#### The National Institutes of Health

Submission for OMB Review; Comment Request; Brain Power! The NIDA Junior Scientist Program and the Companion Program, Brain Power! Challenge

**SUMMARY:** Under the provisions of section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute on Drug Abuse (NIDA), the

National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the Federal Register on April 1, 2004, page 17194, and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number. Proposed Collection: Title: Brain

Power! The NIDA Junior Scientist Program, for grades K-5, and the companion program for Middle School, the Brain Power! Challenge. Type of Information Collection Request: NEW. Need and Use of Information Collection: This is a request for a three-year clearance to evaluate the effectiveness of the Brain Power! Program's ability to: (1) Increase student's knowledge about the biology of the brain and the neurobiology of drug addiction, (2) increase positive attitudes toward science, careers in science, science as an enjoyable endeavor, and the use of animals in research; and stimulate interest in scientific careers; and (3) engender more realistic perceptions of scientists as being from many races, ages, and genders. The secondary goals of the evaluation are to determine the Program's impact on attitudes and intentions toward drug use. The findings will provide valuable information concerning the goals of NIDA's Science Education Program of increasing scientific literacy and stimulating interest in scientific careers. In order to test the effectiveness of the evaluation, information will be collected from students before and after exposure to the curriculum with preand post-test self-report measures. Surveys will also be administered to teachers after the completion of the program to examine ease and fidelity of implementation, as well as impact in knowledge and understanding of the neurobiology of addiction. Surveys will be administered to parents to obtain parental reaction and opinion on the materials and the degree to which parents find the curriculum informative and appropriate.

Frequency of Response: On occasion.
Affected Public: Elementary and middle school students, teachers, and parents.
Type of Respondents: Students,
Teachers, and Parents. The reporting

burden is as follows: Estimated Number of Respondents: 1,437; Estimated Number of Responses per Respondent: Students: 2; Parents and teachers: 1; Average Burden Hours Per Response: Students and Teachers: .5; Parents of students K–grade 5: .25; Parents of students grades 6–9: .5; *Estimated Total Annual Burden Hours Requested*: 434.83. There are no Capital Costs to

report. There are no Operating or Maintenance Costs to report. The estimated annualized burden is summarized below.

Type of respondents	Estimated number of re- spondents	Estimated number of re- sponses per respondent	Average burden hours per re- sponse	Estimated total burden hours requested
