scoping. The primary issues are expected to include the socioeconomic benefits of mining, the potential impacts of underground mining and mining-induced subsidence and seismicity to surface and ground water, vegetation, wildlife, cultural resources, range improvements, recreation, man-made features, and other land uses.

Agency representatives and other interested people are invited to visit with Forest Service at any time during the EIS process. Two specific time periods are identified for the receipt of formal comments on the analysis. The two comment periods are, (1) during the scoping process, the next 30 days following publication of this notice in the **Federal Register** and (2) during the foreman review period of the Draft EIS.

The Draft EIS is estimated to be filed with the Environmental Protection Agency (EPA) and available for public review in August, 2004. At that time the EPA will publish an availability notice in the **Federal Register**. The comment period on the Draft EIS will be 45 days from the date that EPA's notice of availability appears in the **Federal Register**. The Final EIS is expected to be released in January, 2005.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft Environmental Impact Statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 533 (1978). Also, environmental objections that could be raised at the draft Environmental Impact Statement stage but that are not raised until after completion of the final Environmental Impact Statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-

day comment period so that substantive comments objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final Environmental Impact Statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft Environmental Impact Statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an Environmental Impact Statement is not being prepared for the Barataria Basin Landbridge Shoreline Protection

Project Phase 4 (BA-27d), Jefferson Parish, Louisiana.

FOR FURTHER INFORMATION CONTACT: Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302; telephone (318) 473-7751.

SUPPLEMENTARY INFORMATION: The environmental assessment of the federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Donald W. Gohmert, State Conservationist, has determined that preparation and review of an Environmental Impact Statement is not needed for this project.

The project will protect critically eroding portions of the east bank Bayou Rigolettes by constructing about 28,000 feet of shoreline protection (rock revetment).

The notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data collected during the environmental assessment are on file and may be reviewed by contacting Donald W. Gohmert.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.
