

States has acted inconsistently with Articles 1, 2.1, 2.4, 2.4.2, 3 (including Articles 3.1, 3.2 and 3.5, 5.8, 9.1, 9.3, 9.5, 11 (including Articles 11.2 and 11.3) and 18.4 of the AD Agreement, Articles VI:1 and VI:2 of the GATT 1994, and Article XVI:4 of the WTO Agreement.

With respect to the claims of WTO-inconsistency, the EC request for the establishment of a panel refers to the following:

- In new investigations,
- With respect to both the EC's "as such" and "as applied" claims, the comparison of export prices and normal values on a weighted average to weighted average basis, without any offset for instances of non-dumping, results in the calculation of a dumping margin and amount of dumping in excess of the actual dumping practiced by the companies concerned;
- With respect to the EC's "as applied" claims, the comparison described in the preceding paragraph results in the erroneous inclusion of imports from certain companies as "dumped imports" for purposes of determining injury and causation;
- In reviews, with respect to both the EC's "as such" and "as applied" claims, the comparison of export prices and normal values on a weighted average to transaction basis, without any offset for instances of non-dumping, results in the calculation of a dumping margin and the collection of an amount of antidumping duties in excess of the actual dumping practiced by the companies concerned.
