BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30423; Amdt. No. 3104]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective September 3, 2004. The compliance date for each SIAP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of September 3, 2004.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located;

3. The Flight Inspection Area Office which originated the SIAP; or,

4. The National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to:

http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

*For Purchase—*Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

*By Subscription—*Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT:

Donald P. Pate, Flight Procedure Standards Branch (AMCAFS-420), Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd. Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082 Oklahoma City, OK 73125) telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description

of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (NFDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

James J. Ballough,

Director, Flight Standards Service.

Adoption of the Amendment

■ Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

■ 1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

■ 2. Part 97 is amended to read as follows:

BILLING CODE 4910-13-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 342

[Docket No. RM93-11-002; Order No. 650]

Revisions to Oil Pipeline Regulations Pursuant to the Energy Policy Act of 1992

Issued August 27, 2004.

AGENCY: Federal Energy Regulatory
Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy
Regulatory Commission is amending a
certain regulation following a judicial
determination that the Commission
acted properly in establishing the oil
pipeline rate index.

EFFECTIVE DATE: The rule will become
effective September 3, 2004.

FOR FURTHER INFORMATION CONTACT:
Harris Wood, Office of General Counsel,
Federal Energy Regulatory Commission,
888 First Street, NE., Washington, DC
20426; (202) 502-8224.

SUPPLEMENTARY INFORMATION:

Before Commissioners: Pat Wood, III,
Chairman; Nora Mead Brownell, Joseph
T. Kelliher, and Suedeem G. Kelly.
Revisions to oil pipeline regulations
pursuant to the Energy Policy Act of
1992; Docket No. RM93-11-002.

1. The Federal Energy Regulatory
Commission (Commission) is modifying
a certain regulation pertaining to oil
pipeline ratemaking following a judicial
determination upholding the
Commission's determination that the
appropriate index for oil pipeline rate
changes is the Producer Price Index,
from and after July 2001.

Background and Discussion

2. On October 22, 1993, in response
to the requirements of Title XVIII of the

Energy Policy Act of 1992,¹ the
Commission issued Order No. 561,² in
which the Commission
comprehensively revised the
Commission's regulation of the oil
pipeline industry. Among other things,
Order No. 561 established a price cap
for oil pipeline rates, to be adjusted
annually based upon changes in the
Producer Price Index for Finished
Goods (published each May by the U.S.
Department of Labor, Bureau of Labor
Statistics) minus one percent (PPI-1).
Order No. 561 recognized that its
responsibilities under the Interstate
Commerce Act,³ to both shippers and
pipelines, required monitoring of the
relationship between the change in the
selected index and the actual cost
changes experienced by the industry.
Therefore, the Commission stated that it
would review the choice of index every
5 years.⁴

3. On July 27, 2000, the Commission
issued a notice of inquiry in Docket No.
RM00-11-000 on its five-year review of
the oil pricing index.⁵ After receiving
and considering comments of numerous
parties, the Commission affirmed that
the PPI-1 index closely approximated
the actual cost changes in the oil
pipeline industry as reported in FERC
Form No. 6, and concluded that this
index continued to satisfy the mandates
of the Energy Policy Act of 1992.⁶
Review of this order was sought by the
Association of Oil Pipe Lines (AOPL),
and on March 1, 2002, the U.S. Court of
Appeals for the D.C. Circuit remanded
the proceeding to the Commission for
further review and explanation,
particularly with respect to the choice of
PPI-1 as the appropriate index for
future oil pipeline rate changes.⁷

4. Two separate petitions for
Commission action on the remand by
the Court were filed, one by AOPL, and
the other jointly by Sinclair Oil
Corporation and Tesoro Refining and
Marketing Company (Shippers). AOPL
argued for the use of the PPI, while
Shippers urged the Commission to
reaffirm its decision to use PPI-1, as the

¹ 42 U.S.C.A. 7172 note (West Supp. 1993).
References to the Energy Policy Act are to this note,
indicating the section number of the statute.

² Revisions to Oil Pipeline Regulations Pursuant

Commission, 83 F.3d 1424 (D.C. Cir. 1996).

³ 49 U.S.C. app. 1 (1988).

⁴ Order No. 561, ¶ 30,985 at 30,952.

⁵ FERC Statutes & Regulations [Notices] ¶ 35,536
(2000).

⁶ 93 FERC ¶ 61,266 (2000).

⁷ *Association of Oil Pipe Lines v. FERC*, 281 F.3d
239 (D.C. Cir. 2002).

appropriate index to measure cost
changes in the oil pipeline industry. On
February 24, 2003, the Commission
issued its order on remand, determining
after further cost data analysis that the
appropriate oil pricing index for the
current five year period should be the
PPI.⁸ Review of this order was sought by
the Shippers, and on April 9, 2004, the
Court affirmed the Commission.⁹

5. In view of the Court's finding that
the Commission had acted properly in
establishing the PPI as the appropriate
oil pricing index, the Commission
amends 18 CFR part 342, section
342.3(d)(2) by deleting “, and then
subtracting 0.01” from the end of that
section.

Information Collection Statement

6. There is no need for Office of
Management and Budget review¹⁰
under section 3507(d) of the Paperwork
Reduction Act of 1995,¹¹ since this final
rule does not affect information
collection and recordkeeping
requirements.

Environmental Analysis

7. The Commission is required to
prepare an Environmental Assessment
or an Environmental Impact Statement
for any action that may have a
significant adverse effect on the human
environment.¹² However, the
Commission has categorically excluded
certain actions from this requirement as
not having a significant effect on the
human environment.¹³ The clarifying
and corrective nature of the change here
promulgated qualifies for such an
exclusion.¹⁴

Regulatory Flexibility Act Certification

8. The Regulatory Flexibility Act of
1980 (RFA)¹⁵ generally requires a
description and analysis of final rules
that will have significant economic
impact on a substantial number of small
entities. Inasmuch as the change here
promulgated reduces the complexity of
oil pipeline ratemaking, the change will
have no significant economic impact on
a substantial number of small entities.
