SUPPLEMENTARY INFORMATION:

Background

On March 5, 2004, the Department published in the **Federal Register** the Preliminary Results (see 69 FR 10402).

On March 25, 2004, and in accordance with 19 CFR 351.301(c)(3)(ii), the petitioner² submitted additional publicly available information for consideration in the final results.

On May 10, 2004, the petitioner submitted its case brief, and on May 17, 2004, the respondents submitted a rebuttal brief.

Scope of Order

The products covered by this order are brake rotors made of gray cast iron, whether finished, semifinished, or unfinished, ranging in diameter from 8 to 16 inches (20.32 to 40.64 centimeters) and in weight from 8 to 45 pounds (3.63 to 20.41 kilograms). The size parameters (weight and dimension) of the brake rotors limit their use to the following

Laizhou Luyuan Automobile Fittings Co. ("Laizhou Luyuan"); and (20) Shenyang Honbase Machinery Co., Ltd. ("Shenyang Honbase"). The respondent in the new shipper review is (21) Laizhou City Luqi Machinery Co., Ltd. ("Luqi").

The excluded exporter/producer combinations are: (1) Xianjiang/Zibo Botai Manufacturing Co., Ltd.; (2) CAIEC/Laizhou CAPCO; (3) Laizhou CAPCO/Laizhou CAPCO; (4) Laizhou Luyuan/Laizhou Luyuan or Shenyang Honbase; or (5) Shenyang Honbase/Laizhou Luyuan or Shenyang Honbase.

² The petitioner is the Coalition for the Preservation of American Brake Drum and Rotor Aftermarket Manufacturers.

types of motor vehicles: automobiles, all-terrain vehicles, vans and recreational vehicles under "one ton and a half," and light trucks designated as "one ton and a half."

Finished brake rotors are those that are ready for sale and installation without any further operations. Semi-finished rotors are those on which the surface is not entirely smooth, and have undergone some drilling. Unfinished rotors are those which have undergone some grinding or turning.

These brake rotors are for motor vehicles, and do not contain in the casting a logo of an original equipment manufacturer ("OEM") which produces vehicles sold in the United States (e.g., General Motors, Ford, Chrysler, Honda, Toyota, Volvo). Brake rotors covered in this order are not certified by OEM producers of vehicles sold in the United States. The scope also includes composite brake rotors that are made of gray cast iron, which contain a steel plate, but otherwise meet the above criteria. Excluded from the scope of this order are brake rotors made of gray cast iron, whether finished, semifinished, or unfinished, with a diameter less than 8 inches or greater than 16 inches (less than 20.32 centimeters or greater than 40.64 centimeters) and a weight less than 8 pounds or greater than 45 pounds (less than 3.63 kilograms or greater than 20.41 kilograms).

Brake rotors are currently classifiable under subheading 8708.39.5010 of the *Harmonized Tariff Schedule of the United States* ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this order is dispositive.

Partial Rescission of Administrative Review

Pursuant to 19 CFR 351.213(d)(3), we continue to find that no shipments of subject merchandise were made to the United States during the POR by the exporters which are part of the three exporter/producer combinations (i.e., Xianjiang, CAIEC, Laizhou CAPCO, Laizhou Luyuan and Shenyang Honbase) which received zero rates in the less-than-fair-value ("LTFV") investigation, or the four exporters (i.e., Shanxi Fengkun, Hengtai, Golden Harvest and Xumingyuan) which made no-shipment claims (see *Preliminary Results* at 69 FR 10404). Therefore, in accordance with 19 CFR 351.213(d)(3), we are rescinding the administrative review with respect to all of the above-mentioned companies because we found no evidence that these companies made shipments of the subject merchandise during the POR.
