**Title:** Questionnaire for Nominees for the Annual National Clean Water Act Recognition Awards Program

**Abstract:** This ICR requests re-approval of an existing approval to collect data from EPA's National Clean Water Act Recognition Awards nominees. The awards are for the

following program categories: Operations and Maintenance (O&M) Excellence, Biosolids (Biosolids) Management Excellence, Combined Sewer Overflow Control (CSO) Program Excellence and Storm Water (SW) Management Excellence.

**Note:** Information collection approval for the Pretreatment awards Program is included in the National Pretreatment Program ICR (OMB No. 2040-0009, EPA ICR No. 0002.09), approved through November 30, 2006. The National Clean Water Act Recognition Awards Program is managed by EPA's Office of Wastewater Management (OWM). The Awards Program is authorized under Section 501(e) of the Clean Water Act, as amended. The Awards Program is intended to provide recognition to municipalities and industries which have demonstrated outstanding technological achievements, innovative processes, devices or other outstanding methods in their waste treatment and pollution abatement programs. Over 40 awards are presented annually. The achievements of these award winners are summarized in reports, news articles, national publications, and **Federal Register** notice.

Submission of information on behalf of the respondents is voluntary. No confidential information is requested. The Agency only collects information from award nominees under a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

An agency may conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and record keeping burden for this collection of information is estimated to average 8 hours (per respondents) and 6 hours (per State) per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose information.

**Respondents/Affected Entities:** Officials at public wastewater treatment plants, municipalities, States and manufacturing sites.

**Estimated Number of Respondents:** 195.

**Frequency of Response:** Annually.

**Estimated Total Annual Hour Burden:** 2030.

**Estimated Total Annual Cost:** \$94,975, includes \$0 annualized capital or O&M costs.

**Changes in Estimates:** The burden estimated in this supporting statement changes OMB's inventory as a result of a decrease in the estimated number of respondents (from 200 respondents to 195 respondents), changes to review time and reporting estimates (from 2800 burden hours to 2030 hours) and adjustments made to estimated personnel costs. The change reflects a decrease of 5 respondents and 770 burden hours in the total estimated burden currently identified in the OMB inventory of approved ICR burdens.
