

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

Boeing: Docket No. FAA-2004-18997; Directorate Identifier 2004-NM-19-AD.

Comments Due Date

(a) The Federal Aviation Administration (FAA) must receive comments on this AD action by October 18, 2004.

Affected ADs

(b) None.

Applicability

(c) This AD applies to Boeing Model 737-100, -200, -200C, -300, -400, and -500 series airplanes, as listed in Boeing Alert Service Bulletin 737-53A1241, dated June 13, 2002; certificated in any category.

Unsafe Condition

(d) This AD was prompted by reports of fatigue cracks in the web of the Body station 291.5 frame near the forward galley door. We are issuing this AD to detect and correct fatigue cracking of the aft frame and frame support structure of the forward galley door, which could result in a severed fuselage frame web, rapid decompression of the airplane, and possible loss of the forward galley door.

Compliance

(e) You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

Initial and Repetitive Inspections

(f) Prior to the accumulation of 40,000 total flight cycles, or within 2,250 flight cycles after the effective date of this AD, whichever occurs later: Do a detailed inspection and an eddy current inspection to detect cracking of the frame web around the cutout for the doorstop intercostal strap at the aft side of the Body station 291.5 frame at stringer 16R, in accordance with the Accomplishment Instructions of Boeing Alert Service Bulletin 737-53A1241, dated June 13, 2002. If no cracking is found, repeat the inspections thereafter at intervals not to exceed 4,500 flight cycles.

Note 1: For the purposes of this AD, a detailed inspection is: "An intensive examination of a specific item, installation, or assembly to detect damage, failure, or irregularity. Available lighting is normally supplemented with a direct source of good

lighting at an intensity deemed appropriate. Inspection aids such as mirror, magnifying lenses, etc., may be necessary. Surface cleaning and elaborate procedures may be required."

Corrective Action

(g) If any crack is found during any inspection required by this AD: Before further flight, repair per a method approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA; or per data meeting the type certification basis of the airplane approved by a Boeing Company Designated Engineering Representative who has been authorized by the Manager, Seattle ACO, to make such findings. For a repair method to be approved, the approval must specifically reference this AD.

Alternative Methods of Compliance (AMOCs)

(h) The Manager, Seattle ACO, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

Issued in Renton, Washington, on August 20, 2004.

Kevin M. Mullin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

RIN 2120-AA66

Proposed Revision of Colored Federal Airway; AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to revise Colored Federal Airway Green 16 (G-16), in Alaska. This action would add to the instrument flight rules (IFR) airway and route structure in Alaska by extending G-16 from Put River, AK, to Barter Island, AK. The FAA is taking this action to enhance safety and management of aircraft operations in Alaska.

DATES: Comments must be received on or before October 18, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify FAA

Docket No. FAA-2004-18734 and Airspace Docket No. 03-AAL-03, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules, Office of System Operations and Safety, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2004-18734 and Airspace Docket No. 03-AAL-03) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://dms.dot.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2004-18734 and Airspace Docket No. 03-AAL-03." The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web

page at <http://www.faa.gov>, or the **Federal Register's** Web page at <http://www.gpoaccess.gov/fr/index.html>.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division, Federal Aviation Administration, 222 West 7th Avenue, #14, Anchorage, AK 99533.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

History

Presently there is an uncharted non-regulatory part 95 route that uses the same routing as the proposed colored Federal airway. The uncharted non-regulatory route is used daily by commercial and general aviation aircraft. However, the air traffic control (ATC) management of aircraft operations is limited on this route. The FAA is proposing to convert this uncharted non-regulatory route to a colored Federal airway. This action would add to the IFR airway and route structure in Alaska. The route conversion would provide an airway structure to support existing commercial services in Alaska.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (CFR) part 71 (part 71) to extend G-16 from the Put River, NDB, to the Barter Island, NDB in Alaska. This action would add to the IFR airway and route structure in Alaska. The FAA is taking this action to enhance the safety and management of aircraft operations in Alaska.

Adoption of this Federal airway would: (1) Provide pilots with minimum en route altitudes and minimum obstruction clearance altitudes information; (2) establish controlled airspace thus eliminating some of the commercial IFR operations in uncontrolled airspace; and (3) improve the management of air traffic operations and thereby enhance safety.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to

keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p.389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the FAA Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

Paragraph 6009(a)—Green Federal Airways

* * * * *

G-16 [Revised]

From Point Lay, AK, NDB; Wainwright Village, AK, NDB; Browerville, AK, NDB; Nuiqsut Village, AK, NDB; Put River, AK, NDB; to Barter Island, AK, NDB.

* * * * *

Issued in Washington, DC, on August 27, 2004.

Reginald C. Matthews,

Manager, Airspace and Rules Division.

RIN 2120-AA66

Proposed Establishment of VOR Federal Airway 584; MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Proposed rule; withdrawal.

SUMMARY: This action withdraws a notice proposing to establish Federal Airway 584 (V-584) between the Helena, MT, Very High Frequency Omnidirectional Radio Range and Tactical Air Navigation Aid (VORTAC), and the Missoula, MT, VORTAC (68 FR 51737, August 28, 2003). With the decommissioning of the Drummond Very High Frequency Omnidirectional Range (VOR) in January 2004 there is no longer a requirement for the proposed V-584. Several airways in the state of Montana will be revised in a subsequent NPRM.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules, Office of System Operations and Safety, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION: On August 28, 2003, a notice was published in the **Federal Register** proposing to amend 14 Code of Federal Regulations (14 CFR) part 71 (part 71) to establish V-584 between the Helena, MT, VORTAC, and the Missoula, MT, VORTAC. With the decommissioning of the Drummond VOR in January 2004 there is no longer a requirement for the proposed V-584. Several airways in the state of Montana will be revised in a subsequent NPRM.
