

Commonwealth of Puerto Rico, or a territory or possession of the United States;

4. Loans made by academic institutions; and

5. Private ("Alternative") Educational Loans:

- MEDLOANS; and
- Private (non-guaranteed)

Consolidation Loans.

The following loans are not repayable under the Clinical Research Loan Repayment Program for Individuals from Disadvantaged Backgrounds:

1. Loans not obtained from a U.S. or other government entity, an academic institution, or a commercial or other chartered U.S. lending institution, such as loans from friends, relatives, or other individuals, and non-educational loans, such as home equity loans;

2. Loans for which contemporaneous documentation (current account statement, and promissory note or lender disclosure statement) is not available;

3. Loans that have been consolidated with loans of other individuals, such as a spouse or child;

4. Loans or portions of loans obtained for educational or living expenses that exceed a reasonable level, as determined by the standard school budget for the year in which the loan was made, and are not determined by the LRP to be reasonable based on additional contemporaneous documentation provided by the applicant;

5. Loans, financial debts, or service obligations incurred under the following programs, or other programs that incur a service obligation that converts to a loan on failure to satisfy the service obligation:

- Armed Forces (Army, Navy, or Air Force) Health Professions Scholarship Program;

- Indian Health Service (IHS) Scholarship Program;

- National Institutes of Health

Undergraduate Scholarship Program (UGSP);

- National Research Service Award (NRSA) Program;

- Physicians Shortage Area

Scholarship Program (Federal or State);

- Primary Care Loan (PCL) Program;

and

- Public Health Service (PHS) and National Health Service Corps (NHSC) Scholarship Program;

6. Delinquent loans, loans in default, or loans not current in their payment schedule;

7. PLUS Loans;

8. Loans that have been paid in full; and

9. Loans obtained after the execution of the NIH Loan Repayment Program

Contract (e.g., promissory note signed after the LRP contract has been awarded) (this provision does not apply to qualifying loan consolidations).

Before the commencement of loan repayment, or during lapses in loan repayments due to NIH administrative complications, Leave Without Pay (LWOP), or a break in service, LRP participants are wholly responsible for making payments or other arrangements that maintain loans current, such that increases in either principal or interest do not occur. The LRP contract period will not be modified or extended as a result of LWOP or a break in service. Penalties assessed participants as a result of NIH administrative complications to maintain a current payment status may not be considered for reimbursement.

LRP payments are not retroactive. Loan repayment for fiscal year 2005 will commence after a loan repayment contract has been executed, which is expected to be no earlier than July 2005.

This program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs.

This program is subject to OMB clearance under the requirements of the Paperwork Reduction Act of 1995. The OMB approval of the information collection associated with the ECR-LRP expires on December 31, 2004. The Catalog of Federal Domestic Assistance number for the Extramural Clinical Research LRP for Individuals from Disadvantaged Backgrounds is 93.308.

Dated: November 19, 2004.

Elias A. Zerhouni,

Director, NIH.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Loan Repayment Program for Health Disparities Research

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: The National Institutes of Health (NIH) and the National Center on Minority Health and Health Disparities (NCMHD) announce the 2005 Loan Repayment Program for Health Disparities Research (HDR-LRP or Program). The HDR-LRP provides for the repayment of educational loan debt of up to \$35,000 annually for qualified health professionals conducting

minority health or other health disparities research for domestic non-profit or government entities. In addition, payments equal to 39 percent of the loan repayments are issued to the Internal Revenue Service on behalf of the program participants to offset Federal tax liabilities incurred as a result of participating in the program. The Program may also provide reimbursement for State and local tax liabilities.

The purpose of the HDR-LRP is the recruitment and retention of highly qualified health professionals to research careers that focus on minority health or other health disparity issues. Through this notice, NIH and NCMHD invite qualified health professionals who contractually agree to engage in minority health or other health disparities research for at least two years, and who agree to engage in this area of research for at least 50 percent of their time, *i.e.*, not less than 20 hours per week, to apply for participation in the Loan Repayment Program for Health Disparities Research.

DATES: Interested persons may request information about the HDR-LRP beginning on November 30, 2004.

FOR FURTHER INFORMATION CONTACT: Jerry Moore, NIH Regulations Officer, Office of Management Assessment, NIH, 6011 Executive Blvd., Room 601, MSC 7669, Rockville, MD 20892, by e-mail: Moorej@mail.nih.gov, by fax: 301-402-0169, or by telephone: 301-496-4607 (not a toll-free number). For information regarding the requirements, application deadline dates, and on-line application for the HDR-LRP program, please visit the NIH Loan Repayment Program Web site at <http://www.lrp.nih.gov>, send an e-mail to lrp@nih.gov, call the LRP helpline at 866-849-4047 (toll-free number) or contact the NCMHD Loan Repayment Coordinator, Kenya McRae, at 301-402-1366 (not a toll-free number) or via e-mail: mcraek@mail.nih.gov.

SUPPLEMENTARY INFORMATION: The Minority Health and Health Disparities Research and Education Act of 2000 (Pub. L. 106-525), adds section 485G of the PHS Act to allow the Director, NCMHD, to enter into contracts for loan repayment with appropriately qualified health professionals who agree to conduct minority health or other health disparities research. Under such contracts, qualified health professionals agree to conduct minority health or health disparities research for a minimum of two years in consideration of the Federal Government agreeing to repay, for each year of service, not more than \$35,000 of the principal and

interest of the extant qualified educational loans of such health professionals.

The objective of the HDR-LRP is the recruitment and retention of highly qualified health professionals to research careers that focus on minority health or other health disparity issues. The Program serves as an avenue for NIH and the NCMHD to engage in and promote the development of research programs that reflect the variety of issues and problems associated with disparities in health status. In addition, the Director, NCMHD, is statutorily required to ensure that not fewer than 50 percent of the contracts are awarded to qualified health professionals that are members of health disparities populations. This highlights the need for the involvement of a cadre of culturally competent health professionals in minority health and other health disparities research.

"Health disparity populations" are determined by the Director of NCMHD, after consultation with the Director of the Agency for Healthcare Research and Quality, and are defined as populations in which there is significant disparity in the overall rate of disease incidence, prevalence, morbidity, mortality, or survival rates as compared to the health status of the general population. For purposes of this announcement, the following populations have been determined to be health disparities populations: Blacks/African Americans, Hispanics/Latinos, Native Americans, Alaska Natives, Asian Americans, Native Hawaiians, Pacific Islanders, and the medically underserved, such as individuals from the Appalachian region.

"Health disparities research" is defined as basic, clinical, or behavioral research on a health disparities population (including individual members and communities of such populations), including the causes of such health disparities and methods to prevent, diagnose, and treat such disparities.

"Medically underserved" refers to individuals that lack access to primary and specialty care either because they are socioeconomically disadvantaged, and may or may not live in areas with high poverty rates, or because they reside in rural areas. The term also refers to individuals that reside in geographic areas where the Index of Medical Underservice (IMU) is 62 or less. The Health Resources and Services Administration (HRSA) criteria designate a service area with an IMU of 62 or less as a "medically underserved area (MUA)." The IMU is a weighted score derived from four variables: The

ratio of primary medical care physicians per 1,000 population, the infant mortality rate, the percentage of population below the Federal poverty level, and the percentage of the population age 65 years or over.

"Minority health conditions" refers to all diseases, disorders, and other conditions (including mental health and substance abuse) that are unique to, more serious in, or more prevalent in racial and ethnic minorities, for which the medical risk factors or types of medical interventions may be different, or research involving such populations as subjects or data on such individuals is insufficient.

"Minority health disparities research" is defined as basic, clinical, or behavioral research on minority health conditions, including research to prevent, diagnose, and treat such conditions.

Eligibility Requirements

Specific eligibility criteria for the HDR-LRP include the following:

1. Applicants must be United States citizens, nationals, or permanent residents;
2. Applicants must have a Ph.D., M.D., D.O., D.D.S., D.M.D., D.P.M., Pharm.D., D.C., N.D., or equivalent doctoral degree from an accredited institution;
3. Applicants must have total qualifying educational debt equal to or in excess of 20 percent of their institutional base salary at the time of award (projected to be between July 1 and September 1, 2005). Institutional base salary is the annual amount the organization pays for the individual's appointment, whether the time is spent on research, teaching, patient care, or other activities. Institutional base salary excludes any income that an applicant may earn outside of the duties of the organization and may not include or comprise any income (salary or wages) earned as a Federal employee;
4. Applicants must conduct qualifying research supported by a domestic non-profit foundation, non-profit professional association, or other non-profit institution, or a U.S. or other government agency (Federal, State or local). A domestic foundation, professional association or institution is considered to be non-profit if exempt from Federal tax under the provisions of Section 501 of the Internal Revenue Code (26 U.S.C. 501);
5. Applicants must engage in qualified minority health or other health disparities research for at least 50 percent of their time, *i.e.*, not less than 20 hours per week based on a 40-hour work week;

6. Full-time employees of Federal Government agencies are ineligible to apply for LRP benefits. Part-time Federal employees who engage in qualifying research as part of their non-Federal duties for at least 20 hours per week, and whose funding source is from a domestic non-profit source as defined in subparagraph 4 of this section, are eligible to apply for loan repayment if they meet all other eligibility requirements;

7. Applicants must agree to conduct research for which funding is not prohibited by Federal law, regulations, or HHS/NIH policy. Recipients who receive HDR-LRP awards must conduct their research in accordance with applicable Federal, State and local law (*e.g.*, applicable human subject protection regulations) for the entire period of time;

8. Applicants will not be excluded from consideration on the basis of age, race, culture, religion, gender, sexual orientation, disability, or other non-merit factors; and

9. No individual may submit more than one LRP application to the NIH in any fiscal year. Unsuccessful HDR-LRP applicants may reapply in subsequent fiscal years if they meet all of the above eligibility criteria.

The following individuals are ineligible for participation in the HDR-LRP:

1. Persons who are not United States citizens, nationals, or permanent residents;
2. Any individual who has a Federal judgment lien against his/her property arising from a Federal debt is barred from receiving Federal funds until the judgment is paid in full or satisfied;
3. Any individual who owes an obligation of health professional service to the Federal Government, a State, or other entity, unless deferrals or extensions are granted for the length of their Extramural Loan Repayment Program service obligation. The following are examples of programs with service obligations that disqualify an applicant from consideration, unless a deferral for the length of participation in the Loan Repayment Program is obtained:
 - (a) Armed Forces (Army, Navy, or Air Force) Professions Scholarship Program,
 - (b) Exceptional Financial Need (EFN) Scholarship Program,
 - (c) Financial Assistance for Disadvantaged Health Professions Students (FADHPS),
 - (d) Indian Health Service (IHS) Scholarship Program,
 - (e) National Health Service Corps (NHSC) Scholarship Program,

(f) National Institutes of Health Undergraduate Scholarship Program (UGSP),

(g) Physicians Shortage Area Scholarship Program,

(h) Primary Care Loan (PCL) Program,

(i) Public Health Service (PHS) Scholarship Program, and

(j) National Research Service Award (NRSA) Program;

4. Full-time employees of Federal Government agencies. Part-time Federal employees who engage in qualifying research supported by a domestic non-profit institution, as part of their non-Federal duties, for an outside entity for at least 20 hours per week, based on a 40-hour work week, are eligible to apply for the HDR-LRP if they meet all other eligibility requirements;

5. Current recipients of NIH Intramural Research Training Awards (IRTA) or Cancer Research Training Awards (CRTA);

6. Individuals conducting research for which funding is precluded by Federal law, regulations or HHS/NIH policy, or that does not comply with applicable Federal, State, and local law regarding the conduct of the research (*e.g.*, applicable human subject protection regulations); and

7. Individuals with ineligible loans, which include loans that have been consolidated with a loan of another individual (including spouses or children), or loans that are not educational, such as home equity loans.

Selection Process

Upon receipt, applications for both initial and renewal awards will be reviewed for eligibility and completeness. Incomplete or ineligible applications will not be considered. Applications that are complete and eligible will be forwarded for peer review. In evaluating the application, reviewers will be directed to consider the following components as they relate to the likelihood that the applicant will continue in a health disparities research career:

a. Potential of the applicant to pursue a career in minority health or other health disparities research:

- Appropriateness of the applicant's previous training and experience to prepare him/her for a minority health or other health disparities research career.
- Suitability of the applicant's proposed minority health or other health disparities research activities in the two-year loan repayment period to foster a research career.

- Assessment of the applicant's commitment to a research career as reflected by the personal statement of

long-term career goals and the plan outlined to achieve those goals.

- Strength of recommendations attesting to the applicant's potential for a research career.

b. Quality of the overall environment to prepare the applicant for a research career in health disparities:

- Availability of appropriate scientific colleagues to achieve and/or enhance the applicant's research independence.

- Quality and appropriateness of institutional resources and facilities.

LRP renewal contracts are available for one- and two-year periods and are based upon the same criteria as the initial application plus two additional criteria—an assessment of research accomplishments and development of an individual as an independent investigator. An explanation of research accomplishments during the initial award period is required. Progress toward development as an independent investigator is a major factor in awarding renewal of loan repayment support. Renewal LRP awards are competitive and submission of a renewal application does not ensure the award of loan repayment.

The following information is furnished by applicants or others on behalf of applicants (forms are completed electronically at the LRP Web site at www.lrp.nih.gov):

Applicants electronically transmit the following to the NIH Office of Loan Repayment:

1. Applicant information statement.
2. Biosketch.
3. Personal statement, which includes a discussion of career goals and academic objectives.
4. Description of research activities, which describes the current or proposed research project including the specific responsibilities and role of the applicant in conducting the research. The research supervisor or mentor will be asked to concur.

5. Identification of three recommenders (one of whom is identified as research supervisor or mentor).

6. Identification of institutional contact.

7. On-line certification.

8. Loan information, including current account statement(s) and promissory note(s) or disclosure statement(s) obtained from lending institution(s), submitted via facsimile to 866-849-4046.

9. If applying based on NIH support, Notice of Grant/Award (or PHS Form 2271 for Ruth L. Kirschstein NRSA training fellowships).

Research supervisors or mentors electronically transmit the following to the NIH Office of Loan Repayment:

1. Recommendation.
2. Biosketch.
3. Assessment of the research activities statement submitted by the applicant.

4. Description of the research environment, which provides detailed information about the lab where the applicant is or will be conducting research, including funding, lab space, and major areas under investigation.

5. Training or mentoring plan, which includes a detailed discussion of the training or mentoring plan, including a discussion of the research methods and scientific techniques to be taught. This document is completed by the research supervisor or mentor and is submitted for all applicants.

6. Biosketch of any supplemental mentors/advisors or laboratory staff member if involved in the training and mentoring of the applicant.

The other Recommenders electronically transmit recommendation forms to the NIH Office of Loan Repayment.

Institutional contacts electronically transmit a certification to the NIH Office of Loan Repayment that:

- (a) Assures that the applicant will be provided the necessary time and resources to engage in the research project for two years from the date a Loan Repayment Program contract is executed;

- (b) Assures that the applicant is or will be engaged in qualifying research for 50 percent of his/her work effort or not less than 20 hours per week based on a 40-hour work week;

- (c) Certifies that the sponsoring entity is a domestic non-profit institution (exempt from tax liability under 26 U.S.C. 501); and

- (d) Provides the applicant's institutional base salary.

Program Administration and Details

Under the HDR-LRP, the NIH will repay a portion of the extant qualified educational loan debt incurred to pay for the researcher's undergraduate, graduate, and/or health professional school educational expenses.

The NIH will repay lenders for the extant principal, interest, and related expenses (such as the required insurance premiums on the unpaid balances of some loans) of educational loans from a U.S. Government entity, an academic institution, or a commercial or other chartered U.S. lending institution, such as banks, credit unions, savings and loan associations, not-for-profit organizations, insurance companies,

and other financial or credit institutions that are subject to examination and supervision in their capacity as lending institutions by an agency of the United States or of the State in which the lender has its principal place of business, obtained by participants for the following:

- Undergraduate, graduate, and health professional school tuition expenses;
- Other reasonable educational expenses required by the school(s) attended, including fees, books, supplies, educational equipment and materials, and laboratory expenses; and
- Reasonable living expenses, including the cost of room and board, transportation and commuting costs, and other living expenses as determined by the Secretary.

Repayments are made directly to lenders, following receipt of (1) the Principal Investigator, Program Director, or Research Supervisor's verification of completion of the prior period of research, and (2) lender verification of the crediting of prior loan repayments, including the resulting account balances and current account status. The NIH will repay loans in the following order, unless the Secretary determines that significant savings would result from a different order of priority:

1. Loans guaranteed by the U.S. Department of Health and Human Services:
 - Health Education Assistance Loan (HEAL);
 - Health Professions Student Loan (HPSL);
 - Loans for Disadvantaged Students (LDS); and
 - Nursing Student Loan Program (NSL);
2. Loans guaranteed by the U.S. Department of Education:
 - Direct Subsidized Stafford Loan;
 - Direct Unsubsidized Stafford Loan;
 - Direct Consolidation Loan;
 - Perkins Loan;
 - FFEL Subsidized Stafford Loan;
 - FFEL Unsubsidized Stafford Loan;
- and
- FFEL Consolidation Loan;
3. Loans made or guaranteed by a State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States;
4. Loans made by academic institutions; and
5. Private ("Alternative") Educational Loans:
 - MEDLOANS; and
 - Private (non-guaranteed) Consolidation Loans.

The following loans are NOT repayable under the Loan Repayment Program for Health Disparities Research:

1. Loans not obtained from a U.S. or other government entity, academic institution, or a commercial or other chartered U.S. lending institution such as loans from friends, relatives, or other individuals, and non-educational loans, such as home equity loans;

2. Loans for which contemporaneous documentation (current account statement, and promissory note or lender disclosure statement) is not available;

3. Loans that have been consolidated with loans of other individuals, such as a spouse or child;

4. Loans or portions of loans obtained for educational or living expenses, which exceed a reasonable level, as determined by the standard school budget for the year in which the loan was made, and are not determined by the LRP to be reasonable based on additional contemporaneous documentation provided by the applicant;

5. Loans, financial debts, or service obligations incurred under the following programs, or other programs that incur a service obligation that converts to a loan on failure to satisfy the service obligation:

- Armed Forces (Army, Navy, or Air Force) Health Professions Scholarship Program;
- Indian Health Service (IHS) Scholarship Program;
- National Institutes of Health Undergraduate Scholarship Program (UGSP);
- National Research Service Award (NRSA) Program;
- Physicians Shortage Area Scholarship Program (Federal or State);
- Primary Care Loan (PCL) Program; and
- Public Health Service (PHS) and National Health Service Corps (NHSC) Scholarship Program;

6. Delinquent loans, loans in default, or loans not current in their payment schedule;

7. PLUS Loans;

8. Loans that have been paid in full; and

9. Loans obtained after the execution of the NIH Loan Repayment Program Contract (e.g., promissory note signed after the LRP contract has been awarded) (this provision does not apply to qualifying loan consolidations).

Before the commencement of loan repayment, or during lapses in loan repayments due to NIH administrative complications, Leave Without Pay (LWOP), or a break in service, LRP participants are wholly responsible for making payments or other arrangements that maintain loans current, such that increases in either principal or interest

do not occur. The LRP contract period will not be modified or extended as a result of LWOP or a break in service. Penalties assessed participants as a result of NIH administrative complications to maintain a current payment status may not be considered for reimbursement.

LRP payments are NOT retroactive. Loan repayment for fiscal year 2005 will commence after a loan repayment contract has been executed, which is expected to be no earlier than July 2005.

This program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs.

This program is subject to OMB clearance under the requirements of the Paperwork Reduction Act of 1995. The OMB approval of the information collection associated with the HDR-LRP expires on December 31, 2004. The Catalog of Federal Domestic Assistance number for the Health Disparities LRP is 93.307.

Dated: November 19, 2004.

Elias A. Zerhouni,
Director, NIH.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel, Paul Calabresi Award for Clinical Oncology PAR-04-096.

Date: January 20, 2005.

Time: 11 a.m. to 12 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6116 Executive Boulevard, Rockville, MD 20852, (Telephone Conference Call).
