SUPPLEMENTARY INFORMATION:

I. Background

Each State Workforce Agency Office has been required to submit the VETS 300 and Manager's Reports on a quarterly basis, with one additional VETS 300, Final Fiscal Year Report. With the passage of Public Law 107-288, the Jobs for Veterans Act of 2002, enacted November 7, 2002, the quarterly and final VETS-300 Cost Accounting Reports are no longer required to be submitted. The OMB approved SF 269A Quarterly Financial Report contains sufficient information to replace the VETS-300 Reports. The VETS-300 reports will, therefore, be eliminated

when the current form expires in December of 2004. Title 38 U.S.C. requires a report on employment and training services provided to veterans and eligible persons by the local employment service delivery system. This report is provided to the Director for Veterans' Employment and Training (DVET) each fiscal quarter. It addresses the service delivery point's performance and compliance with Federal law and regulations on the prioritization and provision of services to veterans and eligible persons. Section V. G. of the Special Grant Provisions and Veterans' Program Letter 09-03, require this report to include, as a minimum, an analysis of compliance with applicable measures of service or standards of performance and the quantity, quality and character of services provided to veterans and eligible persons, to include Vocational Rehabilitation and Employment activity.

II. Desired Focus of Comments

Currently VETS is soliciting comments concerning the proposed three-year extension of the information collection request for the Manager's Report. The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

The PBGC intends to request that OMB extend its approval of these collections of information for three years.

The PBGC is soliciting public comments to—
