

2. Records which identify adequately the source and application of funds for grant-supported activities. Those records shall contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

3. Effective control over and accountability for all funds, property, and other assets. Grantees shall adequately safeguard all such assets and shall ensure that they are used solely for authorized purposes.

4. Accounting records supported by source documentation.

K. Retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three years after grant closing except that the records shall be retained beyond the three-year period if audit findings have not been resolved. Microfilm or photocopies or similar methods may be substituted in lieu of original records. The Grantor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the Grantee's which are pertinent to the specific grant program for the purpose of making audits, examinations, excerpts, and transcripts.

L. Provide either an audit report, annual financial statements, or other documentation prepared in accordance with Grantor regulations to allow the Grantor to determine that funds have been used in compliance with the proposal, any applicable laws and regulations, and this Agreement.

M. Agree to account for and to return to Grantor interest earned on grant funds pending their disbursement for program purposes when the Grantee is a unit of local government. States and agencies or an instrumentality of a State shall not be held accountable for interest earned on Grant Funds pending their disbursement.

N. Not encumber, transfer or dispose of the property or any part thereof, furnished by the Grantor or acquired wholly or in part with Grantor funds without the written consent of the Grantor except as provided in Paragraphs H and I.

O. Not duplicate other Project purposes for which monies have been received, are committed, or are applied to from other sources (public or private).

P. From construction completion throughout the term of the grant (useful life of the facility), the grantee shall submit on an annual basis, or as needed, the following:

1. Project Operating Budget to be completed on Form RD 1930-7 "Multiple Family Housing Project Budget." All sections of the budget are to be completed including, but not limited to, proposed and actual income and expense estimates, operating and maintenance expenses, special account statements (reserve, tax and insurance, and security deposit accounts) and capital improvement budgets.

2. Annual Tenant Certification to be completed on Form RD 1944-8, "Tenant Certification." This document shall be the official means by which tenant eligibility is established. This document must be completed by each tenant and the Grantee at the time of initial move-in, following a

fluctuation in tenant income or change in employment sector (processing to non-processing), and on each annual lease anniversary. The Grantee shall verify tenant income and employment sector with pay stubs, employer letters, or other documents which can verify the tenant's employment in agriculture, aquaculture, and seafood processing and/or fishery work and the tenants household income.

3. Other forms and reports as required by Federal, State, or local statute.

Q. Use of Real Property. The facility shall remain in use for its initially designated purpose of providing housing for agriculture, aquaculture, and seafood processing and/or fishery workers throughout the useful life of the facility or until such facility is no longer needed in the project market area. Grantee will not require any occupant of the housing or related facilities, as a condition of occupancy, to work or be employed by any particular processor, fishery, or other place, or work for or be employed by any particular person, firm, or interest. When no longer needed, RHS may approve the use of the property for other uses. These alternative uses are limited to:

1. Activities supported by other Federal grants or assistance agreements.

2. Activities not supported by other Federal grants or assistance agreements but having purposes consistent with the purposes of the legislation under which the Processing and/or Fishery Worker Housing Grant Demonstration Program was made.

Grantor Agrees That It:

A. Will make available to Grantee for the purpose of this Agreement not to exceed \$___ which it will advance to Grantee to meet but not to exceed ___ percent of the Project development costs in accordance with the actual needs of Grantee as determined by Grantor.

B. Will assist Grantee, within available appropriations, with such technical assistance as Grantor deems appropriate in planning the Project and coordinating the plan with local official comprehensive plans for essential community facilities and with any State or area plans for the area in which the project is located.

C. At its sole discretion and at any time, may give any consent, deferment, subordination, release, satisfaction, or termination of any or all of Grantee's grant obligations, with or without valuable consideration, upon such terms and conditions as Grantor may determine to be (1) advisable to further the purpose of the grant or to protect Grantor's financial interest therein and (2) consistent with both the statutory purposes of the grant and the limitations of the statutory authority under which it is made.

Termination of This Agreement

This Agreement may be terminated for cause in the event of default on the part of the Grantee or for convenience of the Grantor and Grantee prior to the date of completion of the grant purpose. Termination for convenience will occur when both the Grantee and Grantor agree that the continuation of the Project will not produce beneficial results commensurate with the further expenditure of funds.

In witness whereof, Grantee has this day authorized and caused this Agreement to be executed by

and attested with its corporate seal affixed (if applicable) by

BILLING CODE 3410-XV-P

DEPARTMENT OF AGRICULTURE

Rural Housing Service

Housing Demonstration Program

AGENCY: Rural Housing Service, United States Department of Agriculture (USDA).

ACTION: Notice of Funding for the Rural Housing Demonstration Program.

SUMMARY: The Rural Housing Service (RHS) announces the availability of housing loan funds for Fiscal Year (FY) 2004 for the Rural Housing Demonstration Program. For FY 2004, RHS has set aside \$2 million for the Innovative Demonstration Initiatives. The Agency is soliciting and accepting proposals from individuals for the Housing Demonstration program under section 506(b) of title V of the Housing Act of 1949, which provide loans to low income borrowers to purchase innovative housing units and systems that do not meet existing published standards, rules, regulations, or policies.

The intended effect is to increase the availability of affordable Rural Housing (RH) for low-income families through innovative designs and systems.

EFFECTIVE DATE: April 6, 2004.

FOR FURTHER INFORMATION CONTACT: Gloria L. Denson, Senior Loan Specialist, Single Family Housing Direct Loan Division, RHS, U.S. Department of Agriculture, STOP 0783, 1400 Independence Ave. SW., Washington, DC 20250-0783, Telephone (202) 720-1474. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION: Under current standards, regulations, and policies, some low-income rural families lack sufficient income to qualify for loans to obtain adequate housing. Section 506(b) of title V of the

Housing Act of 1949, 42 U.S.C. 1476, authorizes a housing demonstration program that could result in housing that these families can afford. Section 506(b) imposes two conditions: (1) That the health and safety of the population of the areas in which the demonstrations are carried out will not be adversely affected, and (2) that the aggregate expenditures for the demonstration may not exceed \$10 million in any fiscal year. Grant funds for these proposals are not authorized.

The objective of the demonstration programs is to test new approaches to constructing housing under the statutory authority granted to the Secretary of Agriculture. Rural Development will review each application for completeness and accuracy. Some demonstration proposals may not be completely consistent with 7 CFR part 3550-Direct Single Family Housing Loans and Grants regulation. Under section 506(b) of the Housing Act of 1949, the Agency may provide loans for innovative housing design units and systems which do not meet existing published standards, rules, regulations, or policies. The innovative housing units and systems should be creative, affordable, durable, energy efficient, and include a diversity of housing types. Examples of eligible proposals include, but are not limited to: new or improved energy-savings houses, roofing that cools, building techniques that cut costs and improve the quality of rural housing.

The Equal Credit Opportunity Act and Title VIII of the Civil Rights Act of 1968 provide that a program such as this be administered affirmatively so that individuals of similar low-income levels in the housing market area have housing choices available to them regardless of their race, color, religion, sex, national origin, familial status and disability. Under Section 504 of the Rehabilitation Act of 1973 Rural Development makes reasonable accommodations to permit persons with disabilities to apply for agency programs. Executive Order 12898 requires the Agency to conduct a Civil Rights Impact Analysis on each project prior to loan approval. Also, the requirements of Executive Order 11246 are applicable regarding equal employment opportunity when the proposed contract exceeds \$10,000.

Completed applications that have been determined to carry out the objectives of the program will be considered by the Rural Development State Director on a first come, first served basis based on the date a completed application was submitted. An application is considered complete only if the "Application for Approval of

Housing Innovation" is complete in content, contains information related to the criteria and all applicable additional information required by the application form has been provided. All application packages must be in accordance with the technical management requirements and address the criteria in the Proposal Content. The application, technical management requirements, Proposal Content and Criteria and further information may be obtained from the Rural Development State office in each state. (See the State Office address list at the end of this notice or access the website at http://www.rurdev.usda.gov/recd_map.html.) Applicants submitting an incomplete application will be advised in writing of additional information needed for continued processing.

The following evaluation factors will not be weighted and are non-competitive. RHS, in its analysis of the proposals received, will consider whether the proposals will carry out the objectives of this demonstration effort in accordance with the following criteria:

A. Housing Unit Concept

1. A proposal must be well beyond the "idea" state. Sufficient testing must have been completed to demonstrate its feasibility. The proposal must be judged ready for full-scale field testing in a rural setting.

2. Ability of the housing unit to provide for the protection of life, property, and for the safety and welfare of the consumer, general public and occupants through the design, construction, quality of materials, use, and maintenance of the housing unit.

3. Flexibility of the housing units in relation to varying types of housing and varying site considerations.

4. Flexibility of the housing unit concept, insofar as it provides the ability to adjust or modify unit size and arrangements, either during design or after construction.

5. Efficiency in the use of materials and labor, with respect to cost in place, conservation of materials, and the effective use of labor skills. Potential for use in the Mutual Self-Help housing program will be considered.

6. Selection of materials for durability and ease of maintenance.

7. Concepts for the effective use of land and development.

B. Organization Capabilities

1. The experience and "know-how" of the proposed organization or individual to implement construction of the housing unit concept in relation to the requirements of RHS's housing programs.

2. The management structure and organization of the proposer.

3. The quality and diversity of management and professional talent proposed as "key individuals."

4. The management plan of how this effort will be conducted.

C. Cost and Price Analysis

1. The level of costs which are proposed, as they may compare with other proposals and be considered realistic for the efforts planned. Also, the quantity and level of detail in the information supplied.

2. Projected cost of "housing in place," with particular reference to housing for very low and low-income families.

The State Director will send an acceptable proposal to the National Office for concurrence by the RHS Administrator before the State Director may approve it. If the proposal is not selected, the State Director will so notify the applicant in writing, giving specific reasons why the proposal was not selected. The funds for the RH Demonstration program are available for section 502 single family housing applicants who wish to purchase an approved demonstration dwelling. Funds cannot be reserved or guaranteed under the demonstration housing concept. There is no guarantee that a market exists for demonstration dwellings, and this does not ensure that an eligible loan applicant will be available for such a section 502 RH dwelling. If there is no available RHS eligible loan applicant, the RH demonstration program applicant will have to advance funds to complete the construction of the demonstration housing, with the risk that there may be no RHS applicant or other purchaser from which the builder will recover his or her development and construction costs.

This program or activity is listed in the Catalog of Federal Domestic Assistance under No. 10.410. For the reasons contained in 7 CFR part 3015, subpart V and RD Instruction 1940-J, "Intergovernmental Review of Rural Development Programs and Activities," this program or activity is excluded from the scope of Executive Order 12372, which requires intergovernmental consultation with State and local officials.

All interested parties must make a written request for a proposal package to the State Director in the State in which the proposal will be submitted; RHS will not be liable for any expenses incurred by respondents in the development and submission of applications.

The reporting requirements contained in this notice have been approved by the Office of Management and Budget (OMB) under Control Number 0575-0114.

Dated: March 19, 2004.

Arthur A. Garcia,
Administrator.

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

**President's Export Council
Subcommittee on Export
Administration; Notice of Partially
Closed Meeting**

The President's Export Council Subcommittee on Export Administration (PECSEA) will meet on May 20, 2004 10 a.m., at the U.S. Department of Commerce, Herbert C. Hoover Building, Room 4832, 14th Street between Pennsylvania and Constitution Avenues, NW., Washington, DC. The PECSEA provides advice on matters pertinent to those portions of the Export Administration Act, as amended, that deal with United States policies of encouraging trade with all countries with which the United States has diplomatic or trading relations and of controlling trade for national security and foreign policy reasons.

Public Session:

1. Opening remarks by the Chairman.
2. Bureau of Industry and Security (BIS) and Export Administration update.
3. Export Enforcement update.
4. Presentation of papers or comments by the public.

Closed Session:

5. Discussion of matters properly classified under Executive Order 12958, dealing with the U.S. export control program and strategic criteria related thereto.

A limited number of seats will be available for the public session.

Reservation are not accepted. To the extent time permits, members of the public may present oral statements to the PECSEA. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to PECSEA members, the PECSEA suggests that public presentation materials or comments be forwarded before the meeting to the address listed below: Ms. Lee Ann Carpenter, EA/BIS MS: 1099D, U.S. Department of Commerce, 14th St. & Constitution Ave., NW., Washington, DC 20230.

A Notice of Determination to close meetings, or portions of meetings, of the PECSEA to the public on the basis of 5 U.S.C. 522(c)(1) was approved on October 8, 2003 in accordance with the Federal Advisory Committee Act.

For more information, call Ms. Carpenter on (202) 482-2583.

Dated: March 31, 2004.

Matthew S. Borman,

Deputy Assistant Secretary for Export Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-489-501]

**Notice of Preliminary Results of
Antidumping Duty Administrative
Review: Certain Welded Carbon Steel
Pipe and Tube From Turkey**

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: In response to a request by domestic interested parties, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain welded carbon steel pipe and tube (welded pipe and tube) from Turkey. This review covers one producer/exporter of the subject merchandise, The Borusan Group (Borusan). We preliminarily determine that Borusan made sales below normal value (NV). If these preliminary results are adopted in our final results, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties based on the difference between the export price (EP) and the NV.

EFFECTIVE DATE: April 6, 2004.

FOR FURTHER INFORMATION CONTACT:

Martin Claessens or Erin Begnal, at (202) 482-5451 or (202) 482-1442,

respectively; AD/CVD Enforcement Office 5, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:**Background**

On May 15, 1986, the Department published in the **Federal Register** the antidumping duty order on welded pipe and tube from Turkey (51 FR 17784). On May 1, 2003, the Department published a notice of opportunity to request an administrative review of this order. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 68 FR 23281 (May 1, 2003). On May 30, 2003, in accordance with 19 CFR 351.213(b), interested parties Allied Tube & Conduit Corporation, IPSCO Tubulars, Inc., and Wheatland Tube Company requested a review of Borusan.

On July 1, 2003, the Department published a notice of initiation of administrative review of the antidumping duty order on welded pipe and tube from Turkey, covering the period May 1, 2002, through April 30, 2003 (68 FR 39055). On January 6, 2004 the Department extended the deadline for the preliminary results until no later than March 31, 2004. See *Certain Welded Carbon Steel Pipe and Tube from Turkey: Extension of the Time Limit for the Preliminary Results of Antidumping Duty Administrative Review* (69 FR 628). From March 1 through March 12, 2004, we conducted sales and cost verifications of Borusan's questionnaire response.

Scope of the Review

The products covered by this order include circular welded non-alloy steel pipes and tubes, of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, or galvanized, painted), or end finish (plain end, beveled end, threaded and coupled). Those pipes and tubes are generally known as standard pipe, though they may also be called structural or mechanical tubing in certain applications. Standard pipes and tubes are intended for the low pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air conditioner units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing,
