**SUPPLEMENTARY INFORMATION:** Basin is proposing to construct an 80 Megawatt simple-cycle gas turbine and is evaluating potential sites located in Brown and Deuel Counties, South Dakota. One site is located approximately 5 miles south of the town of Groton, in Brown County. A second potential site is located approximately 27 miles southeast of Watertown, in Deuel County. Depending on the site selected, associated facilities could include a gas pipeline, water pipeline and electric transmission facilities.

Comments regarding the proposed project may be submitted in writing no later than July 19, 2004, to RUS at the address provided above.

An environmental assessment (EA) will be prepared for the proposed project. Based on a review of the EA and other relevant information, RUS will determine if the preparation of an environmental impact statement is necessary. Should RUS determine that the preparation of an environmental impact statement is not necessary, it will prepare a Finding of No Significant Impact.

Any final action by RUS related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal, State, and local environmental laws and regulations and completion of the environmental review procedures as prescribed by 7 CFR Part 1794, Environmental Policies and Procedures.

**Industrial Nitrocellulose From Brazil, France, Germany, Korea, Japan, the People's Republic of China, and the United Kingdom: Notice of Preliminary Results of Changed Circumstances Review and Intent To Revoke Antidumping Duty Orders**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of changed circumstances reviews and intent to revoke antidumping duty orders.

**SUMMARY:** The Department of Commerce is conducting changed circumstances reviews of the antidumping orders of industrial nitrocellulose from Brazil, France, Germany, Korea, Japan, the People's Republic of China, and the United Kingdom. The preliminary results of these reviews indicate that Green Tree Chemical Technologies (Green Tree), the sole U.S. producer of industrial nitrocellulose in the United States, has ceased production. Consequently, we have preliminarily determined to revoke the orders of industrial nitrocellulose from Brazil, Germany, Korea, Japan, the People's Republic of China, and the United Kingdom on July 1, 2003, which is the earliest date for which there are entries which have been subject to these administrative reviews. We have preliminarily determined to revoke the orders of industrial nitrocellulose from France effective August 1, 2003, which is the earliest date for which there are entries subject to that administrative review.

Interested parties are invited to comment on these preliminary results.

**DATES:** *Effective Date:* June 17, 2004.
