Regulations Governing the Inspection of Eggs

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Agricultural Marketing Service (AMS) is amending the regulations governing the inspection of eggs. The rule revises the regulations to clarify and simplify the regulations. This follows the earlier duplication and redesignation of the regulations.

DATES: Effective November 23, 2004.

FOR FURTHER INFORMATION CONTACT: Rex A. Barnes, Chief, Grading Branch, (202) 720-3271.

SUPPLEMENTARY INFORMATION:

Background

The Egg Products Inspection Act (EPIA) authorizes the mandatory inspection of egg products operations and the mandatory surveillance of the disposition of shell eggs that are undesirable for human consumption. From its enactment in 1970, AMS administered the EPIA and its regulations in 7 CFR part 59.

Congress amended the EPIA as part of the Food, Agriculture, Conservation and Trade Act Amendments of 1991 (Pub. L. 102-237) (hereafter referred to as "the 1991 amendments"). To implement the 1991 EPIA amendments, AMS proposed changes to 7 CFR parts 56 and 59 (57 FR 48569, October 27, 1992) so that both regulations would contain the changes authorized by the 1991 amendments. Before AMS published a final rule, however, the Department consolidated

food safety issues into the Food Safety and Inspection Service (FSIS) following enactment of the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub.L. 103-354). This included delegating responsibility to administer the EPIA egg products inspection functions to FSIS, while the shell egg surveillance functions remained with AMS. FSIS promulgated a final rule that implemented the 1991 amendments by revising 7 CFR part 59 (63 FR 45663, August 27, 1998).

AMS then promulgated a final rule to duplicate and redesignate those portions of 7 CFR part 59 pertinent to shell egg surveillance as a new 7 CFR part 57 (63 FR 69968, December 17, 1998). FSIS promulgated a final rule to redesignate the remaining portions of 7 CFR part 59 and transfer them to 9 CFR part 590 (63 FR 72351, December 31, 1998). AMS is now revising the regulations in 7 CFR part 57 to clarify and simplify them following the duplication and redesignation of the regulations from 7 CFR part 59 to 7 CFR part 57.

To facilitate and simplify the duplication and re-designation effort, the regulations were promulgated with as few editorial changes as possible. However, that action subsequently required AMS to review the regulations that were duplicated and redesignated as 7 CFR part 57 and revise them to clarify the shell egg surveillance functions of the EPIA administered by AMS.

This action will complete that requirement. In addition, AMS is including in this rulemaking effort other non-substantive editorial revisions that were identified during the review. The amendments will update the regulations to comply with the current department organizational structure and add non-technical, grammatical, non-substantive revisions.

The amendments would not change how the requirements are administered, how specific requirements are implemented, or the responsibilities of program users. The amendments would make the requirements more accurate and simplify interpretation and implementation.

For example:

—Punctuation, grammar, capitalization, abbreviations, legal phrases, terms, format, and style would be updated for consistency with current

regulatory documents, the U.S. Government Printing Office Style Manual, and the Federal Register Document Drafting Handbook. Also, gender-specific pronouns would be changed to gender-neutral pronouns consistent with current writing style

- Sections would be redesignated to make requirements easier to locate in the regulations
- Sections about nondiscrimination and political activity for Federal employees would be updated to reflect current requirements
- "Poultry Division" would be changed to "Poultry Programs" to conform to organizational changes
- A definition for the term "Agricultural Marketing Service or AMS" would be added for consistency with other Agency regulations
- Duplicate and obsolete sections would be removed
- Inconsistencies in the wording of headings and sections would be clarified to assist program staff at all levels
- Administrative requirements that have been implemented in the program would be updated

14 CFR Part 71

[Docket No. FAA-2004-18822; Airspace Docket No. 04-ACE-48]

Modification of Class D Airspace; and Modification of Class E Airspace; Salina, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends title 14 Code of Federal Regulations, part 71 (14 CFR 71) by revising Class D and Class E airspace areas at Salina, KS. A review of the controlled airspace areas at Salina, KS revealed they do not reflect the current Salina Municipal Airport airport reference point (ARP) and do not comply with criteria for diverse departures. The review also identified other discrepancies in the legal descriptions for the Salina, KS Class D and Class E airspace areas. The intended effect of this rule is to provide controlled airspace of appropriate dimensions to protect aircraft departing from and executing Standard Instrument Approach Procedures (SIAPs) to Salina Municipal Airport. It also corrects discrepancies in the legal descriptions of Salina, KS Class D and Class E airspace areas and brings the airspace areas and legal descriptions into compliance with FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, January 20, 2005. Comments for inclusion in the Rules Docket must be received on or before November 1, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. SUPPLEMENTARY INFORMATION: This amendment to 14 CFR part 71 modifies the Class D airspace area, the Class E airspace area designated as a surface area, the Class E airspace area designated as an extension to the Class D airspace area and the Class E airspace area extending upward from 700 feet above the surface at Salina, KS. An examination of controlled airspace for Salina, KS revealed that the Salina Municipal Airport ARP used in the legal descriptions for all airspace areas is incorrect. The location of the Salina collocated very high frequency omnidirectional radio range and tactical air navigational aid (VORTAC) used in the Class E airspace area designated as an extension to the Class D airspace area legal description is incorrect. The examination also revealed that the airspace areas do not comply with airspace requirements for diverse departures as set forth in FAA Order 7400.2E, Procedures for Handling Airspace Matters, and that the dimensions of extensions to the airspace areas do not comply with FAA Order 8260.19C, Flight Procedures and Airspace.

This action expands the Salina, KS Class D and Class E airspace area designated as a surface area from a 4.9-mile to a 5.4-mile radius of Salina Municipal Airport. It also expands the Class E airspace area extending upward from 700 feet above the surface from a 7.4-mile radius to an 8.4-mile radius of the airport and corrects the ARP and location of the Salina VORTAC in the legal descriptions. Additionally, this action modifies the Class E airspace area designated as an extension to the Class D airspace area reducing its width from 2 to 1.5 miles each side of centerline and decreasing its length by 2 miles. Extensions to the Class E airspace area extending upward from 700 feet above the surface are no longer required and are deleted from the legal description.

These modifications provide controlled airspace of appropriate

dimensions to protect aircraft departing from and executing SIAPs to Salina Municipal Airport and bring the legal descriptions of the Salina, KS Class D and Class E airspace areas into compliance with FAA Orders 7400.2E and 8260.19C. Class D airspace areas are published in Paragraph 5000 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. Class E airspace areas designated as surface areas, Class E airspace areas designated as an extension to a Class D airspace area and Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraphs 6002, 6004 and 6005, respectively, of the same FAA Order. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.
