Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance from certain requirements of its safety regulations. The individual petition is described below including, the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

The Canadian Pacific Railway

(Docket Number FRA–2004–17989)

The Canadian Pacific Railway (CP) seeks a waiver of compliance from certain provisions of the Railroad Operating Practices regulations, 49 CFR part 218, regarding blue signal protection of workers. Specifically, to permit train and yard crew members, and utility employees to remove and replace batteries in two-way end-of-train telemetry devices (EOT), while the EOT is in place on the rear of the train the individual has been called to operate, without establishing any blue signal protection.

Section 218.5 defines worker as any railroad employee assigned to inspect, test, repair, or service railroad rolling equipment or their components, including brake systems. Members of train and yard crews are excluded except when assigned such work on railroad rolling equipment that is not part of the train or yard movement they have been called to operate (or assigned to as "utility employees"). Utility employees assigned to
