The Complete survey is available at <http://www.ferc.gov/industries/electric/indus-act/reliability/2004-sys-op-survey.pdf>.

The Commission estimates that no more than 160 entities will be the subject of this reporting request with the survey going out to approximately eight different personnel at each chosen entity and that it would take each entity no more than 2 hours to complete the survey—larger entities may require additional respondents while smaller entities will likely have fewer respondents. Therefore, the total number of hours it would take to comply with the reporting requirement would be 320. The Commission estimates a total cost of \$18,720 to respondents at \$58.50 per hour, based on salaries for professional and clerical staff, as well as direct and indirect overhead costs.

The Commission has submitted this reporting requirement to OMB for approval. OMB's regulations describe the process that federal agencies must follow in order to obtain OMB approval of reporting requirements. See 5 CFR part 1320. The standards for emergency processing of information collections appear at 5 CFR 1320.13. If OMB approves a reporting requirement, then it will assign an information collection control number to that requirement. If a request for information subject to OMB review has not been given a valid control number, then the recipient is not required to respond.

OMB required federal agencies seeking approval of reporting requirements to allow the public an opportunity to comment on the proposed reporting requirement. 5 CFR 1320.5(a)(1)(iv). Therefore, the Commission is soliciting comment on:

(1) Whether the collection of information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility;

(2) The accuracy of the Commission's estimate of the burden of the collection of this information, including the validity of the methodology and assumptions used;

(3) The quality, utility, and clarity of the information to be collected; and

(4) How to minimize the burden of the collection of this information on respondents, including the use of appropriate automated electronic,

mechanical, or other forms of information technology.

C.B. Spencer,

Acting Secretary.

California Department of Water Resources; Notice of Designation of Certain Commission Personnel as Non-Decisional

December 7, 2004.

Commission staff member Kenneth Hogan (Office of Energy Projects; kenneth.hogan@ferc.gov, 202-502-8434) is assigned to help resolve environmental and other issues associated with the development of a comprehensive settlement agreement for the Oroville Project. The parties involved in the settlement process wish to complete a comprehensive settlement agreement and file an offer of settlement before the license application is due in January 2005.

As non-decisional staff, Mr. Hogan will not participate in an advisory capacity in the Commission's review of any offer of settlement or settlement agreement, or deliberations concerning the disposition of the relicense application once it is filed for the project.

Different Commission advisory staff will be assigned to review any offer of settlement or settlement agreement, and

process the relicense application, including providing advice to the Commission with respect to the agreement and application. Non-decisional staff and advisory staff will be prohibited from communicating with one another concerning any filed settlement and relicense application for the project.
