SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. Each proposed information collection contains the following: (1) Type of review requested, *e.g.*, new, revision extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Record keeping burden. Application for Alternative Dispute Resolution (ADR) Services

Frequency: On occasion.

Affected Public: Airline Carriers, Railroads, and Union Officials.

Reporting and Recordkeeping Hour Burden:

Responses: Estimate about 45 annually.

Burden Hours: 9.

Abstract: The Railway Labor Act, 45 U. S. C., 151 a. General Purposes, provides that the purposes of the Act are (1) to avoid any interruption to commerce or to the operation of any carrier engaged therein* * *. (4) to provide for the prompt and orderly settlement of all disputes concerning rates of pay, rules, or working conditions, and (5) to provide for the prompt and orderly settlement of all disputes growing out of grievances or out of the interpretation or application of agreements concerning rates of pay, rules, or working conditions.

In fulfilling its role to administer the Act, the National Mediation Board offers the parties to disputes mediation and arbitration services. On a voluntary basis, training programs in Alternative Dispute Resolution (ADR) and facilitation services are also available. These ADR programs are designed to enhance the bargaining and grievance handling skill level of the disputants and to assist the parties in the resolution of disputes. The impact of these ADR programs is that mediation and arbitration can be avoided entirely or the scope and number of issues brought to mediation or arbitration is significantly reduced.

This collection is necessary to confirm the voluntary participation of the parties in the ADR process. The

information provided by the parties is used by the NMB to schedule the parties for ADR training and facilitation. Based on a recent survey of those who participated in the NMB's ADR Programs, 94.6% said they were satisfied with the ADR Programs and said they recommend the program for all negotiators. Collecting the brief information on the Application for ADR Services form allows the parties to voluntarily engage the services of the NMB in the orderly settlement of all disputes and fulfill the purposes of the Act.

Requests for copies of the proposed information collection request should be addressed to Grace Ann Leach, NMB, 1301 K Street, NW., Suite 250 E, Washington, DC 20572 or addressed to the e-mail address leach@nmb.gov or faxed to 202-692-5081. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to June D. W. King at 202-692-5010 or via Internet address king@nmb.gov. Individuals who use a telecommunications device for the deaf (TDD/TDY) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

NUCLEAR REGULATORY COMMISSION

Elimination of the Site Decommissioning Management Plan and Management of All Sites Undergoing Decommissioning Program; Information Notice

AGENCY: Nuclear Regulatory Commission.

ACTION: Information notice.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has decided to eliminate the Site Decommissioning Management Plan (SDMP) designation for sites and manage the SDMP sites as "complex sites," under a comprehensive decommissioning program. Elimination of the SDMP designation and the discontinuance of the SDMP as a separate site listing is appropriate, because the original intent of the SDMP and SDMP Action Plan (*i.e.*, to achieve closure on cleanup issues so that cleanup could proceed in a timely manner) has been achieved. The SDMP sites have been incorporated into a comprehensive decommissioning program that facilitates the cleanup of
