

send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the Department is currently developing indicators and measures that will yield information on various aspects of the quality of the Research and Innovation to Improve Services and Results for Children with Disabilities program. Included in these indicators and measures will be those that assess the quality and relevance of newly funded research projects. Two indicators will address the quality of new projects. First, an external panel of eminent senior scientists will review the quality of a randomly selected sample of newly funded research applications, and the percentage of new projects that are deemed to be of high quality will be determined. Second, because much of the Department's work focuses on questions of effectiveness, newly funded applications will be evaluated to identify those that address causal questions and then to determine what percentage of those projects use randomized field trials to answer the causal questions. To evaluate the relevance of newly funded research projects, a panel of experienced education practitioners and administrators will review descriptions of a randomly selected sample of newly funded projects and rate the degree to which the projects are relevant to practice.

Other indicators and measures are still under development in areas such as the quality of project products and long-

term impact. Data on these measures will be collected from the projects funded under this notice. Grantees will also be required to report information on their projects' performance in annual reports to the Department (EDGAR, 34 CFR 75.590).

We will notify grantees of the performance measures once they are developed.

### Federal Energy Regulatory Commission

[Docket No. EL04-112-000]

#### The Governors of: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont; Notice of Petition for Declaratory Order

June 30, 2004.

Take notice that on June 25, 2004, the Governors of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont (collective, the Petitioners) filed a Joint Petition for Declaratory Order to Form a New England Regional State Committee. The Petitioners informed the Commission of their collective intention to form a non-profit corporation, the New England States Committee on Electricity (NESCOE), that will serve as the New England region's regional state committee. Petitioners state that NESCOE will focus on developing and making policy recommendations related to resource adequacy and system planning, and will affirmatively investigate and report to the New England Governors on policy questions concerning the possibility of a regional authority for siting of interstate transmission facilities.

The Petitioners request the Commission's declaratory order to require RTO New England (RTO-NE) and the New England participating transmission owners (TOs) provide NESCOE, absent exigent circumstances, with written notice of any proposed additions or changes to market rules or tariffs within a reasonable time before filing the proposed additions or changes to market rules or tariffs within a reasonable time before filing the proposal; require that RTO-NE and the TOs give NESCOE a reasonable opportunity to make determinations regarding any proposed additions or changes to market rules and tariffs that affect matters within the scope of NESCOE's responsibility; require RTO-NE and the TOs to file with the Commission any determinations made by NESCOE, along with an explanation of how the determination was incorporated into RTO-NE's or the TOs' proposal or why it was not followed; require that RTO-NE or the TOs file NESCOE's determinations with the Commission pursuant to their respective authorities under section 205 of the Federal Power Act; require NESCOE to be funded by a regional tariff administered by the RTO-NE and ultimately collected from all New England retail electricity customers;

and, require that RTO-NE, the New England Power Pool, and the TOs file amendments to their respective jurisdictional tariffs and agreements to reflect the Commission's intention in the declaratory order resulting from this Petition.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary (FERRIS) link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.
