

manufactured from yarns and fabrics formed in the United States or a beneficiary country. The CBTPA also provides for quota- and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more CBTPA beneficiary countries from fabric or yarn that is not formed in the United States, if it has been determined that such fabric or yarn cannot be supplied by the domestic industry in commercial quantities in a timely manner. In Executive Order No. 13191, the President delegated to CITA the authority to determine whether yarns or fabrics cannot be supplied by the domestic industry in commercial quantities in a timely manner under the CBTPA and directed CITA to establish procedures to ensure appropriate public participation in any such determination. On March 6, 2001, CITA published procedures that it will follow in considering requests. (66 FR 13502).

On February 13, 2004, the Chairman of CITA received a petition from Oxford Industries, Inc. alleging that certain 100 percent cotton woven flannel fabrics, made from 21 through 36 NM single ring-spun yarns of different colors, classified in HTSUS subheading 5208.43.00, of 2 X 1 twill weave construction, weighing not more than 200 grams per square meter, cannot be supplied by the domestic industry in commercial quantities in a timely manner and requesting quota- and duty-free treatment under the CBTPA for apparel articles that are both cut and sewn in one or more CBTPA beneficiary countries from such fabrics.

On February 19, 2004, CITA solicited public comments regarding this request (69 FR 7727), particularly with respect to whether these fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. On March 6, 2004, CITA and the Office of the U.S. Trade Representative offered to hold consultations with the relevant Congressional committees. We also requested the advice of the U.S. International Trade Commission and the relevant Industry Sector Advisory Committees.

Based on the information provided, including review of the request, public comments and advice received, and our knowledge of the industry, CITA has determined that certain 100 percent cotton woven flannel fabrics, made from single ring-spun yarns of different colors, of 2 X 1 twill weave construction, weighing not more than 200 grams per square meter, for use in apparel articles, can be supplied by the domestic industry in commercial

quantities in a timely manner. Oxford Industries, Inc.'s petition is denied.

### Department of the Army

#### **Notice of Availability (NOA) of the Final Environmental Impact Statement (FEIS) for Transformation of U.S. Army Alaska (USARAK) at Forts Wainwright and Richardson, AK**

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** The Department of the Army announces the availability of the FEIS to assess the potential impact of transformation of the 172nd Infantry Brigade (Separate) to a Stryker Brigade Combat Team (SBCT). The proposed action would affect changes to force structure and changes to ranges, facilities, and infrastructure designed to meet objectives of Army transformation in Alaska. Proposed locations for changes include Fort Wainwright (FWA), Fort Richardson (FRA), and outlying training areas (e.g., Gerstle River Training Area and Black Rapids Training Site). Proposed areas of activity changes on FWA would include cantonment areas, Tanana Flats Training Area, Yukon Training Area, and Donnelly Training Area (areas which were part of the former Fort Greely).

**DATES:** The waiting period for the FEIS will end 30 days after publication of the Notice of Availability in the **Federal Register** by the U.S. environmental Protection Agency.

**ADDRESSES:** If you have questions regarding the FEIS, or to request a copy of the document, please contact: Mr. Kevin Gardner, Directorate of Public Works, 730 Quartermaster Rod, Attention: APVR-RPW-GS (Gardner), Fort Richardson, AK 99505-6500; or Mr. Calvin Bagley, Center for Environmental Management of Military Lands (CEMML), Colorado State University, Fort Collins, CO 80523-1490.

**FOR FURTHER INFORMATION CONTACT:** Mr. Kevin Gardner at (907) 384-3331; by facsimile at (907) 384-3028; by e-mail at [kevin.gardner@richardson.army.mil](mailto:kevin.gardner@richardson.army.mil); or Mr. Calvin Bagley at (970) 491-3324; by facsimile at (970) 491-2713; by e-mail at [cbagley@cemml.colostate.edu](mailto:cbagley@cemml.colostate.edu). The following Web site contains the FEIS

and additional information: <http://www.cemml.colostate.edu/alaskaeis>.

**SUPPLEMENTARY INFORMATION:** The proposed action would alter various activities on military and training lands in Alaska. The range of proposed activities include (1) Stationing of forces within USARAK to achieve emission requirements; (2) construction, renovation, and demolition activities; (3) training to achieve and maintain readiness to perform assigned missions; (4) fielding of weapons systems and equipment (to include the Stryker (a light armored vehicle) and the Shadow (an unmanned aerial vehicle)); (5) deployment of forces and equipment and specific deployment training activities; and (6) institutional matters to include entire range of day-to-day management and operational activities not otherwise accounted for in other activity categories.

The FEIS analyzed the following three alternative courses of action with respect to the transformation of the 172nd Infantry Brigade (Separate) into an SBCT or USARAK: (1) Alternative 1, No Action Alternative—no transformation activities would occur and the existing 172nd Infantry Brigade (Separate) mission would continue; (2) Alternative 3, Transformation of the 172nd Infantry Brigade (Separate) with New Infrastructure Alternative—transform the 172nd Infantry Brigade (Separate) except for the 1-501st Parachute Infantry Regiment (PIR), into an SBCT and construct five new SBCT-required facilities; and (3) Alternative 4, Transformation of the 172nd Infantry Brigade (Separate) with New Infrastructure and an Airborne Task Force Alternative (Army's preferred alternative)—transform the 172nd Infantry Brigade (Separate), except for the 1-501st PIR, into an SBCT and construct five new SBCT-required facilities. Under Alternative 4, the 1-501st PIR would be assigned to USARAK and would expand to an Airborne Task Force.

The Department of the Army prepared a Final Programmatic EIS (PEIS) for Army Transformation in 2002. The corresponding Record of Decision (ROD) declared the Army's decision to undertake a program of transformation and identified three brigades and an armored cavalry regiment for transformation into a Stryker Force during the next five to ten years. The 172nd Infantry Brigade (Separate), Forts Wainwright and Richardson, Alaska, were selected in the PEIS to transform into an SBCT.

Copies of the FEIS are available at the following libraries: Z.J. Loussac Public
