

doctoral degree such as an internship, residency, teaching, or providing services in the specific area of training, etc. For trainees who receive a SAMHSA training program stipend award for the first time in a second or later year of study, the level of support shall be determined by the relevant experience gained before initial entry into the program, plus another year of experience for each year already spent in full-time participation in the program.

Stipends for full-time trainees enrolled in programs that are not degree-related may be paid commensurate with the trainee's career status and experience in accordance with the above schedule. Maximum support for any trainee is \$44,412 per year, prorated according to the length of the program.

For the MFP, the above rates may be used as ceilings rather than as levels. This deviation has been permitted to allow MFP training directors with the flexibility to use stipends to support greater numbers of trainees under these grants.

Other Trainee Costs

In addition to stipends, the applicant may request funds for trainee travel. Trainee travel costs are allowable only between the training institution and field training sites. The MFP applicant may request travel for trainees to attend professional meetings.
