Appalachian Power Company; Notice of Availability of Draft Environmental Assessment

June 28, 2004.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed Appalachian Power Company's application requesting approval to permit Resource Partners, L.L.C. (permittee) to install and operate fifteen stationary docks with a total of 62 covered boat slips and 30 floaters. Fourteen of the docks have four slips each and one dock has six slips. Each dock has two floaters, one on each side of the structure. There is one slip proposed per townhouse and the slips are being clustered into 15 docks. All of the described work is to take place within the project boundary of the Smith Mountain Project at the Cottages of Contentment Island development located along the Blackwater River portion of Smith Mountain Lake. A Draft Environmental Assessment (DEA) has been prepared for the proposal.

The DEA contains the staff's analysis of the potential environmental impacts of the project and concludes that approving the request with modifications would not constitute a

major Federal action significantly affecting the quality of the human environment.

A copy of the DEA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Title: Application Requirements for the Approval and Delegation of Federal Air Toxics Programs to State, Territorial, Local, and Tribal Agencies (Renewal).

Abstract: This information collection is a voluntary application from State, Territorial, Local, and Tribal Agencies (S/L/Ts) for delegation of regulations developed under section 112 of the Clean Air Act (CAA). In the time frame for this submittal, the EPA estimates that the majority of the delegated regulations will be those developed under section 112(d) of the CAA. The procedures and requirements that the S/L/Ts will use to request the delegations are codified as 40 CFR part 63, subpart E, in accordance with section 112(l) of the CAA.

The subpart E regulations contain the following five options for delegation:

- Straight delegation
- Rule adjustment
- Rule substitution
- Equivalency by permit
- State program approval

Straight delegation is the option where the respondents, S/L/Ts, choose to accept delegation of a section 112 provision and to implement and enforce the provision as written. The S/L/Ts may use the rule adjustment option when they want to substitute a rule and/or requirement that is unequivocally no less stringent than the otherwise applicable section 112 standard, such as a part 63 national emission standards
