DEPARTMENT OF COMMERCE

International Trade Administration

Meeting of the President's Export Council

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of an open meeting.

SUMMARY: The President's Export Council (PEC) will hold a full Council meeting to discuss topics related to export expansion. The meeting will include discussion of trade priorities and initiatives, the World Trade Organization, PEC subcommittee activity and proposed letters of recommendation. The PEC was established on December 20, 1973, and reconstituted May 4, 1979, to advise the President on matters relating to U.S. trade. It was most recently renewed by Executive Order 13316.

DATES: March 17, 2004.

Time: 9:30 a.m. to 11:30 a.m.

ADDRESSES: Room 2247, Rayburn House Office Building, Washington, DC 20515. This program is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be submitted no later than March 3, 2004, to J. Marc Chittum, President's Export Council, Room 2015B, Washington, DC 20230. Seating is limited and will be on a first come, first served basis.

FOR FURTHER INFORMATION CONTACT: J. Marc Chittum, President's Export Council, Room 2015B, Washington, DC 20230 (Phone: 202-482-1124).

Dated: February 20, 2004.

J. Marc Chittum,

Staff Director and Executive Secretary, President's Export Council.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 012304A]

Comment Request: National Estuary Restoration Inventory

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The purpose of this document is to invite the public to comment on the recently launched National Estuary Restoration Inventory (NERI), an on-line database of estuary habitat restoration projects that is available to the public for electronic submission and viewing of project information. This document provides background information about the inventory and guidelines for submitting comments. The National Estuary Restoration Inventory contains information about estuary habitat restoration projects implemented across the country. Restoration practitioners may submit eligible projects to the inventory over the Internet via a user-friendly data entry interface. Approved project information will be made available to the public through queries and reports on the NERI web site.

DATES: Written comments (in paper or electronic format) will be accepted upon publication of this document in the **Federal Register** and must be received by March 26, 2004. Comments received by this date will be summarized and may be incorporated into the NERI site at a later phase.

ADDRESSES: Direct all written comments to Nancy Lou, NOAA Damage Assessment and Restoration Center, 7600 Sand Point Way, Seattle, WA 98115; ATTN: NERI Public Comments (or via the Internet at Nancy.Lou@noaa.gov). NERI is available at the following URL: <http://neri.noaa.gov/>.

FOR FURTHER INFORMATION CONTACT: Nancy Lou at (206)526-0000 (or via the Internet at Nancy.Lou@noaa.gov) or Amy Zimmerling at (301)713-2989 (or via the Internet at Amy.Zimmerling@noaa.gov).

SUPPLEMENTARY INFORMATION:

I. Background

The Estuary Restoration Act (ERA), signed into law in November 2000, makes restoring our estuaries a national priority. The ERA promotes the restoration of one million acres of estuarine habitat by 2010 by leveraging limited Federal resources with state and local funding, developing and

enhancing monitoring and research capabilities, and encouraging partnerships among public agencies and between the public and private sectors. As part of the ERA, NOAA is required to develop and maintain an inventory of estuary restoration projects.

The purpose of the inventory is to provide information on monitoring and restoration techniques to advance the science of restoration, track acres of habitat restored toward the one million acre goal of the ERA, and provide information for reports transmitted to Congress. In addition, the inventory may be a resource for restoration practitioners to monitor the progress of their own restoration projects. Project information can also be shared with the restoration community over the NERI web site (see **ADDRESSES**).

Phase 1 developments have been completed for the inventory which went on-line on February 16, 2004. Phase 2 developments will include additional searching capabilities, an interactive mapping application, as well as the incorporation of any viable suggestions from this request for comments.

II. Overview of the Inventory

The National Estuary Restoration Inventory is an on-line database of restoration projects. Restoration practitioners may voluntarily submit eligible restoration projects for entry into the inventory using an on-line submission form. Eligible projects must: (1) aim to provide ecosystem benefits for estuaries and their associated ecosystems, and (2) include monitoring to gauge the success of restoration efforts. Submission is mandatory for projects funded through the Estuary Restoration Act.

Restoration practitioners are notified once their project(s) is (are) accepted into the inventory via e-mail at which time they may log into the inventory and begin entering information for their project(s). The data entry interface contains twelve sections for entering data including general information, project abstract, contacts, geographic location, project benefits, habitat types and acreage restored, restoration techniques, monitoring and success criteria, regional restoration plans, project partners, budget, and project photos. Once updated project information is approved by NERI administrators, the data will be made available on-line through queries and reports. To assist users with entering and querying data, a detailed Help section has been created with descriptions of all inventory fields as well as useful tips for searching the inventory. In addition, users may

contact the NERI administrators with questions, comments, and suggestions via e-mail at neri@noaa.gov.

III. Request for Comments

Comments are invited on: (a) the usability of the site for entering, updating, and viewing information on estuary habitat restoration projects; (b) the types of information being tracked, including comments on specific fields and/or suggestions for additional/fewer fields; (c) ways to enhance the quality, utility, and clarity of the information presented; and (d) other suggestions that would make the site more user-friendly.

Comments submitted in response to this notice will be summarized and published as part of the public record. All comments will be reviewed by the NERI development team and addressed either via e-mail response or in a later phase of development. Comments must be received by March 26, 2004.

Dated: February 19, 2004.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF DEFENSE

Office of the Secretary

Proposed Collection; Comment Request

AGENCY: Defense Technical Information Center-DTIC, DoD.

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 S.C. Chapter 35). In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Defense Technical Information Center announces the proposed extension of a public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents,

including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by April 26, 2004.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to Defense Technical Information Center (DTIC), Marketing and Registration Division, 8725 John J. Kingman Road, Suite 0944, ATTN: Ms. Elaine Stober, Ft. Belvoir, VA 22060-6218.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address, or call DTIC, Marketing and Registration Division, at (703) 767-8207.

Title; Associated Form; and OMB Number: Customer Satisfaction Survey—Generic Clearance; OMB Number 0704-0403.

Needs and Uses: The information collection requirement is necessary to assess the level of service the Defense Technical Information Center (DTIC) provides to its current customers. The surveys will provide information on the level of overall customer satisfaction, and on customer satisfaction with several attributes of service that impact the level of overall satisfaction. These customer satisfaction surveys are required to implement Executive Order 12862, "Setting Customer Service Standards." Respondents are DTIC registered users who are components of the Department of Defense, military services, other Federal Government Agencies, U.S. Government contractors, university involved in Federally funded research, and participants. The information obtained by these surveys will be used to assist agency senior management in determining agency business policies and processes that should be selected for examination, modification, and reengineering from the customer's perspective. These surveys will also provide statistical and demographic basis for the design of follow-on surveys. Future surveys will be used to assist monitoring of changes in the level of customer satisfaction over time.

Affected Public: Business or other for profit; Not-for-profit institutions.

Annual Burden Hours: 132.

Number of Respondents: 790.

Responses Per Respondent: 1.

Average Burden Per Response: 10 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The purpose of these surveys is to assess the level of service the Defense Technical Information Center (DTIC) provides to its current customers. The proposed collection of information will be conducted annually. Less frequent collection or no collection of information would result in the inability to effectively measure customer satisfaction and improve products and services based on feedback. The surveys will provide information on the level of overall customer satisfaction, and on customer satisfaction with several attributes of service which impact the level of overall satisfaction. The objectives of the survey are to help DTIC (1) gauge the level of satisfaction among both its general and Top 200 users, and (2) identify possible areas for improving our products and services. The surveys are designed to assist in evaluating the following knowledge objectives:

- To improve customer retention;
- To determine the perceived quality of products, service and customer care;
- To indicate trends in products, services and customer care;
- To benchmark our customer satisfaction results with other Federal government agencies.

Dated: February 18, 2004.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
