

that performs critical functions must be designed and installed to ensure that the operations, and operational capabilities of these systems to perform critical functions, are not adversely affected when the airplane is exposed to high intensity radiated electromagnetic fields external to the airplane.

2. For the purpose of these special conditions, the following definition applies: Critical Functions: Functions whose failure would contribute to, or cause, a failure condition that would prevent the continued safe flight and landing of the airplane.

Issued in Kansas City, Missouri on February 11, 2004.

James E. Jackson,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2003-16534; Airspace Docket No. 03-ASO-19]

Establishment of Class D and E Airspace; Olive Branch, MS; Amendment of Class E Airspace; Memphis, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; delay of effective date.

SUMMARY: This action delays indefinitely the establishment of Class D and E4 airspace at Olive Branch, MS, and the amendment of Class E5 airspace at Memphis, TN. The construction of a new federal contract tower with a weather reporting system has been delayed, with an uncertain completion date; therefore, the effective date of the establishment of Class D and E airspace and amendment of Class E airspace must also be delayed indefinitely.

EFFECTIVE DATE: The effective date of the final rule published February 3, 2004, at 69 FR 5009 (0901 UTC, April 15, 2004) is delayed indefinitely.

FOR FURTHER INFORMATION CONTACT: Walter R. Cochran, Manager, Airspace Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5586.

SUPPLEMENTARY INFORMATION:

History

Docket No. FAA-2003-16534, Airspace Docket No. 03-ASO-19,

published in the **Federal Register** on February 3, 2004, (69 FR 5009), established Class D and E4 airspace at Olive Branch, MS, and amended Class E5 airspace at Memphis, TN. The construction of a federal contract tower and weather reporting system at Olive Branch Airport made this action necessary. This action was originally scheduled to become effective on April 15, 2004; however, an unforeseen delay in beginning construction on the tower has required the effective date of this action to be delayed. A notice announcing a new effective date will be published in the **Federal Register** at least 90 days prior to the new effective date.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Delay of Effective Date

■ The effective date on Docket No. FAA-2003-16534; Airspace Docket No. 03-ASO-19 is hereby delayed indefinitely.

14 CFR Part 71

[Docket No. FAA-2004-16988; Airspace Docket No. 04-ACE-6]

Modification of Class E Airspace; Neodesha, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action modifies the Class E airspace area at Neodesha, KS. A review of controlled airspace for Neodesha Municipal Airport indicates it does not comply with the criteria for 700 feet Above Ground Level (AGL) airspace required for diverse departures. The area is modified and enlarged to conform to the criteria in FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, June 10, 2004. Comments for inclusion in the Rules Docket must be received on or before April 12, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2004-16988/Airspace Docket No. 04-ACE-6, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, DOT Municipal Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone (816) 329-2525.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Neodesha, KS. An examination of controlled airspace for Neodesha Municipal Airport reveals it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order
