

**ACTION:** Notice of meeting.

**SUMMARY:** Pursuant to Public Law 106–503, the Scientific Earthquake Studies Advisory Committee (SESAC) will hold its eighth meeting. The meeting location is the Teton Mountain Lodge, 3385 West Village Drive, Teton Village, Wyoming 83025. The Committee is comprised of members from academia, industry, and State government. The Committee shall advise the Director of the U.S. Geological Survey (USGS) on matters relating to the USGS's participation in the National Earthquake Hazards Reduction Program.

The Committee will review the overall direction of the U.S. Geological Survey's Earthquake Hazards Program with emphasis on activities in the U.S. Intermountain West region.

Meetings of the Scientific Earthquake Studies Advisory Committee are open to the public.

**DATES:** Session commencing at 8 a.m. on September 13, 2004, and adjourning at 5:00 p.m. on September 14, 2004.

**FOR FURTHER INFORMATION CONTACT:** Dr. David Applegate, U.S. Geological Survey, MS 905, 12201 Sunrise Valley Drive, Reston, Virginia 20192, (703) 648–6714.

Dated: August 5, 2004.

### Minerals Management Service

#### Agency Information Collection Activities: Submitted for Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of extension of two currently approved information

collections (OMB Control Numbers 1010–0018 and 1010–0039).

**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), we are notifying the public that we have submitted to OMB for review and approval two information collection requests (ICRs) entitled “Form MMS–126, Well Potential Test Report (WPT)” and “Form MMS–127, Sensitive Reservoir Information Report (SRI).” This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

**DATES:** Submit written comments by September 20, 2004.

**ADDRESSES:** You may submit comments either by fax (202) 395–6566 or email (*OIRA\_DOCKET@omb.eop.gov*) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1010–0018 or 1010–0039). Mail or hand carry a copy of your comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170–4817. If you wish to email your comments to MMS, the address is: *rules.comments@mms.gov*. Reference Information Collection 1010–0018 or 1010–0039 in your subject line and mark your message for return receipt. Include your name and return address in your message text.

**FOR FURTHER INFORMATION CONTACT:** Arlene Bajusz, Rules Processing Team, (703) 787–1600. You may also contact Arlene Bajusz to obtain a copy, at no cost, of forms MMS–126 and MMS–127.

#### **SUPPLEMENTARY INFORMATION:**

*Titles and OMB Control Numbers:* Form MMS–126, Well Potential Test Report (WPT), 1010–0039.

Form MMS–127, Sensitive Reservoir Information Report (SRI), 1010–0018.

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and

to preserve and maintain free enterprise competition.

Section 5(a) of the OCS Lands Act requires the Secretary to prescribe rules and regulations "to provide for the prevention of waste, and conservation of the natural resources of the Outer Continental Shelf, and the protection of correlative rights therein" and to include provisions "for the prompt and efficient exploration and development of a lease area."

These information collection requests (ICRs) concern forms used to collect information required under 30 CFR part 250. Various sections of 30 CFR part 250, subpart K, require respondents to submit forms MMS-126 and MMS-127. MMS District and Regional Supervisors use the information on form MMS-126 for various environmental, reservoir, reserves, and conservation analyses, including the determination of maximum production rates (MPRs) when necessary for certain oil and gas completions. The form contains information concerning the conditions and results of a well potential test. This requirement implements the conservation provisions of the OCS Lands Act and 30 CFR part 250. The information obtained from the well potential test is essential to determine if an MPR is necessary for a well and to establish the appropriate rate. It is not possible to specify an MPR in the absence of information about the production rate capability (potential) of the well.

MMS District and Regional Supervisors use the information submitted on form MMS-127 to determine whether a rate-sensitive reservoir is being prudently developed. This represents an essential control mechanism that MMS uses to regulate production rates from each sensitive reservoir being actively produced. Occasionally, the information available on a reservoir early in its producing life may indicate it to be non-sensitive, while later and more complete information would establish the reservoir as being sensitive. Production from a well completed in the gas cap of a sensitive reservoir requires approval from the Regional Supervisor. The information submitted on form MMS-127 provides reservoir parameters that are revised at least annually or sooner if reservoir development results in a change in reservoir interpretation. The engineers and geologists use the information for rate control and reservoir studies.

MMS will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing

regulations (43 CFR part 2) and under regulations at 30 CFR 250.196, "Data and information to be made available to the public." No items of a sensitive nature are collected. Responses are mandatory.

*Frequency:* On occasion but not less than annually.

*Estimated Number and Description of Respondents:* Approximately 151 Federal OCS oil and gas or sulphur lessees.

*Estimated Reporting and Recordkeeping "Hour" Burden:* The estimated annual "hour" burden for form MMS-126 is a total of 795 hours (average burden of 0.6 hour per form). The estimated annual "hour" burden for form MMS-127 is a total of 1,194 hours (average burden of 1.2 hours per form).

*Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden:* MMS has identified no "non-hour cost" burden associated with either form MMS-126 or MMS-127.

*Public Disclosure Statement:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

*Comments:* Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " \* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \* " Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on December 12, 2003, we published a **Federal Register** notice (68 FR 69419) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB control numbers for the information collection requirements imposed by the 30 CFR part 250 regulations and forms; specifies that the public may comment at anytime on these collections of information; and provides the address to

which they should send comments. This information is also contained in the PRA statement on each of the forms. We have received no comments in response to these efforts.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by September 20, 2004.

*Public Comment Policy:* MMS's practice is to make comments, including names and addresses of respondents, available for public review during regular business hours. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor the request to the extent allowable by the law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

*MMS Federal Register Liaison Officer:* Denise Johnson (202) 208-3976.
