

*Frequency:* Quarterly, for the progress report; once upon project completion for the final project report.

*Total Responses:* Estimated at between 332 and 484 reports annually

(number of respondents multiplied by the number of reports submitted annually).

*Average time per response:* 12 hours for the quarterly report; 40 hours for the one-time final report.

*Estimated Total Burden Hours:* see Burden Table below.

**BURDEN HOUR TABLE FOR H-1B.—TECHNICAL SKILLS TRAINING GRANT PROGRAM INFORMATION COLLECTION REQUEST**  
 [DOL/ETA Reporting Burden for H-1B Technical Skills Training Grant Performance Reporting]

	FY 2004	FY 2005	FY 2006
Number of Performance reports per grantee per quarter .....	1	1	1
Number of Performance reports per grantee per year .....	2	4	4
Average number of hours required for Performance reporting per grantee per quarter per report (see Note 1) .....	12	12	12
Average number of hours required for Performance reporting per grantee per year .....	24	48	48
Number of grantees submitting Performance reports (See Note 2) .....	93	121	83
Average number of hours required for reporting burden per year .....	2,232	5,808	3,984
SF269 Financial Status Report burden hours (OMB Control 0348-0043) @ 30 minutes per grantee per quarter .....	186	242	166
Grantee Final Project Report burden hours @ 40 hours per grantee (see Note 3) times # of grants ending in each year .....	80	1,520	520
<b>TOTAL BURDEN HOURS</b> .....	<b>2,498</b>	<b>7,570</b>	<b>4,670</b>
Total Performance reporting, SF269 and Final Report burden cost @ \$15.57 per hour (see Note 4) .....	\$38,893.86	\$117,864.90	\$72,711.90

**Notes:**

1. The estimate of hourly reporting burden per quarter for each grantee includes the time spent by the grantee to collect necessary information and to enter the information into ETA's EIMS.

2. Number of grantees varies during the course of the year. Some grants are completed and others will start during any given year. However, each grantee will be required to submit one progress report per quarter. The total number of reports submitted during a year thus varies depending on the number of operational grants in a particular year.

3. A final report is required once from each grantee. On average, the final report burden is estimated at 40 hours, including gathering of project statistics from existing data sources and writing and editing the report.

4. The total burden cost was based upon the median hourly wage for an Administrative Assistant/Executive Assistant using data for year 2001 (latest year for which data are available) from DOL's O\*Net system.

Comments submitted in response to this notice will be submitted and/or included in the request for Office of Management and Budget approval of the information collection request; they will become a part of the public record.

Dated: January 7, 2004.

**DEPARTMENT OF LABOR**

**Employment and Training Administration**

**Solicitation for Grant Applications (SGA) for H-1B Technical Skills Training Grants; Cancellation**

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Notice of cancellation.

**SUMMARY:** The Department of Labor (DOL) is canceling the SGA published in the **Federal Register** of January 6, 2003 (68 FR 567), concerning the availability of grant funds for H-1B Technical Skills Training Grants for training unemployed and employed American workers.

**EFFECTIVE DATE:** January 16, 2004.

**FOR FURTHER INFORMATION CONTACT:**

James Stockton, Grant Officer, Division of Federal Assistance, Telephone (202) 693-3301. (This is not a toll-free number).

**SUPPLEMENTARY INFORMATION:** As

authorized in the ACWIA 1998 (PL 105-227, the American Competitiveness and Workforce Improvement Act of 1998) and AC-21 (PL 106-313, the American Competitiveness in the Twenty-First Century Act), DOL provides grants for technical skills training from user fees that have been paid by employers hiring foreign workers under H-1B non-immigrant visas. We identified our goals and underlying principles for these grants, along with application procedures, in an SGA published in the **Federal Register** at 68 FR 567 (January 6, 2003). In order to reconsider these goals and principles, the Department is canceling the Solicitation for Grant Applications (SGA/DFA 03-100) for H-1B Technical Skills Training Grants. This cancellation will be effective two days after the publication of this **Federal Register** notice. We will not accept applications received after 5 p.m. Eastern Standard Time on January 16, 2004. However, the Department will review applications received prior to this cancellation and may consider

possible funding for those found eligible for funding in accordance with the review process specified in the SGA.

Signed in Washington, DC, this 9th day of January, 2004.

**James W. Stockton,**  
*Grant Officer.*

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 030-34340]

**Notice of Finding of No Significant Impact and Availability of Environmental Assessment for License Amendment of Materials License No. 37-30369-01; Adolor Corporation, Malvern, PA**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of availability of Environmental Assessment and Finding of No Significant Impact.

**FOR FURTHER INFORMATION CONTACT:**

Kathy Dolce Modes, Nuclear Materials Safety Branch 2, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (610)

337-5251, fax (610) 337-5269; or by email: [kad@nrc.gov](mailto:kad@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

### I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Adolor Corporation for Materials License No. 37-30369-01, to authorize release of its facility in Malvern, Pennsylvania for unrestricted use and has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate.

### II. EA Summary

The purpose of the proposed action is to allow for the release of the licensee's Malvern, Pennsylvania facility for unrestricted use. Adolor Corporation was authorized by NRC from August 20, 1997 to use radioactive materials for research and development purposes at the site. On July 18, 2003, Adolor Corporation requested that NRC release the facility for unrestricted use. Adolor Corporation has conducted surveys of the facility and determined that the facility meets the license termination criteria in subpart E of 10 CFR part 20.

### III. Finding of No Significant Impact

The NRC staff has evaluated Adolor Corporation's request and the results of the surveys and has concluded that the completed action complies with 10 CFR part 20. The staff has prepared the EA (summarized above) in support of the proposed license amendment to terminate the license and release the facility for unrestricted use. On the basis of the EA, the NRC has concluded that the environmental impacts from the proposed action are expected to be insignificant and has determined not to prepare an environmental impact statement for the proposed action.

### IV. Further Information

The EA and the documents related to this proposed action, including the application for the license amendment and supporting documentation, are available for inspection at NRC's Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Nos. ML031880271, ML032030484, ML032541074 and ML040060259). These documents are also available for inspection and copying for a fee at the Region I Office, 475 Allendale Road, King of Prussia, Pennsylvania, 19406.

Dated at King of Prussia, Pennsylvania this 7th day of January, 2004.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 72-17]

### Portland General Electric Company, Trojan Independent Spent Fuel Storage Installation; Notice of Docketing of Materials License SNM-2509 Amendment Application

By letter dated December 9, 2003, Portland General Electric Company (PGE) submitted an application to the Nuclear Regulatory Commission (NRC or the Commission), in accordance with 10 CFR part 72, requesting the amendment of the Trojan Independent Spent Fuel Storage Installation (ISFSI) license (SNM-2509) and the Technical Specifications for the ISFSI located at Columbia County, Oregon. PGE is seeking Commission approval to amend the materials license and the ISFSI Technical Specifications to reflect completion of dry storage cask loading operations and incorporation of an administrative change to the Trojan ISFSI Technical Specifications to conform to a recent NRC Final Rule, "Event Notification Requirements," (63 FR 33611 dated June 5, 2003).

This application was docketed under 10 CFR part 72; the ISFSI Docket No. is 72-17 and will remain the same for this action. The amendment of an ISFSI license is subject to the Commission's approval.

The Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) or, if a determination is made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected, take immediate action on the amendment in accordance with 10 CFR 72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action should be rescinded or modified.

For further details with respect to this amendment, see the application dated December 9, 2003, which is publicly available in the records component of NRC's Agencywide Documents Access and Management System (ADAMS). The NRC maintains ADAMS, which

provides text and image files of NRC's public documents. These documents may be accessed through the NRC's Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland, this 31st day of December, 2003.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-263]

### Nuclear Management Company, LLC, Monticello Nuclear Generating Plant Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. DPR-22, issued to Nuclear Management Company, LLC (NMC), for operation of the Monticello Nuclear Generating Plant (Monticello), located in Wright County, Minnesota. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

#### Environmental Assessment

##### Identification of the Proposed Action

The proposed action would revise the Monticello operating license to change the Monticello design bases and the Updated Safety Analysis Report (USAR). The proposed action would revise the existing analyses for the following:

- Long-term containment response to the design-basis loss-of-coolant accident (LOCA).
- Containment overpressure (the pressure above the initial containment pressure) required for adequate available net positive suction head (NPSH) for the low-pressure emergency core cooling system (ECCS) pumps following a LOCA.

NMC intends to use these analyses to justify restoring the service water temperature to its licensing-basis value of 90 degrees F. NMC administratively
