and subsequently published a correction
to the direct final rule on May 27, 2004

Docket No. 04-AEA-07]

**Amendment of Class E Airspace;
Richmond, VA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E
airspace at Richmond, VA. The
development of multiple area navigation
(RNAV) Standard Instrument Approach
Procedures (SIAP) for numerous airports
within the Richmond, VA metropolitan
area with approved Instrument Flight
Rules (IFR) operations and the resulting
overlap of designated Class E-5 airspace
have made this action necessary. This
action consolidates the Class E-5
descriptions through separate
rulemaking action. The area will be
depicted on aeronautical charts for pilot
reference.

DATES: *Effective Date:* 0901 UTC August
5, 2004.

SUPPLEMENTARY INFORMATION:

History

On May 11, 2004, a notice proposing
to amend part 71 of the Federal Aviation
Regulations (14 CFR part 71) by
consolidating existing Class E-5
airspace designations in the Richmond,
VA metropolitan area and incorporating
those areas into the Richmond, VA
description was published in the
Federal Register (69 FR 26056-26057).
Interested parties were invited to
participate in this rulemaking
proceeding by submitting written
comments on the proposal to the FAA.
No comments to the proposal were
received. The rule is adopted as
proposed.

The coordinates for this airspace
docket are based on North American
Datum 83. Class E airspace area
designations for airspace extending
upward from the surface are published
in paragraph 6005 of FAA Order
7400.9L, dated September 2, 2003, and
effective September 16, 2003, which is
incorporated by reference in 14 CFR
71.1. The Class E airspace designation

listed in this document will be amended
in the order.

The Rule

This amendment to part 71 of the
Federal Aviation Regulations (14 CFR
part 71) provides controlled Class E
airspace extending upward from 700 ft
above the surface for aircraft conducting
IFR operations within the Richmond,
VA Class E-5 airspace description.

The FAA has determined that this
regulation only involves an established
body of technical regulations for which
frequent and routine amendments are
necessary to keep them operationally
current. Therefore, this regulation: (1) Is
not a "significant regulatory action"
under Executive Order 12866; (2) is not
a "significant rule" under DOT
Regulatory Policies and Procedures (44
FR 11034; February 26, 1979); and (3)
does not warrant preparation of a
Regulatory Evaluation as the anticipated
impact is so minimal. Since this is a
routine matter that will only affect air
traffic procedures and air navigation it
is certified that this rule will not have
significant economic impact on a
substantial number of small entities
under the criteria of the Regulatory
Flexibility Act.

Docket No. 04-AEA-08]

Amendment of Class E Airspace; Norfolk, VA

AGENCY: Federal Aviation
Administration (FAA) DOT.

ACTION: Final rule; request for

The affected Class E-5 airspace for the airports included in these descriptions will be consolidated into the amended Norfolk, VA airspace description contained in Docket No. FAA-2004-17596, Airspace Docket No. 04-AEA-06, effective August 5, 2004.

DATES: *Effective Date:* August 5, 2004.

Comment Date: Comments must be received on or before July 15, 2004.

FOR FURTHER INFORMATION CONTACT: Mr. Francis Jordan, Airspace Specialist, Airspace Branch, AEA-520, Aviation Plaza, Jamaica, NY 11434-4809, telephone: (718) 553-4521.

SUPPLEMENTARY INFORMATION: Although this action is a final rule, which involves the amendment of Class E airspace within Virginia, by consolidating that airspace into one description, and was not preceded by notice and public procedure, comments are invited on the rule. This rule will become effective on the date specified in the **DATES** section. However, after the review of any comments, if the FAA finds that further changes are appropriate, it will initiate rulemaking proceedings to extend the effective date or to amend the regulation.

Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule, and in determining whether additional rulemaking is required. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the rule which might suggest the need to modify the rule.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) amends the description of Class E airspace in the Norfolk, VA area by removing the airspace designations for Norfolk NAS (Chambers Field), VA; Langley AFB, Hampton, VA; Oceana NAS (Apollo Soucek Field), VA; Fentress NALF, VA; Felker AAF, Ft. Eustis, VA; Newport News/Williamsburg International Airport, Newport News, VA; Chesapeake Regional Airport, Portsmouth, VA; Aberdeen Field Airport, VA; Hummel Field Airport, VA; Suffolk Municipal Airport, VA; Middle Peninsula Regional Airport, VA; and Williamsburg-Jamestown Airport, VA. It consolidates those airspace areas into the amended Norfolk, VA description.

The proliferation of airports with Instrument Flight Rule (IFR) operations within the Norfolk, VA metropolitan area has resulted in the overlap of numerous Class E airspace areas that complicate the chart depictions. This action clarifies the airspace and diminishes the scope and complexity of charting. The IFR airports within those areas will be incorporated into the Norfolk, VA Class E airspace area. Accordingly, since this action merely consolidates these airspace areas into one airspace designation and his inconsequential impact on aircraft operations in the area, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

Class E airspace designations for airspace extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
