

the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted for "sixty days" until May 17, 2004. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Thomas Bonczar, Statistician, at (202) 616-3615 or via facsimile at (202) 514-1757, Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice 810 Seventh Street NW., Washington, DC 20531.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Capital Punishment Report of Inmates Under Sentence of Death.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: NPS-8 Report of Inmates Under Sentence of Death; NPS-8A Update Report of Inmates Under Sentence of Death; NPS-8B Status of Death Penalty—No Statute in Force; and NPS-8C Status of Death Penalty—State in Force. Bureau of

Justice Statistics, Office of Justice Programs, United States Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: State Departments of Corrections and Attorneys General. Others: the Federal Bureau of Prisons. Approximately 95 respondents responsible for keeping records on inmates under sentence of death in their jurisdiction and in their custody will be asked to provide information for the following categories: condemned inmates' demographic characteristic, legal status at the time of capital offense, capital offense for which imprisoned, number of death sentences imposed, criminal history information, reason for removal and current status if no longer under sentence of death, method of execution, and cause of death by other than by execution. The Bureau of Justice Statistics uses this information in published reports; and for the U.S. Congress, Executive Office of the President, State officials, international organizations, researchers, students, the media and others interested in criminal justice statistics.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated amount of time is as follows: 171 responses at 30 minutes each for the NPS-8; 3,577 responses at 30 minutes each for the NPS-8A; and 52 responses at 15 minutes each for the NPS-8B or NPS-8C.

(6) An estimate of the total public burden (in hours) associated with the collection: There are an estimated 1,888 total annual burden hours associated with this collection.

SUPPLEMENTARY INFORMATION:

I. Background

Title 30, CFR 75.1716, 75.1716-1 and 75.1716-3 require operators of underground coal mines to notify MSHA of proposed mining under bodies of water and to obtain a permit to mine under a body of water if, in the judgment of the Secretary, it is sufficiently large to constitute a hazard to miners. This is a statutory provision contained in Section 317(r) of the Federal Mine Safety and Health Act of 1977. The regulation is necessary to prevent the inundation of underground coal mines with water, which has the potential of drowning miners. The coal mine operator submits an application for the permit to the District Manager in whose district the mine is located. Applications contain the name and address of the mine; projected mining and ground support plans; a mine map showing the location of the river, stream, lake or other body of water and its relation to the location of all working places; a profile map showing the type of strata and the distance in elevation between the coal bed and the water involved.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Operations Under Water. MSHA is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Operations Under Water.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.
