Determination Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance, applicable to workers of the subject firm. The Department's negative determination was signed on December 11, 2003. The Notice of Determination was published in the **Federal Register** on January 16, 2004 (69 FR 2662).

The Department reviewed the request for reconsideration and has determined that the petitioner has provided additional information. Therefore, the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

BILLING CODE 4510-13-P

NUCLEAR REGULATORY COMMISSION

State of Utah: NRC Staff Draft Assessment of a Proposed Amendment to Agreement Between the Nuclear Regulatory Commission and the State of Utah

AGENCY: Nuclear Regulatory Commission.

ACTION: Third notice of a proposed amendment to the agreement with the State of Utah; request for comment.

SUMMARY: By letter dated January 2, 2003, Governor Michael O. Leavitt of Utah requested that the U.S. Nuclear Regulatory Commission (NRC) enter into an amendment to the Agreement with Utah (the Agreement) as authorized by section 274 of the Atomic Energy Act of 1954, as amended (Act).

Under the proposed amendment to the Agreement, the Commission would relinquish, and Utah would assume, an additional portion of the Commission's regulatory authority exercised within the State. As required by the Act, NRC is publishing the proposed amendment to the Agreement for public comment. NRC is also publishing the summary of a draft assessment by the NRC staff of the portion of the regulatory program Utah would assume. Comments are requested on the proposed amendment to the Agreement and the staff's draft assessment, which finds the program to be adequate to protect public health and safety and compatible with NRC's program for regulation of 11e.(2) byproduct material.

The proposed amendment to the Agreement would release (exempt) persons who possess or use certain radioactive materials in Utah from portions of the Commission's regulatory authority. The Act requires that NRC publish those exemptions. Notice is

hereby given that the pertinent exemptions have been previously published in the **Federal Register** and are codified in the Commission's regulations as 10 CFR Part 150.

DATES: The comment period expires March 15, 2004. Comments received after this date will be considered if it is practical to do so, but the Commission cannot assure consideration of comments received after the expiration date.

ADDRESSES: You may submit comments by any one of the following methods. Please include the following phrase "Utah Amendment" in the subject line of your comments. Comments will be made available to the public in their entirety. Personal information will not be removed from your comments.
