

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for emergency review and approval, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

This is a request for approval of a revision to the currently approved information collection for selecting applicants for the Section 202 Supportive Housing for the Elderly program grants which will be part of the 2004 Notice of Funding Availability (NOFA).

Congress has introduced a new facet to the Section 202 Program authorizing Demonstration Planning Grant funding for Sponsors of projects that receive Fund Reservation Awards. This predevelopment grant funding will be for architectural and engineering work, site control, and other planning related expenses.

DATES: *Comments Due Date:* July 8, 2004.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments must be received within seven (7) days from the date of this Notice. Comments should refer to the proposal by name/or OMB approval number (2502-0267) and should be sent to: HUD Desk Officer, Office of Management and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Wayne Eddins, Paperwork Reduction Act Compliance Officer, AYO, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail Wayne_Eddins@HUD.gov; telephone (202) 708-2374. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Mr. Eddins or on HUD's Web site at <http://www5.hud.gov:63001/po/i/icbts/collectionsearch.cfm>.

SUPPLEMENTARY INFORMATION: This Notice informs the public that the U.S. Department of Housing and Urban Development (HUD) has submitted to OMB, for emergency processing, a proposed revision to the currently approved information collection for selecting applicants for the Fair Housing Initiatives (FHIP) Program grants.

This Notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Grant Application for Section 202 Supportive Housing for the Elderly.

Description of Information Collection: This is a revision to the currently approved information collection for selecting applicants for the Section 202 Supportive Housing for the Elderly program grants which will be part of the 2004 Notice of Funding Availability (NOFA).

Congress has introduced a new facet to the Section 202 Program authorizing Demonstration Planning Grant funding for Sponsors of projects that receive Fund Reservation Awards. This predevelopment grant funding will be for architectural and engineering work, site control, and other planning related expenses.

OMB Control Number: 2502-0267.

Agency Form Numbers: HUD forms 92015-CA, 92041, 92042, plus standard grant application forms SF 424, and HUD-424B, 424C, 424CB, 424CBW, 2880, 2990, 2991, 96010, and OMB SF LLL.

Members of Affected Public: Not-for-profit institutions.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of responses, and hours of response: An estimation of the total number of hours needed to prepare the information collection is 42 hours per applicant plus 7 hours for those who also apply for the Demonstration Planning grant. The estimated number of respondents is 361. The frequency of response is once per annum. The total public burden is estimated to be 15,200 hours.

Status: Revision of a currently approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: June 25, 2004.

Wayne Eddins,

*Departmental Reports Management Officer,
Office of the Chief Information Officer.*

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Extension of Comment Period for the Bull Trout (*Salvelinus Confluentus*) 5-Year Review

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Extension of comment period for the bull trout 5-year review.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces an extension of the comment period for the bull trout 5-year review under section 4(c)(2)(A) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) (Act). The initial request for information was to end on July 1, 2004. We are extending the request for information to January 3, 2005. We are announcing this extension to allow the public additional time to provide information for this review. We are again requesting submission of any new information (best scientific and commercial data) on the bull trout that has become available since its original listing as a threatened species coterminously in the lower 48 States in 1999 (64 FR 58932). If the present classification of the bull trout is not consistent with the best scientific and commercial information available, we may, at the conclusion of this review, initiate a separate action to propose changes to the List of Endangered and Threatened Wildlife and Plants (List) accordingly.

DATES: To allow us adequate time to conduct the review, we must receive your information no later than January 3, 2005. We want to emphasize that the timely submission of information is critical to ensure its use in the 5-year review.

ADDRESSES: Submit information to the U.S. Fish and Wildlife Service, Bull Trout Coordinator, Attention: Bull Trout 5-year Review, 911 NE 11th Avenue, Portland, Oregon 97232. Information received in response to this notice and the results of the review will be available for public inspection by appointment, during normal business hours, at the above address. New information regarding the bull trout may also be sent electronically to R1BullTrout5Y@r1.fws.gov.

FOR FURTHER INFORMATION CONTACT:

Rollie White at the above address, or at (503) 231-6158.

SUPPLEMENTARY INFORMATION: On April 13, 2004, we announced in a **Federal Register** notice (69 FR 19449) that we are commencing a 5-year review of the bull trout. Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. The purpose of a 5-year review is to ensure that the classification of a species as threatened or endangered on the List is accurate. The 5-year review is an assessment of the best scientific and commercial data available at the time of the review that has become available since the species' original listing or its most recent status or 5-year review.

If there is no new information concerning the bull trout, no changes will be made to its classification. However, if we find that there is new information concerning the bull trout indicating a change in classification is warranted, we may propose a new rule that could either: (a) Reclassify the species from threatened to endangered; or (b) remove the species from the List.

Public Solicitation of New Information

We are publishing this extension of the comment period to allow for any new information relating to the current status of the bull trout that has become available since its original listing. In particular, we are seeking information such as:

A. Species biology including, but not limited to, population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions including, but not limited to, amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends; and

E. Other new information, data, or corrections including, but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Information submitted should be supported by documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

Authority

This document is published under the authority of the Endangered Species Act (16 U.S.C. 1531 *et seq.*).

Dated: June 17, 2004.

David J. Wesley,

Regional Director, Region 1, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****Draft Recovery Plan for the Coastal-Puget Sound Distinct Population Segment of Bull Trout (*Salvelinus confluentus*), Volumes I and II**

AGENCY: U.S. Fish and Wildlife Service, Interior.

ACTION: Notice of document availability for review and comment.

SUMMARY: The U.S. Fish and Wildlife Service ("we") announces the availability of the Draft Recovery Plan for the Coastal-Puget Sound Distinct Population Segment of Bull Trout (*Salvelinus confluentus*) for public review and comment. Two separate volumes comprise the draft recovery plan for bull trout in this distinct population segment: the Puget Sound Management Unit is addressed in Volume I, and the Olympic Peninsula Management Unit is the focus of Volume II.

DATES: Comments on the draft recovery plan must be received on or before October 29, 2004.

ADDRESSES: Hard copies of the draft recovery plan will be available in 4 to 6 weeks for inspection, by appointment, during normal business hours at the following location: U.S. Fish and Wildlife Service, Western Washington Fish and Wildlife Office, 510 Desmond Drive SE., Suite 102, Lacey, Washington (telephone (360) 753-9440). Requests for copies of the draft recovery plan and written comments and materials regarding this plan should be addressed to Ken Berg, Field Supervisor, at the above Lacey address. This plan is currently available on the World Wide Web at <http://endangered.fws.gov/recovery/index.html#plans>.

FOR FURTHER INFORMATION CONTACT: For Volume I, the Puget Sound Management Unit, contact Jeffrey Chan, Fish and Wildlife Biologist, at the above Lacey address and telephone number. For Volume II, the Olympic Peninsula Management Unit, contact Shelley Spalding, Fish and Wildlife Biologist, at the above Lacey address and telephone number.

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of our endangered species program and the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*). Recovery means improvement of the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the Act. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the measures needed for recovery.

The Act requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. We will consider all information presented during the public comment period prior to approval of each new or revised recovery plan. Substantive technical comments may result in changes to the recovery plan. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plan, but will be forwarded to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions. Individual responses to comments will not be provided.

Bull trout (*Salvelinus confluentus*), members of the family Salmonidae, are native to the Pacific Northwest and western Canada. Compared to other salmonids, bull trout have more specific habitat requirements, including cold water temperatures, particularly for spawning and rearing, and the presence of complex forms of cover for all life history stages, including large woody debris, undercut banks, boulders and pools. Bull trout may be resident or may exhibit one of three migratory life history forms, including adfluvial (migrating from tributary streams to a lake or reservoir to mature), fluvial (migrating from tributary streams to larger rivers to mature), or anadromous (migrating from freshwater to the ocean to grow and mature, then returning to freshwater to spawn) behaviors.

The Coastal-Puget Sound Distinct Population Segment of bull trout encompasses all Pacific coast drainages within the State of Washington, including Puget Sound. It is separated from other populations of bull trout by the Columbia River basin to the south
