Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the

Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project: An Evaluation Survey on the Use and Effectiveness of Internet SAMMEC—N—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Since 1987, the Centers for Disease Control and Prevention (CDC) has used the Smoking-Attributable Mortality, Morbidity, and Economic Costs (SAMMEC) software to estimate the disease impact of smoking for the nation, states, and large populations.

The Internet version of the SAMMEC software was released in 2002, and it contains two distinct computational programs, Adult SAMMEC and Maternal and Child Health (MCH) SAMMEC, which can be used to estimate the adverse health outcomes and disease impact of smoking on adults and infants.

More than 1230 tobacco control professionals in the State health departments and other tobacco control institutions in the country are currently using Internet SAMMEC to generate the data they need for their projects. Some of them have provided comments and sent requests for assistance. The purpose of this survey is to evaluate the use and effectiveness of the SAMMEC software and identify ways to improve the system so that it will better meet the needs of the users in tobacco control and prevention. The annualized burden for this data collection is 250 hours.

Respondents	No. of respondents	No. of responses/respondent	Average burden/response (in hours)
Tobacco Control Professionals/Internet SAMMEC users	1000	1	15/60

Dated: January 7, 2004.

Proposed Project: NIOSH Training Grant Applications 42 CFR Part 86, OMB NO. 0920-0261—Extension—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Public law 91-596 requires CDC, National Institute of Occupational Safety and Health (NIOSH) to provide an adequate supply of professionals to carry out the purposes of the Act to assure a safe and healthful work environment. NIOSH supports educational programs through training

grant awards to academic institutions for the training of industrial hygienists, occupational physicians, occupational health nurses, safety professionals and other professionals in related disciplines, such as occupational epidemiologists. Grants are provided to regional Education and Research Centers (ERCs) which provide multidisciplinary graduate academic and research training for professionals, continuing education for practicing professionals and outreach programs. There are also Training Project Grants (TPGs) which provide single discipline academic and technical training throughout the country. 42 CFR part 86, "Grants for Education Programs in Occupational Safety and Health, Subpart B—Occupational Safety and Health Training," provides guidelines for implementing Pub. L. 91-596.

The Training Grant Application form (CDC 2.145.A) is used by NIOSH to
